Made easy for you!

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature authorizes that payment be made and authorizes release or any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, hobby, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.2(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown in Medicare assigned or TRICARE participation cases; the physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the fee charged submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "insured", i.e., items 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by health employee; 2) they must be integral, although incidental part of a covered physician service; 3) they must be of lands commonly furnished in physician's office; and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, other civilian or military (refer to 5 USC 6538). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 434.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OMB to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1662, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(a) (6), and 44 USC 3101-41 CFR 101 et seq and 10 USC 1079 and 1080; 5 USC 8101 et seq; and 30 USC 901 et seq; 30 USC 613 E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies; for the effective administration of Federal programs that require other third parties pay to the primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 03-70-0301, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 127, page 37549, Wed Sept 12, 1990, or as updated and republished.

FOR OVICP CLAIMS: Department of Labor Privacy Act of 1974. "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990. See ESA 5, ESA-8, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with debt collection claims, and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 9801-9812 provides penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to document fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or omissions, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1107. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to OMB, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-28-05, Baltimore, Maryland 21261-1850. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

1. CERVICAL MR
2. THORACIC MR

MRI CERVICAL SPINE W/O CONTRAST 30MIN,MRI THORACIC SPINE (DORSAL) W/O CONTRAST 30MIN

REASON FOR STUDY AND CLINICAL INFORMATION: MVA. Neck and back pain.

IMAGING SEQUENCES: Unenhanced multiplanar 3-T MR Imaging of the cervical spine is performed.

FINDINGS: The cervical spine is imaged from the skull base to the T3 vertebral body level.

The height of the cervical vertebral bodies is well-maintained. The cervical cord is homogeneous in signal intensity. There is mild reversal of normal cervical lordosis. No cerebellar tonsillar herniation is seen. No prevertebral soft tissue edema is noted and no edema is seen within the cervical vertebral bodies.

At C2-3 and C3-4, the canal and neural foramina are patent.

At C4-5, there is disc space narrowing and there is a shallow central disc extrusion. The canal and neural foramina still maintain their caliber.

At C5-6, a shallow central disc extrusion is seen which barely flattens the thecal sac. The canal and neural foramina are patent. Mild uncovertebral spurring is noted.

At C6-7 and C7-T1, the canal and neural foramina are patent. No annular bulge is seen.

There is a gentle right sided curvature of the lower cervical spine is noted.

IMPRESSION:

1. SHALLOW DISC EXTRUSIONS ARE NOTED AT C4-5, C5-6. THE CANAL AND NEURAL FORAMINA ARE PATENT THROUGHOUT THE CERVICAL SPINE.
2. THERE IS MILD REVERSAL OF NORMAL CERVICAL LORDOSIS. GENTLE RIGHT SIDED CURVATURE OF THE LOWER CERVICAL SPINE IS PRESENT.
3. THE MRI FINDINGS ARE CONSISTENT WITH PHASE 2 PATHOPHYSIOLOGY OF THE CHIROPRACTIC CLINICAL DIAGNOSIS OF VERTEBRAL SUBLUXATION COMPLEX.

MRI THORACIC SPINE (DORSAL) W/O CONTRAST 30MIN**REASON FOR STUDY AND CLINICAL INFORMATION:** MVA. Neck and back pain.**IMAGING SEQUENCES:** Unenhanced multiplanar 3-T MR Imaging of the thoracic spine is performed.**FINDINGS:** The thoracic spine is imaged from T1-2 to the T12-L1 level.

The height of the thoracic vertebral bodies is well-maintained. No suspicious edema is seen within the thoracic vertebral bodies on the STIR images and no suspicious prevertebral soft tissue edema is seen. The height of the thoracic vertebral bodies is well-maintained and the thoracic cord is homogeneous in signal intensity.

From T1-2 to T9-10, the discs are well-hydrated. The canal and neural foramina are patent.

A hemangioma is seen within the T10 vertebral body.

At T10-11, mild facet arthropathy is seen. The canal and neural foramina are patent.

At T11-12 and T12-L1 the discs are well-hydrated. The canal and neural foramina are widely patent.

IMPRESSION:

1. THE CANAL AND NEURAL FORAMINA ARE PATENT THROUGHOUT THE THORACIC SPINE. THE HEIGHT OF THE THORACIC VERTEBRAL BODIES IS WELL-MAINTAINED. NO PREVERTEBRAL SOFT TISSUE EDEMA IS SEEN. A HEMANGIOMA IS NOTED WITHIN THE T10 VERTEBRAL BODY.
2. THE MRI FINDINGS ARE CONSISTENT WITH PHASE 1 PATHOPHYSIOLOGY OF THE CHIROPRACTIC CLINICAL DIAGNOSIS OF VERTEBRAL SUBLUXATION COMPLEX.

**NEW YORK MOTOR VEHICLE NO-FAULT INSURANCE LAW
(ASSIGNMENTS OF BENEFITS FORM)**
(For Accidents Occurring on and After 3/1/02)

I, DANIELLE HARWELL ("Assignor") hereby assign to Buffalo Diagnostic Imaging, PLLC, all the right privileges and remedies to payment for health care services provided by assignee to which I am entitled under Article 51 (the No-Fault Statute) of the Insurance Law.

The Assignee hereby certifies that they have not received any payment from or on the behalf of the Assignor and shall not pursue payment directly from the Assignor for services provided by said Assignee for injuries sustained due to the motor vehicle accident which occurred on , notwithstanding any other agreement to the contrary.

This agreement may be revoked by the assignee when benefits are not payable based upon the assignor's lack of coverage and/or violation of a policy condition due to the action or conduct of the assignor.

ANY PERSON WHO KNOWLINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON FILES AN APPLICATION FOR COMMERCIAL INSURANCE OR A STATEMENT OF CLAIM FOR ANY COMMERCIAL OR PERSONAL INSURANCE BENEFITS CONTAINING ANY MATERIALLY FALSE INFORMATION, OR CONCEALS FOR THE PURPOSE OF THE MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, AND ANY PERSON WHO, IN CONNECTION WITH SUCH APPLICATION OR CLAIM KNOWLINGLY MAKES OR KNOWLINGLY ASSISTS, ABETS, SOLICITS OR CONSPIRES WITH ANOTHER TO MAKE A FALSE REPORT OF THE THEFT, DESTRUCTION, OR DAMAGE OR CONVERSION OF ANY MOTOR VEHICLE TO A LAW ENFORCEMENT AGENCY, THE DEPARTMENT OF MOTOR VEHICLES OR AN INSURANCE COMPANY, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME, AND SHALL ALSO BE SUBJECT TO A CIVIL PENALTY NOT TO EXCEED FIVE THOUSAND DOLLARS AND THE VALUE OF THE SUBJECT MOTOR VEHICLE OR STATED CLAIM FOR EACH VIOLATION.

APPROVED OMB-0938-1197 FORM 1500 (02-12)

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal offence under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

HEICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item B is completed, the patient's signature authorizes release of the information to the health plan or agency named. In addition to Medicare or TRICARE participation cases, the physician agrees to accept his charge determinations of the Medicare carrier or TRICARE as responsible party for the deductible, coinsurance and non-covered services. Co-insurance and the deductible are borne upon the charge determinations of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniform Services, anniversaries of service, or otherwise. In cases non-enrolled in "Inpatient," "In," "Area 1," "2," "6," "7," "8," and "11,"

BLACK LUNG AND RELATED DISEASES

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds I certify that: 1) the information on this form is true, accurate and complete; 2) I have furnished any and all applicable law, regulations, and program instructions, which are available from the Medicare coordinator; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim (whether submitted by me or on my behalf) by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment regardless but not limited to the Federal and/or Statewide statute and Physician Self-Referral law under Medicare (as set forth on this form) to make medically necessary and personally furnished by me or were furnished incident to my professional services by my employee under my direct supervision except as otherwise expressly permitted by Medicare or TRICARE; 5) for each service rendered incident to my professional services, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering such service as reported in the designated section for Services to be considered "incident to" a physician's professional services; 6) they must be rendered under the physician's direct supervision by her/his employees; 7) they must be an integral, although incidental part of a covered physician service; 8) they must be of kinds commonly furnished in physician's offices; and 9) the portions of non-physician services must be included on the physician's bill.

For TRICARE claims, I further certify that I (or any employee) who rendered services, am not an active-duty member of the Uniformed Services or a civilian employee of the United States Government, or a contract employee of the United States Government, or a contractor of the United States Government, either civil or military (relief to 6 USC 3639). For Blue-Loop claims, I further certify also, the services performed were for a Blister Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by section 101, and regulations (42 CFR 424.31).

NOTICE: Any one who misrepresents or omits essential information to receive payment from Federal funds requested by the family may upon conviction be subject to fine and imprisonment under applicable Federal laws.

MONTELE VO PROBLEMS? ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, PEGA, AND BLACK LUNG INFORMATION (PRIVACY ACT ST-101-101)

We are authorized by CMS TRICARE and QWCP to ask you for information needed in the administration of its Medicare, TRICARE, PBCA, and Black Lung programs. Authority to collect information is in section 205(l), 1029, 1032 and 107 of the Social Security Act as amended, 42 CFR 411.24(j), and 424 Stat. (b), and 44 USC 3101 et seq; 44 CFR 10, et seq; and 10 USC 1070 et seq; 5 USC 8101 et seq; and 30 USC 901 et seq; 48 USC 619; E.O. 12857.

This information may be used to determine your eligibility for other programs and services you receive.

The information may also be given to other providers of services, cameras, intermediaries, medical record boards, health plans, and other organizations or Federal agencies, for the disclosure or administration of Federal provisions that require other third parties to pay primary to Federal programs and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 08-70-0501, titled, "Centex Medicare Claims Record," published in the Federal Register, Vol. 53 No. 177, page 37649, Wed. Sept. 12, 1990, as amended and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records" Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, See ESA-6, ESA-6, ESA-12, ESA-13, ESA-80, or as updated and republished.

FOR TRIDARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and

ROUTINE USE(S). Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation.

concerning their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recompence claims; and to Congressional Offices in response to inquiries made at the request of the congressional offices.

DISCLOSURES: Voluntary; however failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment.

Under the proposed amendment, if a company fails to provide timely information, such as financial results, timely payment of the CRA's liability to provide financial information under PEPCA could be deemed an obstruction.

for withholding this information.

ing and Privacy Protection Act of 1988, permits the government

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible,

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by _____.

NOTICE This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that:

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0595-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C-06-08, Baltimore, Maryland 21244-2381. This notice is for comment purposes only. Response to this survey is voluntary.

**NEW YORK MOTOR VEHICLE NO-FAULT INSURANCE LAW
ASSIGNMENT OF BENEFITS FORM
(For accidents occurring on or after 03/01/02)**

I, Danielle Harwell, ("Assignor"/Patient's name - print), hereby assign to Colleen Marx, L.M.T., ("Assignee"/Print hospital or health care provider's name) all rights, privileges and remedies to payment for health care services provided by assignee to which I am entitled under Article 51, (the No-Fault statute) of the Insurance Law.

The Assignee hereby certifies that they have not received any payment from or on behalf of the Assignor and shall not pursue payment directly from the Assignor for services provided by said Assignee for injuries sustained due to the motor vehicle accident, which occurred on 10/31/15 (print date), notwithstanding any other agreement to the contrary.

This agreement may be revoked by the Assignee when benefits are not payable based upon the Assignor's lack of coverage and/or violation of a policy condition due to the actions or conduct of the Assignor.

ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON FILES AN APPLICATION FOR COMMERCIAL INSURANCE OR A STATEMENT OF CLAIM FOR ANY COMMERCIAL OR PERSONAL INSURANCE BENEFITS CONTAINING ANY MATERIALLY FALSE INFORMATION, OR CONCEALS FOR THE PURPOSE OF MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, AND ANY PERSON WHO, SOLICITS OR CONSPIRES WITH ANOTHER TO MAKE A FALSE REPORT OF THE THEFT, DESTRUCTION, DAMAGE OR CONVERSION OF ANY MOTOR VEHICLE TO A LAW ENFORCEMENT AGENCY, THE DEPARTMENT OF MOTOR VEHICLES OR AN INSURANCE, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME AND SHALL ALSO BE SUBJECT TO A CIVIL PENALTY NOT TO EXCEED FIVE THOUSAND DOLLARS AND THE VALUE OF THE SUBJECT MOTOR VEHICLES OR STATED CLAIM FOR EACH VIOLATION.

PHYSICIAN OR SUPPLIER INFORMATION

PATIENT AND INSURED INFORMATION

BECAUSE THIS FORM IS USED BY VARIOUS COVER-AGENCY AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who fraudulently files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PAYMENTS ONLY

MEDICARE AND TRICARE PAYMENTS. A patient's signature requests that payment be made and authority released of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and related the person has employer group health insurance, liability, no-deductible, worker's compensation or other insurance which is responsible in full or in part for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient agrees to authorize release of all information to his/her health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary at the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain VA facilities and the Uniformed Services. Information on the patient's sponsor should be provided in these items captioned "Insured"; i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amounts paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-fraud statute and Physician Self-Referral law (commonly known as Stark Law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SBN) of the primary individual rendering such service is reported in the designated section. For services to be considered "incident to" a physician's professional service, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's office, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I for any employee whose rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military under 5 USC 3338. For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 423.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds, indicated by this form may upon conviction be subject to loss and/or imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCW to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 2051(i), 1622, 1672 and 1674 of the Social Security Act as amended, 42 CFR 411.27(a) and 124(a)(6), and 44 USC 3101, 41 CFR 101 et seq. and 10 USC 1079 and 1085; 5 USC 3101 et seq. and 30 USC 901 et seq.; 58 USC 813, E.O. 13697.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if no services and supplies you received are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used in a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0601, titled, "Computer Matching Claims Record," published in the Federal Register, Vol. 65 No. 177, page 37549, Wed Sept. 12, 1990, or as updated and republished.

FOR OWCW CLAIMS: Department of Labor, Privacy Act of 1974, "Reputation of Notice of Systems of Records," Federal Register Vol. 65 No. 40, Wed Feb. 28, 1990, See ESA 5, ESA-6, ESA-12, ESA-19, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE E PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made re. the request of the person to whom a record pertains. Appropriate disclosures may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE(R): Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1138B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to account, in payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER) I certify that the services listed above were medically indicated and necessary in the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS 7500 Security Boulevard, Attn: PRA Reports, Clearance Office, Mail Stop C4-26-03, Baltimore, Maryland 21244-1830. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

**NEW YORK MOTOR VEHICLE NO-FAULT INSURANCE LAW
ASSIGNMENT OF BENEFITS FORM
(For accidents occurring on or after 03/01/02)**

I, Sean Harwell, ("Assignor"/Patient's name - print), hereby assign to Colleen Marx, L.M.T., ("Assignee"/Print hospital or health care provider's name) all rights, privileges and remedies to payment for health care services provided by assignee to which I am entitled under Article 51, (the No-Fault statute) of the Insurance Law.

The Assignee hereby certifies that they have not received any payment from or on behalf of the Assignor and shall not pursue payment directly from the Assignor for services provided by said Assignee for injuries sustained due to the motor vehicle accident, which occurred on 10/31/15 (print date), notwithstanding any other agreement to the contrary.

This agreement may be revoked by the Assignee when benefits are not payable based upon the Assignor's lack of coverage and/or violation of a policy condition due to the actions or conduct of the Assignor.

ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON FILES AN APPLICATION FOR COMMERCIAL INSURANCE OR A STATEMENT OF CLAIM FOR ANY COMMERCIAL OR PERSONAL INSURANCE BENEFITS CONTAINING ANY MATERIALLY FALSE INFORMATION, OR CONCEALS FOR THE PURPOSE OF MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, AND ANY PERSON WHO, SOLICITS OR CONSPIRES WITH ANOTHER TO MAKE A FALSE REPORT OF THEFT, DESTRUCTION, DAMAGE OR CONVERSION OF ANY MOTOR VEHICLE TO A LAW ENFORCEMENT AGENCY, THE DEPARTMENT OF MOTOR VEHICLES OR AN INSURANCE, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME AND SHALL ALSO BE SUBJECT TO A CIVIL PENALTY NOT TO EXCEED FIVE THOUSAND DOLLARS AND THE VALUE OF THE SUBJECT MOTOR VEHICLES OR STATED CLAIM FOR EACH VIOLATION.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a claim or claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal and punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer or group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR §11.24(f). If item 9 is completed, the patient's signature authorizes releases of the information to the health plan or agency whom In healthcare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the healthcare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if the loss is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "Insured" - i.e., Items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide such information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Part B and Part C statutes and Physician Self-Referral laws (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI) license #, or SSN of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral although incidental part of a covered physician service, 3) they must be of kinds commonly furnished in physician's office, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims: I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to USC 5336). For Black Lung claims, I further certify that the services performed were for a Black Lung-related decedent.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 421.28).

NOTICE: Any one who misrepresents or fabricates covered information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(e), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(b)(6), and 44 USC 3101-31 CFR 101 et seq and 10 USC 1079 and 1085, 5 USC 8101 et seq and 30 USC 901 et seq 38 USC 812, E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, claims intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37519. Wed Sept. 12, 1990, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990. See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service; private collection agencies and consumer reporting agencies in connection with recompence claims; and to Congressional Offices in response to inquiries made of the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and oral and written liaison related to the operation of TRICARE.

DISCLOSURES: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, could delay payment of the claim. Failure to provide medical information under PEA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the Computer Matching and Privacy Protection Act of 1988 - permits the government to verify information by way of computer matches.

MEDICARE PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to decide fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicare program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment and similar cost-sharing charges.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and adjudication of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0738-1197. The time required to complete the information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Rm. PRA Reports Clearance Officer, Mail Stop C4-25-05, Baltimore, Maryland 21244-1860. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

MRI LUMBAR SPINE W/O CONTRAST 25MIN

REASON FOR STUDY AND CLINICAL INFORMATION: Non-radiating low back pain status post MVA two months ago.

IMAGING SEQUENCES: Unenhanced multiplanar 3-T MR Imaging of the lumbar spine is performed.

FINDINGS: The lumbar spine is imaged from T11-12 to the L5-S1 level. L5-S1 is the last labeled level for the purpose of the study.

The conus terminates at the level of the T12 vertebral body.

At T11-12, T12-L1, the discs are well-hydrated. The canal and neural foramina are patent.

At L1-2, there is a shallow annular bulge. The canal and neural foramina are widely patent.

At L2-3, the disc is well-hydrated. The canal and neural foramina maintain their caliber.

At L3-4, there is desiccated disc and disc space narrowing with facet arthropathy and there is a shallow annular bulge. These changes result in mild canal narrowing. The neural foramina are patent.

At L4-5, a desiccated disc is seen and there is a central disc protrusion (herniation) with annular tear which impresses upon the thecal sac. There is ligamentum flavum prominence as well and these changes do result in mild canal stenosis. Bilaterally the facet arthropathy and underlying annular bulge do result in mild bilateral recess and neural foraminal narrowing as well.

At L5-S1, hypertrophic facet changes are noted. There is desiccated disc with a central to left paracentral disc protrusion (herniation) and annular tear. The disc protrusion measures 0.5 cm in AP diameter. These changes result in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing. Centrally the canal maintains its caliber.

IMPRESSION:

1. AT L5-S1 THERE IS A CENTRAL TO LEFT PARACENTRAL DISC PROTRUSION (HERNINATION) WITH FACET ARTHROPATHY RESULTING IN BILATERAL NEURAL FORAMINAL AND RECESS NARROWING LEFT GREATER THAN RIGHT.
2. AT L4-5 THERE IS A CENTRAL DISC PROTRUSION (HERNINATION) WITH ANNULAR TEAR WITH MILD FACET ARTHROPATHY AND LIGAMENTUM FLAVUM PROMINENCE ARE ALSO SEEN AND THESE CHANGES RESULT IN MILD BILATERAL NEURAL FORAMINAL NARROWING AND MILD CANAL STENOSIS.

12:55:41 PM

MRI CERVICAL SPINE W/O CONTRAST 30MIN,MRI THORACIC SPINE (DORSAL) W/O CONTRAST 30MIN

REASON FOR STUDY AND CLINICAL INFORMATION: MVA, Neck and back pain.

IMAGING SEQUENCES: Unenhanced multiplanar 3-T MR Imaging of the cervical spine is performed.

FINDINGS: The cervical spine is imaged from the skull base to the T3 vertebral body level.

The height of the cervical vertebral bodies is well-maintained. The cervical cord is homogeneous in signal intensity. There is mild reversal of normal cervical lordosis. No cerebellar tonsillar herniation is seen. No prevertebral soft tissue edema is noted and no edema is seen within the cervical vertebral bodies.

At C2-3 and C3-4, the canal and neural foramina are patent.

At C4-5, there is disc space narrowing and there is a shallow central disc extrusion. The canal and neural foramina still maintain their caliber.

At C5-6, a shallow central disc extrusion is seen which barely flattens the thecal sac. The canal and neural foramina are patent. Mild uncovertebral spurring is noted.

At C6-7 and C7-T1, the canal and neural foramina are patent. No annular bulge is seen.

There is a gentle right sided curvature of the lower cervical spine is noted.

IMPRESSION:

1. SHALLOW DISC EXTRUSIONS ARE NOTED AT C4-5, C5-6. THE CANAL AND NEURAL FORAMINA ARE PATENT THROUGHOUT THE CERVICAL SPINE.
2. THERE IS MILD REVERSAL OF NORMAL CERVICAL LORDOSIS. GENTLE RIGHT SIDED CURVATURE OF THE LOWER CERVICAL SPINE IS PRESENT.
3. THE MRI FINDINGS ARE CONSISTENT WITH PHASE 2 PATHOPHYSIOLOGY OF THE CHIROPRACTIC CLINICAL DIAGNOSIS OF VERTEBRAL SUBLUXATION COMPLEX.

MRI THORACIC SPINE (DORSAL) W/O CONTRAST 30MIN**REASON FOR STUDY AND CLINICAL INFORMATION:** MVA, Neck and back pain.**IMAGING SEQUENCES:** Unenhanced multiplanar 3-T MR Imaging of the thoracic spine is performed.**FINDINGS:** The thoracic spine is imaged from T1-2 to the T12-L1 level.

The height of the thoracic vertebral bodies is well-maintained. No suspicious edema is seen within the thoracic vertebral bodies on the STIR images and no suspicious prevertebral soft tissue edema is seen. The height of the thoracic vertebral bodies is well-maintained and the thoracic cord is homogeneous in signal intensity.

From T1-2 to T9-10, the discs are well-hydrated. The canal and neural foramina are patent.

A hemangioma is seen within the T10 vertebral body.

At T10-11, mild facet arthropathy is seen. The canal and neural foramina are patent.

At T11-12 and T12-L1 the discs are well-hydrated. The canal and neural foramina are widely patent.

IMPRESSION:

1. THE CANAL AND NEURAL FORAMINA ARE PATENT THROUGHOUT THE THORACIC SPINE. THE HEIGHT OF THE THORACIC VERTEBRAL BODIES IS WELL-MAINTAINED. NO PREVERTEBRAL SOFT TISSUE EDEMA IS SEEN. A HEMANGIOMA IS NOTED WITHIN THE T10 VERTEBRAL BODY.
2. THE MRI FINDINGS ARE CONSISTENT WITH PHASE 1 PATHOPHYSIOLOGY OF THE CHIROPRACTIC CLINICAL DIAGNOSIS OF VERTEBRAL SUBLUXATION COMPLEX.

Thank you very much for referring this patient to us.

Sincerely,

**Buffalo Diagnostic

LETTER OF MEDICAL NECESSITY

Name of Patient: Danielle Harwell #3438
 Patient's Date of Birth: 08/29/1980
 Injury/Accident Date: 10/31/2015
 Claim Number: 013873940011059

PATIENT'S SUBJECTIVE COMPLAINTS AND/OR SYMPTOMS:

1. Arm/Hand numbness and tingling, pain, and/or weakness
2. Neck, Shoulder, Arm and Back pain
3. Painful neck lateral bending, extension, and flexion
4. Spasm and twitching of area musculature.

BRIEF SUMMARY OF PERTINENT OBJECTIVE/PHYSICAL FINDINGS:

1. Limited cervical spine range of motion
2. Palpable cervical paraspinal myospasms
3. Positive orthopedic testing: see exam notes
4. Cervical MRI report enclosed.

DIAGNOSIS CODES:

1. Differential Diagnoses: Cervical Radiculopathy versus CTS versus Ulnar Neuropathy
2. Cervical Sprain/Strain with Cervical Disc Derangement/Bulge/Herniation
3. Limb pain and numbness
4. Myospasms

DIAGNOSTIC TESTING ORDERED/PLANNED:

1. Bilateral Upper Extremity NCV/EMG Studies

IT IS THE PROFESSIONAL OPINIONS OF THE DOCTORS IN THIS OFFICE THAT FURTHER EVALUATION OF THIS PATIENT'S CONDITION WARRANTED REFERRAL FOR BILATERAL UPPER EXTREMITY NCV/EMG STUDIES IN ORDER TO FURTHER DETERMINE THE EXTENT OF THIS PATIENT'S INJURIES. THE RESULTS PROVIDED BY SAID DIAGNOSTIC STUDIES OFFER INFORMATION THAT WOULD OTHERWISE BE UNAVAILABLE. THIS INFORMATION IS VALUABLE IN DETERMINING APPROPRIATE PATIENT TREATMENT AND THE ULTIMATE EXTENT OF THE PATIENT'S INJURIES AND PROGNOSIS.

FOR SPECIFIC DETAILS AND CLINICAL DATA INCLUDING SUBJECTIVE, OBJECTIVE, ASSESSMENT, AND PLAN - SEE ENCLOSED DOCUMENTATION INCLUDING MRI/IMAGING REPORTS, OFFICE VISIT/SOAP NOTES, ETC.

Peter J. Guzinski, DC

Patient: Danielle Harwell #3438 DOB: 08/29/1980

Thursday November 12, 2015 Provider: Peter Guzinski DC EXAM

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Accident Description: Date of Accident: October 31, 2015. Time of Accident: 4:55 PM.

Narrative Description of Accident: Patient stated that she was stopped in traffic, while waiting for a truck to make a left hand turn into a driveway, when she was rear impacted. She stated that accident occurred while she was traveling South on Starin in the City of Buffalo, New York. Mrs Harwell, stated that this was a chain reaction accident. The vehicle that was behind her was also stopped and was pushed into her vehicle by an automobile that rear impacted them. *Patient Seatbelted?* Yes. *Position in vehicle driver.* *Patient Position at Impact:* looking straight ahead. *Impact Point of Patient's Car:* rear. *Brakes On At Time of Impact?* Yes. *Airbags Deployed?* No. *Did The Patient's Seat Break?* No. *Impact With Car Interior?* seatbelt; left chest; headrest back head. *Patient's Vehicle Type:* Honda Odyssey 2007. *Type of Other Vehicle:* Honda CRV 2015. *Road Conditions At Time of Accident:* dry. *Was There Loss of Consciousness?* no. *What Symptoms Were Immediately Present?* Patient stated that she was experiencing head, neck, back and left shoulder and arm pain.

Cervical: Patient presented today with the chief complaint of neck pain. Due to the pain, she is unable to lift heavy weights, she is unable to read as much as she would like, she has headaches almost all the time, she cannot perform her usual work, her normal sleep has been mildly disturbed (1-2 hrs, sleepless) and she is only able to engage in a few of her usual recreational activities. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* getting worse since last week. *Pain:* achy, tingling; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has nausea and dizziness associated with the headaches. At times, light bothers her. *Cervical Disability Index:* 52%. *Recent medical treatment for this condition:* Immediate Care evaluation on November 1, 2015 with chest and neck x-rays. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient presented today with the chief complaint of middle back and left anterior chest

**Encounter dated 11/12/2015 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/05/2016**

pain. She states that the chest pain is exactly in the same direction of the seat belt from left shoulder across chest to right hip. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* getting worse, since last week. *Pain:* achy; level: 7/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none.

Lumbar/Sacral/Pelvis: Patient presented today with the chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* getting worse, since last week. *Pain:* achy; level: 7/10. *Pain is constant.* *Pain radicles to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Prior chiropractic treatment for this condition:* None.

Current medications: pantoprazole 40 MG Delayed Release Oral Delayed Release Oral Tablet; CLARITIN Disintegrating Oral Tablet. *Problem List:* neck pain; low back pain. *Allergies:* Keflex; codeine; biaxin; Clindamycin; ranidin; soma; penicillin; cipro. *Surgeries:* 1990 tonsillectomy & adenoidectomy; 06/2012 D & C. *Occupational history:* Caregiver. *Family history:* stroke, diabetes, high cholesterol (father); diabetes, asthma, allergies (mother). *Social history:* married, Never smoker. Alcohol: none. Caffeine: none. Exercise: never.

Activity of Daily Living Form Bathing/Showering: moderate impairment; Bending forward/backward: moderate impairment; Brushing teeth: mild impairment; Buttoning shirt: mild impairment; Driving: severe impairment; Drying Hair: severe impairment; Household chores: severe impairment; Laundry: severe impairment; Lifting less than 10 lbs: moderate impairment; Lifting more than 10 lbs: severe impairment; Kneeling: severe impairment; Making Meals: severe impairment; Prolonged Sitting more than 30 minutes: moderate impairment; Putting pants on: moderate impairment; Putting shoes/socks on: severe impairment; Reaching above the shoulders: severe impairment; Restful night's sleep: severe impairment; Seated to standing position: moderate impairment; Sexual activity: severe impairment; Standing: moderate impairment; Squatting: severe impairment; Taking out the trash: severe impairment; Tying shoes: severe impairment; Using lavatory: severe impairment; Walking: moderate impairment.

Objective

Physical exam: Never smoker Temp: 97.6 BP (left): 170/80 Pulse (left/resting): 73. *Cervical:* Range of motion: flexion: 35/50 with pain neck and upper back; extension: 15/60 with pain neck and upper back; left rotation: 45/80 with pain neck and upper back; right rotation: 45/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 20/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Sensation:* all upper extremity sensory exams (C5-T1) were WNL to Pin prick. *Hypertonicity & Tenderness:* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe;

Encounter dated 11/12/2015 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/05/2016

Sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Reflexes:** bilateral upper extremity reflexes (C5, C6, C7) 2+. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left; Spinal Percussion C1-C7: Negative; left shoulder depression: Positive lower neck mostly to the left; right shoulder depression: Negative; neutral cervical compression: Positive lower neck mostly to the left; hyperextension cervical compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate to Severe. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 30/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 15/30 with pain lower back; right rotation: 30/30 with pain lower back; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain-lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Sensation:** left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Reflexes:** bilateral lower extremity reflexes (L4 and S1) 2+. **Orthopedic tests:** Patrick's/Fabre: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Ely's Heel to Buttock: Negative bilateral; Minor's sign: Negative; Nachlas : Negative bilateral; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Hibbs test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Cervical assessment: Based on the current history and examination results, I professionally feel that their current symptoms are causally related to the MVA sustained on October 31, 2015.

Diagnosis: S13.4XXA (Sprain of ligaments of cervical spine, initial encounter), S16.IXXA (Strain of muscle, fascia & tendon neck level, initial e), S33.5XXA (Sprain of ligaments of lumbar spine, initial encounter), S39.01ZA (Strain of muscle, fascia & tendon lower back, initial e), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M54.12 (Radiculopathy, cervical region), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic

Encounter dated 11/12/2015 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/05/2016

dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain). *Differential diagnosis:* Cervical disc herniation, Lumbar disc herniation, Thoracic disc herniation. *Prognosis:* Too early in care to determine. *Post-treatment analysis:* patient tolerated treatment without incident.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility; centralize pain; decrease muscular hypertonicity and tenderness. *Treatment schedule:* 3x/week for 2 weeks; 2x/week for 2 weeks; as needed for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily. *Home care:* ice; neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Informed consent:* Patient agreed to begin care, we discussed the possible side effects of treatment performed in this office, that post treatment soreness is to be expected, the importance of performing all prescribed home care, the possibility of their symptoms worsening before they improve, diagnosis was shared with patient and the patient verbalized an understanding. *Disability status:* Temporary partial starting on November 12 to December 12, 2015 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

1. CERVICAL MR
2. THORACIC MR

MRI CERVICAL SPINE W/O CONTRAST 30MIN,MRI THORACIC SPINE (DORSAL) W/O CONTRAST 30MIN

REASON FOR STUDY AND CLINICAL INFORMATION: MVA. Neck and back pain.

IMAGING SEQUENCES: Unenhanced multiplanar 3-T MR imaging of the cervical spine is performed.

FINDINGS: The cervical spine is imaged from the skull base to the T3 vertebral body level.

The height of the cervical vertebral bodies is well-maintained. The cervical cord is homogeneous in signal intensity. There is mild reversal of normal cervical lordosis. No cerebellar tonsillar herniation is seen. No prevertebral soft tissue edema is noted and no edema is seen within the cervical vertebral bodies.

At C2-3 and C3-4, the canal and neural foramina are patent.

At C4-5, there is disc space narrowing and there is a shallow central disc extrusion. The canal and neural foramina still maintain their caliber.

At C5-6, a shallow central disc extrusion is seen which barely flattens the thecal sac. The canal and neural foramina are patent. Mild uncovertebral spurring is noted.

At C6-7 and C7-T1, the canal and neural foramina are patent. No annular bulge is seen.

There is a gentle right sided curvature of the lower cervical spine is noted.

IMPRESSION:

1. SHALLOW DISC EXTRUSIONS ARE NOTED AT C4-5, C5-6. THE CANAL AND NEURAL FORAMINA ARE PATENT THROUGHOUT THE CERVICAL SPINE.
2. THERE IS MILD REVERSAL OF NORMAL CERVICAL LORDOSIS. GENTLE RIGHT SIDED CURVATURE OF THE LOWER CERVICAL SPINE IS PRESENT.
3. THE MRI FINDINGS ARE CONSISTENT WITH PHASE 2 PATHOPHYSIOLOGY OF THE CHIROPRACTIC CLINICAL DIAGNOSIS OF VERTEbral SUBLUXATION COMPLEX.

MRI THORACIC SPINE (DORSAL) W/O CONTRAST 30MIN

REASON FOR STUDY AND CLINICAL INFORMATION: MVA. Neck and back pain.

IMAGING SEQUENCES: Unenhanced multiplanar 3-T MR Imaging of the thoracic spine is performed.

FINDINGS: The thoracic spine is imaged from T1-2 to the T12-L1 level.

The height of the thoracic vertebral bodies is well-maintained. No suspicious edema is seen within the thoracic vertebral bodies on the STIR images and no suspicious prevertebral soft tissue edema is seen. The height of the thoracic vertebral bodies is well-maintained and the thoracic cord is homogeneous in signal intensity.

From T1-2 to T9-10, the discs are well-hydrated. The canal and neural foramina are patent.

A hemangioma is seen within the T10 vertebral body.

At T10-11, mild facet arthropathy is seen. The canal and neural foramina are patent.

At T11-12 and T12-L1 the discs are well-hydrated. The canal and neural foramina are widely patent.

IMPRESSION:

1. THE CANAL AND NEURAL FORAMINA ARE PATENT THROUGHOUT THE THORACIC SPINE. THE HEIGHT OF THE THORACIC VERTEBRAL BODIES IS WELL-MAINTAINED. NO PREVERTEBRAL SOFT TISSUE EDEMA IS SEEN. A HEMANGIOMA IS NOTED WITHIN THE T10 VERTEBRAL BODY.
2. THE MRI FINDINGS ARE CONSISTENT WITH PHASE I PATHOPHYSIOLOGY OF THE CHIROPRACTIC CLINICAL DIAGNOSIS OF VERTEBRAL SUBLUXATION COMPLEX.

Thank you very much for referring this patient to us.

Sincerely,

Buffalo Diagnostic Imaging, PLLC

PATIENT: Your health provider may agree to accept payment for health services performed directly from your insurer (Authorization to Pay Benefits) so that you are not required to make payment to the health provider at the time of service. Such agreement is optional on the part of the health provider and must be signed by both patient and health provider. You may use the optional authorization language provided below, by checking off the designated spot in item 20 of the form.

20. IF YOU HAVE CHOSEN TO AUTHORIZE THE DIRECT PAYMENT OF BENEFITS BY CHECKING THIS OPTION, YOU MAY NOT ALSO ENTER INTO AN ASSIGNMENT OF BENEFITS CONTAINED IN #21

AUTHORIZATION TO PAY BENEFITS:

I AUTHORIZE PAYMENT OF HEALTH BENEFITS TO THE UNDERSIGNED HEALTH CARE PROVIDER OR SUPPLIER OF SERVICES DESCRIBED BELOW. I RETAIN ALL RIGHTS, PRIVILEGES AND REMEDIES TO WHICH I AM ENTITLED UNDER ARTICLE 51 (THE NO-FAULT PROVISION) OF THE INSURANCE LAW.

PATIENT: Your health provider may agree to have you assign your right to No-Fault benefits from your insurer directly to your health provider (Assignment of Benefits). If you and your health provider agree to an assignment of benefits, you must both sign the agreement contained in # 21 or the prescribed NF-AOB form or its equivalent. The language contained in the assignment of benefits is mandatory and may not be altered or avoided by any other language added to this agreement or other written agreement.

21. IF YOU HAVE CHOSEN TO ASSIGN YOUR BENEFITS TO THE HEALTH PROVIDER BY CHECKING THIS OPTION, YOU MAY NOT ALSO ENTER INTO AN AUTHORIZATION TO PAY BENEFITS CONTAINED IN ITEM #20 ABOVE

ASSIGNMENT OF NO-FAULT BENEFITS:

I HEREBY ASSIGN TO THE HEALTH CARE PROVIDER INDICATED BELOW ALL RIGHTS, PRIVILEGES AND REMEDIES TO PAYMENT FOR HEALTH CARE SERVICES PROVIDED BY THE ASSIGNEE TO WHOM I AM ENTITLED UNDER ARTICLE 51 (THE NO-FAULT STATUTE) OF THE INSURANCE LAW. THE ASSIGNEE HEREBY CERTIFIES THAT THEY HAVE NOT RECEIVED ANY PAYMENT FROM OR ON BEHALF OF THE ASSIGNOR AND SHALL NOT PURSUE PAYMENT DIRECTLY FROM THE ASSIGNOR FOR SERVICES PROVIDED BY SAID ASSIGNEE FOR INJURIES SUSTAINED DUE TO THE MOTOR VEHICLE ACCIDENT, NOTWITHSTANDING ANY OTHER AGREEMENT TO THE CONTRARY. THIS AGREEMENT MAY BE REVOKED BY THE ASSIGNEE WHEN BENEFITS ARE NOT PAYABLE BASED UPON THE ASSIGNOR'S LACK OF COVERAGE AND/OR VIOLATION OF A POLICY CONDITION DUE TO THE ACTIONS OR CONDUCT OF THE ASSIGNOR.

**NEW YORK MOTOR VEHICLE NO-FAULT INSURANCE LAW
ASSIGNMENT OF BENEFITS FORM**

(FOR ACCIDENTS OCCURRING ON AND AFTER 3/1/02)

I, DANIELLE HARWELL, ("Assignor") hereby assign to General Diagnostic Associates Gary R. Smith, DC, ("Assignee")
 (Print patient's name) (Print hospital or health care provider name)
 all rights, privileges and remedies to payment for health care services provided by assignee to which I am
 entitled under Article 51 (the No-Fault statute) of the Insurance Law.

The Assignee hereby certifies that they have not received any payment from or on behalf of the Assignor and
 shall not pursue payment directly from the Assignor for services provided by said Assignee for injuries sustained
 due to the motor vehicle accident which occurred on 10-31-15, notwithstanding any other agreement
 (Print accident date)
 to the contrary.

This agreement may be revoked by the assignee when benefits are not payable based upon the assignor's lack
 of coverage and/or violation of a policy condition due to the actions or conduct of the assignor.

ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON
 FILES AN APPLICATION FOR COMMERCIAL INSURANCE OR A STATEMENT OF CLAIM FOR ANY COMMERCIAL OR
 PERSONAL INSURANCE BENEFITS CONTAINING ANY MATERIALLY FALSE INFORMATION, OR CONCEALS FOR THE
 PURPOSE OF MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, AND ANY PERSON WHO,
 IN CONNECTION WITH SUCH APPLICATION OR CLAIM, KNOWINGLY MAKES OR KNOWINGLY ASSISTS, ABETS,
 SOLICITS OR CONSPIRES WITH ANOTHER TO MAKE A FALSE REPORT OF THE THEFT, DESTRUCTION, DAMAGE OR
 CONVERSION OF ANY MOTOR VEHICLE TO A LAW ENFORCEMENT AGENCY, THE DEPARTMENT OF MOTOR
 VEHICLES OR AN INSURANCE COMPANY, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME, AND
 SHALL ALSO BE SUBJECT TO A CIVIL PENALTY NOT TO EXCEED FIVE THOUSAND DOLLARS AND THE VALUE OF
 THE SUBJECT MOTOR VEHICLE OR STATED CLAIM FOR EACH VIOLATION.

GARY R. SMITH, DC □ JEFFREY A. ROSS, DC □ J. DONALD DISHMAN, DC, MSc, DIBCN

PATIENT: HARWELL, Danielle
 Date of Study: 01/19/2016
 Type: Upper Extremity NCS/Needle EMG
 Date of Injury: 10/31/2015
 Referring: Dr. Peter Guzinski

ELECTRODIAGNOSTIC FINDINGS:

1. Normal distal motor latencies and amplitudes of the right and left Median and Ulnar nerves.
2. Normal F-responses of the right and left Median & Ulnar nerves.
3. Normal distal sensory latencies and amplitudes of the right and left Ulnar and Superficial Radial nerves.
4. Abnormal distal sensory peak latencies of the right and left Median nerves (Mild prolongation).
5. Normal right and left Median H-reflexes.
6. Normal monopolar needle EMG exam of the left upper extremity and cervical paraspinal muscles.

CONCLUSIONS: There are mild delays of the left and right median nerve distal sensory peak latencies with preservation of amplitudes. The remaining nerve conduction studies were unremarkable bilaterally. Late responses including F waves and median H reflexes were present and symmetrical bilaterally without prolongation.

The monopolar failed to yield any evidence of spontaneous potentials or chronic neuropathic motor units in any of the sampled left upper limb and cervical paraspinal muscles upon needle EMG thus, cervical radiculopathy could not be identified at this time. However, I cannot rule out cervical radiculopathy.

I recommend that Ms. Harwell continue to follow up with Dr. Guzinski for further conservative management and treatment recommendations. Ms. Harwell also has physical examination findings associated with left shoulder impingement. A left shoulder MRI and/or orthopedic shoulder evaluation are suggested for further evaluation if clinically indicated.

ELECTRODIAGNOSTIC IMPRESSION: These electrophysiological findings are consistent with:

1. Mild bilateral Carpal Tunnel Syndrome.
2. No electrophysiological evidence of a cervical radiculopathy, brachial plexopathy, peripheral polyneuropathy, or myopathy was observed.
3. Ms. Harwell also has some aspect of left shoulder dysfunction contributing to her left upper limb symptomatology. Left shoulder MRI and/or orthopedic evaluation are suggested for further evaluation if clinically indicated.

Patient:	Harwell, Danielle UE	Address:	56 Berchaven Dr., Left
Sex:	Female	City:	Amherst
Age:	35	State:	NY
Height:	63 inches	ZIP:	14228
Weight:	150 lbs	Phone:	716-536-0951
Ref. Dr.:	Dr. Peter Guzinski	Doctor:	Dr. Gary R. Smith
Insurance:	Geico Insurance	Test Date:	01/19/16

History & Physical Examination:

Dear Dr. Guzinski,

HISTORY: Thank you for asking me to see Ms. Danielle Harwell today to undergo further evaluation of injuries she sustained to her cervical spine that occurred as the result of a motor vehicle crash on October 31, 2015. As you know, she reports that she was the seatbelted driver of a Honda Odyssey that was rear-ended by another vehicle while stopped on Starin Avenue while waiting for the car in front of her to turn into a driveway. She reports that the car that struck her was rear-ended by another vehicle and that there were four vehicles involved in a collision. She reports that her vehicles airbags did not deploy. She denies any loss of consciousness or blood loss. She reports that she experienced immediate neck and lower back pain as well as pain in both arms. She did not seek any immediate medical attention however, the following day she presented to Immediate Care where she was examined, diagnostic imaging was performed and she was released. She followed up with her family physician, Dr. Panzarella, and was referred to your office for chiropractic therapy. Unfortunately, she continues to have persistent bilateral cervical spine pain with pain radiating to her left shoulder and proximal arm as well as diffuse paresthesias distally into the second through fifth digits of her left hand. She reports that her symptoms seem to be worse nocturnally. She denies any right upper limb symptomatology. She denies any bowel or bladder dysfunction. An upper extremity electrodiagnostic evaluation has been requested to aid in further delineating the etiology of these complaints.

PAST MEDICAL HISTORY: Past medical history was reviewed and it is noncontributory. She is currently taking loratadine, vitamin D 3 and pantoprazole. Surgical history includes prophylactically and D&C. She denies any history of diabetes and thyroid disease. She is allergic to codeine, clindamycin, renting again, Cipro, Keflex, Soma, penicillin and Biaxin.

PHYSICAL EXAMINATION: On physical examination, I have a pleasant 35-year-old female. Her cervical ROM is moderately diminished with localized muscular pain bilaterally. On palpation, there is moderate cervical paraspinal, left upper trapezius and left periscapular hypertonicity and moderate tenderness. Cervical compression tests produce localized cervical spine pain as well as pain reported to radiate to her left shoulder. Cervical distraction is negative. Upper extremity stretch reflexes were performed and graded as follows: Biceps 2+ bilaterally, Brachioradialis 2+ bilaterally and Triceps 2+ bilaterally. Upper limb sensory testing was performed and revealed reported paresthesias in the left C5-C7 dermatomes. Manual muscle testing of the upper limb musculature was performed and revealed weakness of the left deltoid, graded 4/5 with no focal motor deficits, graded, 5/5 bilaterally. Tinel's tap of the ulnar and median nerves at the wrists were provocative on the left and negative on the right. Tinel's tap of the ulnar nerves at the elbows were unremarkable bilaterally. Visual inspection of the upper limb musculature revealed no atrophy of the upper limb musculature including the thenar, hypothenar and periscapular musculature. Hawkins test is positive on the left. Supraspinatus press test is positive on the left.

Patient: Harwell, Danielle UE01/19/16

Cranial nerves are intact. Pupils are equal, reactive and accommodate. The tongue is midline and facial symmetry is normal. All extraocular movements are within normal limits without any noted nystagmus. Plantars are downgoing.

DIAGNOSTIC IMAGING: Advanced imaging (MRI) of her cervical spine was performed on January 4, 2016 at Buffalo MRI and the report indicates that there is C4-5 disc space narrowing with a shallow central disc extrusion. The canal and neural foramina still maintains her caliber. C5-6 has a shallow central disc extrusion, which barely flattens the thecal sac. The canal and neural foramina are patent. Mild uncovertebral spurring is noted. There is a gentle right-sided curvature of the lower cervical spine.

CLINICAL IMPRESSION:

1. Cervical sprain/strain S13.4XXA/S16.1XXA
2. Cervical disc herniation M50.21
3. Pain in the extremities M79.609 (undetermined etiology)
4. Disturbance of skin sensations R20.1 R20.2 (undetermined etiology)

DIFFERENTIAL DIAGNOSES:

1. Possible cervical radiculopathy M54.12
2. Rule out upper extremity peripheral neuropathy G56.90

CLINICAL DECISION MAKING: Based on Ms. Harwell's refractory cervical spine symptomatology coupled with her left upper extremity dysfunction noted above, further diagnostic evaluation is warranted in this patient. An upper extremity neurodiagnostic evaluation will be performed to isolate and delineate a suspected cervical radiculopathy as well as to rule out the likelihood of an upper extremity peripheral neuropathy in this individual with a history of cervical spine trauma with resultant upper extremity dysfunction.

Please see the attached EDX evaluation report and accompanying data tables that summarize the results of my evaluation.

Thank you again for allowing me the opportunity to participate in the care of Ms. Harwell.

Sincerely,

Gary R. Smith, DC, DIBE

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal offence punishable under law and may be subject to civil penalties.

PAPERS TO GOVERNMENT PROGRAMS Q-E-Y

MEDICARE AND TRICARE PAYMENT: A provider's signature below indicates that payment be made and out-of-pocket expenses of any information necessary to process the claim and confirm health information provided in Blocks 1 through 12 is to be made available to Medicare or Medicaid and noninsured individuals and entities. In the case of a Medicare claim, this provider's signature authorizes any release to Medicare or Medicaid and noninsured information and services the person has employer upon health insurance, liability, no-fault, worker's compensation or other payments (such as in response to pay for services for which the Medicare claim is made. See 42 CFR 413.140(c). If there is a nonparticipating provider, the provider's signature authorizes release of the information to the health plan or non-participating plan. In Medicare assigned or TRICARE participation cases, if the physician agrees to accept the charge determination of the Medicare contractor, TRICARE local into-military or TRICARE full charge and the patient is responsible only for the deductible, copayments and non-covered services. Insurance and the deductible are based upon the charge during the initial visit of the Medicare or non-participating TRICARE local into-military or TRICARE full charge less the charges submitted by the physician. If the physician is not a Medicare insured, payment will be made by the physician for health services provided through certain affiliations with the United States Department of Defense or the patient's employer. It should be noted that TRICARE is not a third party insurer; payment will be made directly to the physician.

PLACE MINE AND FEGA CLAIMS

The provider agrees to accept the amounts paid by the Government as payment in full. See Block, Long and FECA instructions regarding record-keeping procedures and diagnosis coding systems.

EIGHTURE OF PHYSICAL OR SUPPLIER (MEDICARE, TRICARE, FICA AND BLACK LUMPS)

In submitting the claim for payment, I am stating, "here, I certify that, if the information on this form is true, accurate and complete, as I have furnished myself in all respects true, accurate, and payment, insurance, which are available from the Medicare contractor, by) I have provided or will provide sufficient information needed to allow the government to make an informed eligibility and payment decision; by the claim, whether submitted by me or on my behalf by my designated billing carrier, can be compared with all applicable Medicare rules, federal laws, regulations, and payment methods for payment including but not limited to the Federal Employees Health Benefits Plan and Physician Self-Referral law (commonly known as Stark law); 3) the services on this form were medically necessary and personally rendered by me or were rendered incident to my professional service (as commonly known as Stark law), except as otherwise expressly permitted by Medicare or TRICARE; 4) for each service rendered incident to my professional service, the identity (legible name and NPI number & SSN) of the primary individual rendering care, nor is it reported in the designated incident to services to be considered "incident to" a physician's professional services; 5) they must be rendered under the physician's direction, supervision or, as the case is of non-physicians, must be included on the physician's bill.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States' Government or a contract employee of the United States' Government, either civilian or military (refer to 6 USC 5536). For Black Lung claims, I further certify that the services performed were for a Black Lung-rated disorder.

No Part B Medicare benefits may be paid unless this form is retained as required by contract law and regulations (42 CFR 424.321).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, PICA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OASCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1632, 1672 and 1874 of the Social Security Act as amended, 42 CFR §11.81(a) and 424.5(p)(B), and 41 USC 3101.41 CFR 101 of seq and 10 USC 1079 and 1086; 5 USC 8101 et seq, and 30 USC 901 et seq, 38 USC 613, E.O. 8387

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carers, intermediaries, medical record boards, health plan, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties pay or to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

POR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, 'Carrier Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37548, WED Sept. 12, 1990, or as updated from republished.

FOR OWCP CLIA 18: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records." Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S) To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

POLICY AND USERS: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, or to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recovery of claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a claim pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities and individual providers of care, on matters relating to enrollment, claims adjudication, fraud program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal law enforcement related to the operation of TRICARE.

DISCLOSURE: Voluntary, however, we provide information which result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for failure to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 103-603, the "Computer Matching and Privacy Protection Act of 1996", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds. And that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made upon the patient's release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and voucher to whom the patient has assigned his/her group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.2(b)(6). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assignment or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the final charge and the patient is responsible only for the deductible and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if it is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "Insured"; i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the dentist (legal name and NPI license #, if applicable) of the primary individual rendering each service is reported in the designation section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5333). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or omits essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and CWCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is as follows: 209(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(a) (8), and 44 USC 3101; 41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 801 et seq; 36 USC 613; E.O. 9387.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, centers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 08-70-0301, titled, "Common Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept 12, 1990, or as updated and republished.

FOR CWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, 800 ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determine that the services/supplies received are authorized by law.

PRINCIPLE USE(S): Information from claim and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation concerning their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with account recovery claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign governmental agencies, private bureaus, brokers, and individual providers of care, matters relating to entitlement, claims adjudication, trust, premium debts, utilization review, quality assurance, prior review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE(S): Voluntary, however, failure to provide information can result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under Title 38 programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged could prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 301-3012 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XXI plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1187. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-03, Baltimore, Maryland 21244-1950. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Friday January 15, 2016 Provider: Peter Guzinski DC RE-EXAM

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Accident Description: *Date of Accident:* October 31, 2015. *Time of Accident:* 4:55 PM. *Narrative Description of Accident:* Patient stated that she was stopped in traffic, while waiting for a truck to make a left hand turn into a driveway, when she was rear impacted. She stated that accident occurred while she was traveling South on Starin in the City of Buffalo, New York. Mrs Harwell, stated that this was a chain reaction accident. The vehicle that was behind her was also stopped and was pushed into her vehicle by an automobile that rear impacted them. *Patient Seatbelted?* Yes. *Position in vehicle driver.* *Patient Position at Impact:* looking straight ahead. *Impact Point of Patient's Car:* rear. *Brakes On At Time of Impact?* Yes. *Airbags Deployed?* No. *Did The Patient's Seat Break?* No. *Impact With Car Interior?* seatbelt left chest; headrest back head. *Patient's Vehicle Type:* Honda Odyssey 2007. *Type of Other Vehicle:* Honda CRV 2015. *Road Conditions At Time of Accident:* dry. *Was There Loss of Consciousness?* no. *What Symptoms Were Immediately Present?* Patient stated that she was experiencing head, neck, back and left shoulder and arm pain.

Cervical: Patient presented today with the chief complaint of neck pain. Due to the pain, she is unable to lift heavy weights, she is unable to read as much as she would like, she has moderate headaches which come frequently, she cannot perform her usual work, her normal sleep has been moderately disturbed (2-3 hrs. sleepless) and she is able to engage in most, but not all of her usual recreational activities. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* getting worse. since last week. *Pain:* achy, dull, tingling, shooting, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has nausea and dizziness associated with the headaches. At times, light bothers her. *Cervical Disability Index:* 48%. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back and left anterior chest pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* getting worse. since last week. *Pain:* achy, dull, shooting; level: 7/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living.

Encounter dated 01/15/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

Alleviates symptoms: nothing. *Numbness:* none. *Weakness:* none. *Oswestry score:* 24%. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* getting worse. *since last week.* *Pain:* achy, dull, shooting, tingling, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *OSWESTRY Disability Index:* 24%. *The Keele SStarT Back Screening Tool:* Medium risk. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Activity of Daily Living Form Bathing/Showering: mild impairment; Bending forward/backward: mild impairment; Driving: moderate impairment; Drying Hair: mild impairment; Household chores: moderate impairment; Laundry: severe impairment; Lifting less than 10 lbs: moderate impairment; Lifting more than 10 lbs: severe impairment; Kneeling: mild impairment; Making Meals: moderate impairment; Prolonged Sitting more than 30 minutes: moderate impairment; Putting pants on: mild impairment; Putting shoes/socks on: mild impairment; Reaching above the shoulders: moderate impairment; Restful night's sleep: severe impairment; Seated to standing position: mild impairment; Sexual activity: severe impairment; Squatting: mild impairment; Tying shoes: mild impairment; Using lavatory: mild impairment; Walking: mild impairment.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Sensation:* all upper extremity sensory exams (C5-T1) were WNL to Pin prick. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Reflexes:* bilateral upper extremity reflexes (C5, C6, C7) 2+. *Orthopedic tests:* left lateral compression: Positive, lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left; Spinal Percussion C1-C7: Negative; left shoulder depression: Positive for left lower neck; right shoulder depression: Negative for right lower neck pain; neutral cervical compression: Negative; hyperextension cervical compression: Negative. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate to Severe. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by motion and static palpation.*

Encounter dated 01/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

Lumbar/Sacral/Pelvis: Range of motion: flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. Heel to toe walking: WNL. Gait pattern: normal. Strength: all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. Sensation: left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Reflexes:** bilateral lower extremity reflexes (L4 and S1) 2+. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Ely's Heel to Buttock: Negative bilateral; Minor's sign: Negative; Nachlas: Negative bilateral; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Hibbs test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Cervical assessment: Based on the current history and examination results, I professionally feel that their current symptoms are causally related to the MVA sustained on October 31, 2015. Since her initial visit on November 12, 2015 Mrs Harwell has made slow improvement with chiropractic treatment. Her active cervical flexion improved from 35 to 45 degrees, extension from 15 to 60 degrees, bilateral rotation from 45 to 60 degrees and right lateral flexion from 25 to 35 degrees. However her pain continues to remain unchanged. Further chiropractic treatment is medically necessary to decrease pain and improve function especially with her ability to perform her ADL. Due to her left upper extremity pain, an EMG / NCV will be ordered to rule out radiculopathy. In addition, due to her continued headaches she will be referred to Dr. McVige at DENT, to rule out post concussion syndrome. **Diagnosis:** M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Lumbar assessment: Mrs. Harwell has made favorable improvement with chiropractic treatment since her initial evaluation on November 12, 2015. Her active lumbar flexion improved from 30 to 45 degrees and her left rotation improved from 15 to 35 degrees. In addition, she no longer has severe but now mild pain when squatting, tying her shoes, using the lavatory and while walking. Further treatment is medically necessary to help improve her active lumbar ROM and improve her ability to sleep and lift with less pain. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left

Encounter dated 01/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

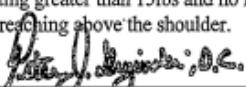

recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Smith for an UE EMG / NCV. Dr. Pollina (neurosurgeon) for consult, Dr. McVige for neurological consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain.

Disability status: Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Monday January 18, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain continues. Left arm continues to "hurt." Patient having the EMG tomorrow of the left UE. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change, since last week. **Pain:** achy, dull, tingling, shooting, numb; level: 7/10. **Pain is constant.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day.

Encounter dated 01/18/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain continues with left chest pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. since last visit. *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has not been as intense. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving. since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise:

Encounter dated 01/18/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s): L4, L5, Left SI. Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Lumbar assessment: improving. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

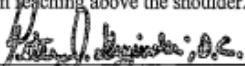

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapulae trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Smith for an UE EMG / NCV. Dr. Pollina (neurosurgeon) for consult, Dr. McVige for neurological consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Tuesday January 5, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today with the chief complaint of continued neck pain. She states that her left arm and hand continues to feel weak. Patient stated that she had a neck MRI yesterday. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, tingling, shooting; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy; level: 6/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been better. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy; level: 4/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: Reviewed cervical MRI with the patient today. *Range of motion:* flexion: 35/50 with pain neck and upper back; extension: 15/60 with pain neck and upper back; left rotation: 45/80 with pain neck and upper back; right rotation: 45/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 20/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity &*

Encounter dated 01/05/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

Tenderness Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: Reviewed thoracic MRI with the patient today. **Hypertonicity & Tenderness** Thoracic paraspinal musculature Bilateral Moderate to Severe, **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: Reviewed lumbar MRI with the patient today. **Range of motion:** flexion: 30/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 15/30 with pain lower back; right rotation: 30/30 with pain lower back; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Sensation:** left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick.

Tenderness & Hypertonicity lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: mild to moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Cervical assessment: Updated diagnosis based on recent MRI results. **Diagnosis:** M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged.

Prognosis: Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: Thoracic MRI was performed at Buffalo MRI on 01/04/2016 and revealed a T10 hemangioma in the vertebral body according to the radiologist. **Thoracic assessment:** unchanged. **Post-treatment analysis:** patient tolerated treatment without incident.

Lumbar assessment: improving, VAS score improved from 5 to 4 out of 10. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with

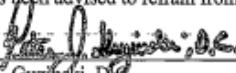

Encounter dated 01/05/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 (manual traction); C6 (manual traction); T2 right (diversified prone); T3 right (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 (manual traction); L5 (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left thromboid trigger point therapy. *Sent for tests:* electrodiagnostic testing of the left upper extremity due to left arm weakness and numbness. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec.

Home care: ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and/or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to January 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, DC.

Friday January 8, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today with the continued chief complaint of neck and left arm pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change since last visit. *Pain:* achy, tingling, shooting; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching;

Encounter dated 01/08/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit:* Pain: achy; level: 6/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit:* Pain: achy; level: 4/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 35/50 with pain neck and upper back; extension: 15/60 with pain neck and upper back; left rotation: 45/80 with pain neck and upper back; right rotation: 45/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 20/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate to Severe. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: Reviewed lumbar MRI with the patient today. *Range of motion:* flexion: 30/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 15/30 with pain lower back; right rotation: 30/30 with pain lower back; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: mild to moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees

Encounter dated 01/08/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 01/29/2016

for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s): L4, L5, Left SI.* *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). *Cervical assessment:* unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: Thoracic MRI was performed at Buffalo MRI on 01/04/2016 and revealed a T10 hemangioma in the vertebral body according to the radiologist. *Thoracic assessment:* unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (supine mobilization); C6 left lateral flexion restriction (supine mobilization); T2 left (diversified prone); T3 left (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 (manual traction); L5 (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Sent for tests:* electrodiagnostic testing of the left upper extremity due to left arm weakness and numbness.

Patient given: home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional Instructions:* Advised patient to monitor for any changes in

their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to January 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Monday January 11, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck "feels the same". *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, tingling, shooting; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain has not been as intense. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving. *since last visit.* *Pain:* achy; level: 5/10. *Pain is constant.* *Pain radiates to:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has not been as bad. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving. *since last visit.* *Pain:* achy; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 35/50 with pain neck and upper back; extension: 15/60 with pain neck and upper back; left rotation: 45/80 with pain neck and upper back; right rotation: 45/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 20/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness:* Sub-occipital musculature Left

Encounter dated 01/11/2016 for Danielle Harwell #3438

REFERS TO GOVERNMENT PROGRAM ONLY

MEDICARE AND TRICARE PAYMENTS A patient's signature is required. Real payment will be made and a written release of any information necessary to process the claim and certifies that the information provided in Block 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release in Medicare medical and nonmedical information and/or whether the person has employer group health insurance, liability, no-fault, 3rd-party compensation or other insurance which is responsible to pay for the services for which this Medicare claim is made. See 42 CFR 111.2(a)(3). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown in Medicare assigned or TRICARE preferred network cases. The physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, co-insurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE itself (or beneficiary if it is less than the charge submitted). TRICARE is not a health insurance program but makes payment for health services provided through civilian facilities with less Unfinished Services. When there is a conflict between the patient's signature and the information provided in these items, the information in "Item 9" is given priority.

BY XIAOJUN HE AND RICHARD CLARKSON

The provider agrees to accept the amounts paid by the Government as payment in full. See BIA, Lemo and FECA instructions regarding required procedure and claimants cannot assert rights under other laws.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, PDS, AID BLENCH, LIMO)

In certifying this claim for payment from Federal funds I certify that: 1) The information on this form is true, accurate, and complete; 2) I am a licensed physician or all applicable laws, regulations, and program instructions; 3) I have used the NPI number assigned to me by the National Plan and Review; 4) I have provided to the provider sufficient information required to make an informed eligibility and payment determination; 5) I am a citizen, alien, or national admitted to or on my behalf by my designated billing company, complete with all applicable documents, and/or medical laws, regulations, and procedures used for treatment including but not limited to the Federal Office of Health Care and Physician Self-Referral laws (commonly known as Stark law); 6) All services on this form were rendered by myself and personally furnished by me to one or more patients assigned to my professional service by my employer, or my direct supervisor, except as otherwise expressly permitted by law (also see TRICARE); 7) For each service furnished outside my professional service, the identity (legal name and NPI, license #, or SBN) of the primary individual rendering the service is indicated in a separate column. Services to be considered "incident to" a physician's professional services, such as may be rendered under the physician's direct supervision or by his/her associates, may be integral, although incidental, part of a covered physician service; 8) They must be of levels commonly furnished in physician's office; and 9) The services of nonphysician, cannot be included on the physician's bills.

For TRICARE claim: I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (year 3 of USC 3398). For Black Lung claim: I further certify that the services performed were for a Black Lung-related disease.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 421.320).

NO FEE: Any non-profit organization or individual organization that receives payment from Federal funds requested by this firm may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, PEGA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and CMC to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(i), 180, 187, and 187A of the Social Security Act as amended, 42 CFR 411.24(a) and 426(b)(6), and 44 USC 3101-41 CFR 101 et seq and 10 USC 1079 and 1085, 5 USC 8101 et seq, and 30 USC 901 et seq, 28 USC 613, E.O. 1387

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to issue final payment if necessary.

The information may also be given to other providers of services, clinics, intermediaries, medical injury boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs. It will require other third parties to apply only to Federal program, and as often as necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Administrative disclosures are made through routine records of information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, 'Change Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37548, Wed. Sept. 12, 1990, or as updated and republished.

FOR O/WCP CLAIMS: Deposition of Luent, Privacy Act of 1974, 'Republication or Notice of Systems of Records.' Federal Register Vol. 55 No. 40, Wed Feb 28, 1990. See ESA-3, ESA-6, ESA-12, ESA-13, ESA-30, or 7-10 replaced and republished.

FOR TRICARE CLIA/F: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services received are authorized by law.

ROUTINE USE (RUR): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of its litigants in civil cases, to the Investment Recovery Service, prior to collection agencies, and consumer reporting agencies in connection with repayment claims, and to Congressional Offices in response to inquiries made at the request of a person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, tribal, foreign government agencies, private business entities, and individual providers of care, on a needs related basis, in claims adjudication, program abuse utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and oral and criminal litigation related to the conduct of TRICARE.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. While the one exception discussed below, there are no penalties under this policy for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FBCA could be deemed an admission.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-508, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, copayment or similar cost sharing charge.

STATEMENT OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements or representations, or concealment of a material fact, may be prosecuted under applicable Federal or State Laws.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement, or claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal and punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient or beneficiary requests that payment be made and authorizes release of any information necessary to process the claim and evidence that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and non-medical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown in Medicare assigned or TRICARE+ interpretation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the bill charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's spouse, should be provided in those items captioned "Instead", i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable laws, regulations, and program instructions for payment including but not limited to the Federal and/or State statute and Physician Self-Referral (commonly known as Star), Item 8) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional services by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for services rendered incident to my professional services, the identity (legal name and NPI), license #, or NRC# or the attorney individual rendering such service is listed in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be of kinds commonly rendered in physician's offices, and 2) the services of non-physician must be indicated in the physician's office; 2) they may be in an event (injury) incident plan of a covered physician even so, 3) they must be of kinds commonly rendered in physician's offices, and 4) the services of non-physician must be indicated in the physician's office.

For TRICARE claims, I further certify that I (or my employee) who furnish and services am not a career duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government either civilian or military (refer to 5 USC 9308). For Black Lung claims, I further certify that the services performed were for a Black Lung related disorder.

No Part B Medicare benefits may be paid unless the form is received as required by existing law and regulations (42 CFR 414.22).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PAYMENT AGENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CWA, TRICARE and CWCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1082, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(p)(6), and 44 USC 3.01-1 CFR 101 et seq. and 10 USC 1078 and 1086; 5 USC 8101 et seq., and 30 USC 901 et seq., 38 USC 818, E.C. 10, 9307.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other individuals paying to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine tests for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 06-70-0601, titled, Center Medicare Claims Record, published in the Federal Register, Vol. 66 No. 177, page 87549, Wed. Sept. 12, 1990, as updated and republished.

FOR CWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28 1990, See ESA-5, ESA-6, ESA-12, ESA-13, FSA-30, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

BOUTIQUE LIST(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities and to TRICARE/CHAMPVA, and to the Dept. of Justice, for representation of the Secretary of Defense in and related to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate end-users may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care on matters relating to entitlements, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE(S): Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties and/or fines for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1138B of the Social Security Act and 51 USC 3801-0812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAO PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amounts paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were actually furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and adjudication of this claim will be from Federal and State funds, and that any false claim, statements or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1187. The time required to complete the information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C-96-05, Baltimore, Maryland 21244-1850. The address is for comments and/or suggestions, not to mail COMPLETED CLAIM FORMS TO THIS ADDRESS.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.34(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary for the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. **Coinsurance** and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned "Insured"; i.e., items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-fraud/abuse statute and Physician Self-Referral law (commonly known as Stark Law); 5) the services on this form were medically necessary and personally furnished to me by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI), license #, or SSN of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician service, 3) they must be of kinda commonly furnished in physician's offices, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5338). For Black-Lung claims, I further certify that the services performed were for a Black-Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCP to ask for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 2056(a), 1982, 1972 and 1974 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(a) (8), and 44 USC 9101, 41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 901 et seq; 38 USC 813; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0001, titled, "Carmer Medicare Claims Record," published in the Federal Register, Vol. 65 No. 177, page 87349, Wed. Sept. 12, 1980, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 65 No. 40, Wed Feb. 28, 1980. See ESA-6, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/claims received are authorized by law.

EQUITY/INFLUENCE: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made of the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claim adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1120B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-03, Baltimore, Maryland 21244-1650. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

February 8, 2016

Peter Guzinski DC
345 Dick Road
Depew, NY 14043

Patient Name:	Danielle Harwell
Date of Birth:	08/29/1980
No-Fault Carrier:	NF Geico
CL#:	0138739400101059
Date of Injury:	10/31/15
Date of Exam:	02/08/16

Dear Dr. Guzinski:

I had the pleasure of seeing Danielle Harwell in the office today.

History: Danielle Harwell was seen in neurosurgical initial consultation on 02/08/2016 with complaints of neck pain, mid back pain, low back pain, left leg pain, left shoulder and arm pain as well as headache. She states she was a belted driver involved in a rear-ended motor vehicle accident on 10/31/2015. She developed progressive symptomatology as listed above and the next day sought care and evaluation from Western New York Immediate Care. She then was referred to her primary care physician, Dr. Panzarella, who referred her to Dr. Guzinski for chiropractic care and massage. She is getting some slight improvement with this treatment modality. She is here today for neurosurgical spine consultation. She states her pain is 5-7/10 on the Visual Analog Pain Scale.

Allergies: Keflex, Codeine, Clindamycin, Biaxin, Soma Penicillin, Cipro, Ranidin

Physical Examination: Examination of the lumbar spine fails to reveal deformity. There is no midline point tenderness or paraspinal spasm. There is intact power in the legs in all muscle groups. There is no dermatomal sensory loss noted. Symmetrical reflexes at the knees and ankles. Toes are downgoing. There is normal gait and station. There is no pain with passive range of motion of the hips. No straight leg raising pain. Feet are warm with no edema, there is no atrophy or deformity noted in the lower extremities.

Constitutional: The patient is well developed, well nourished, appears appropriate for age and is in no distress.

Cognition: The patient is alert and oriented, with recent and remote memory and language function appearing intact.

Cranial Nerves: The patient has symmetrical smile and frown. Tongue protrudes in midline without fasciculations or atrophy. Shoulder shrug is symmetrical.

Head: Normocephalic.

Neck: Supple, with no point tenderness or paraspinal spasm. No masses are palpable. Full range of motion is noted. No Lhermitte's.

Power: The patient has intact power in the deltoids, biceps, triceps, brachioradialis, wrist flexors and extensors, grips and first dorsal interossei. Normal power in the legs.

Sensation: There is intact pin sensation with no dermatomal sensory loss in the arms. Graphesthesia is intact. Joint position sense in the legs is intact.

Reflexes: Symmetrical reflexes at the biceps, triceps, knees and ankles. Toes are downgoing.

Cerebellar: There is no dysmetria noted on finger-to-nose testing.

Gait: The patient has normal gait and station. She can tandem walk without difficulty.

Extremities: Warm with no deformities. No edema. Normal muscle bulk and tone. There is no pain on passive range of motion of the shoulders or hips. Tinel's sign is negative bilaterally.

Review of Imaging: MRI of the lumbar spine done on 01/04/2016 does show a disk herniation on the left at L5-S1. There is a central disk herniation at L4-L5, both are acute in nature.

MRI of the thoracic spine done on 01/04/2016 is normal.

MRI of the cervical spine done on 01/04/2016 shows disk herniations both at C4-C5 and C5-C6.

Medical Decision Making: Danielle has cervicalgia, low back pain and cervical and lumbar radiculopathy in addition to headaches all related to injuries sustained to her cervical and lumbar spine as the result of a motor vehicle accident on 10/31/2015. I discussed with her the natural history of myofascial injury and disk herniations. I would like her to continue with chiropractic treatment and massage therapy. I would hold off on any surgical intervention to date because this will likely heal with ongoing chiropractic treatment. We will continue to follow her. If she has regression or persistent symptoms, we may change her treatment modality to a surgical approach, but again, this is early in the treatment paradigm for this.

Thank you very much for allowing me to participate in the ongoing care of this patient.

Diagnosis: Cervicalgia, Headache, Intervertebral disc disorders with radiculopathy, lumbar region, Other cervical disc displacement, unspecified cervical region, Low back pain

Sincerely,

Electronically signed by John Pollina, MD

Patient Name: Harwell, Danielle
DOB: 08/29/1980 Age: 35 Y Sex: Female
PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion

History of Present Illness

General:

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

This is Danielle's first round of trigger point injections. She has tried chiropractic and massage therapy with minimal relief. She is concerned about sensitivity to several medications and prefers to do the injections today without Steroid.

Current Medications

- Taking Vitamin D 50,000 int'l units capsule 1 cap(s) 2 times a week
- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Taking Naprosyn 500 mg tablet 1 tab(s) prn headache, up to BID
- Taking Rizatriptan 10 mg tablet 1 tab(s) prn migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Medication List reviewed and reconciled with the patient

Hospitalization/Major Diagnostic Procedure

See surgical history

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 122/68, HR 76, RR 16, Ht 63, Wt 150, BMI 26.57, BSA 1.74.

ExaminationNEUROLOGICAL:

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1

Continue all previously prescribed medicines at the current doses.

Return for repeat trigger point injections in 1 month.

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 7 cc was injected with a 25-gauge needle without complication into 7 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, inaccurate or misleading information may be guilty of a criminal offense punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

HEDICARE AND TRICARE PAYMENTS. A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Block 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature certifies any duty to release to Medicare medical and non-medical information and whether the person has employer group health insurance, liability, auto, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.34(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency known in Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if that is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in short names captioned in "Insurer" i.e. Items 4, 6, 7, 9 and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government in payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-fraud statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering such service is reported in line designated Section For Services to be conducted "incident to" a physician's professional services; 7) they must be rendered under the physician's direct supervision by "other" employees; 2) they must be on the grid, although incidental part of a covered physician service; 3) they must be of little common furnished in physician's office; and 4) the services of non-physicians must be included on the physician's bill.

For TRICARE claims, I further certify that I nor any employee(s) who furnished services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 3 USC 5536). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 203(c), 1982, 1972 and 1974 of the Social Security Act as amended, 42 CFR 411.2(a) and 404.5(a) (b), and 41 USC 3161; 11 CFR 101 et seq and 10 USC 1079 and 1089; 3 USC 8101 et seq, and 30 USC 801 et seq, 38 USC 813, E.O. 13937.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to assure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties paying to pay premium to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 00-70-0301, titled, "Comer Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept. 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Repopulation of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See ESA-5, ESA-6, SSA-12, SSA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility or medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

DISCLOSURE (IF ANY): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services under the Dept. of Transportation contract with their statutory administrator, two congressional under TRICARE/CHAMPVA, the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recompence claims, and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign governmental agencies, private businesses entities, and individual providers of care or services related to admissions, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, anti-drip and denial litigation related to the operation of HICRME.

DISCLOSURES: Voluntarily however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us, if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the Computer Matching and Privacy Protection Act of 1988, permits the government to verify information by use of computer matches.

FEDICO PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment, or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1650. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown in Medicare assigned or TRICARE participation cases. The physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are set by the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's spouse should be provided in those items captioned in "Insured"; i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-fraud statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE, 6a) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is repeated in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contractor employee of the United States Government, either civilian or military (refer to 5 USC 5338). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 404.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(b), 1862, 1872 and 1874 of the Social Security Act as amended. 42 CFR 411.24(a) and 424.5(a) (b), and 44 USC 3101,41 CFR 101 et seq and 10 USC 1078 and 1086; 5 USC 8101 et seq, and 30 USC 901 et seq, 38 USC 6103, E.O. 13387.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, cancer intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third party payers to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Appropriate disclosures are made through means necessary for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 00-00-0001, MBR - Cancer Medicaid Claims Record," published in the Federal Register, Vol. 53 No. 177, page 37199, Wed. Sept. 12, 1990, as an update and re-published.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40 VR d Frth Jil 1970, 5r - ESR-6, DSA u. ESR-12, ESR-13, ESR-30, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PAYOR(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are sufficient by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, privacy collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other Federal, state, local, foreign government agencies, private business entities, and individuals providers of care, on matters relating to enrollment, adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DIRECTIONS: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1126B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding my payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for these claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment or similar cost sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: It is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: GMB, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-25-05, Baltimore, Maryland 21264-1850. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

**NEW YORK MOTOR VEHICLE NO-FAULT INSURANCE LAW
ASSIGNMENT OF BENEFITS FORM
(For accidents occurring on or after 03/01/02)**

I, Danielle Harwell, ("Assignor"/Patient's name - print), hereby assign to Colleen Marx, L.M.T. ("Assignee"/Print hospital or health care provider's name) all rights, privileges and remedies to payment for health care services provided by assignee to which I am entitled under Article 51, (the No-Fault statute) of the Insurance Law.

The Assignee hereby certifies that they have not received any payment from or on behalf of the Assignor and shall not pursue payment directly from the Assignor for services provided by said Assignee for injuries sustained due to the motor vehicle accident, which occurred on 10/31/15 (print date), not withstanding any other agreement to the contrary.

This agreement may be revoked by the Assignee when benefits are not payable based upon the Assignor's lack of coverage and/or violation of a policy condition due to the actions or conduct of the Assignor.

ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON FILES AN APPLICATION FOR COMMERCIAL INSURANCE OR A STATEMENT OF CLAIM FOR ANY COMMERCIAL OR PERSONAL INSURANCE BENEFITS CONTAINING ANY MATERIALLY FALSE INFORMATION, OR CONCEALS FOR THE PURPOSE OF MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, AND ANY PERSON WHO, SOLICITS OR CONSPIRES WITH ANOTHER TO MAKE A FALSE REPORT OF THE THEFT, DESTRUCTION, DAMAGE OR CONVERSION OF ANY MOTOR VEHICLE TO A LAW ENFORCEMENT AGENCY, THE DEPARTMENT OF MOTOR VEHICLES OR AN INSURANCE, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME AND SHALL ALSO BE SUBJECT TO A CIVIL PENALTY NOT TO EXCEED FIVE THOUSAND DOLLARS AND THE VALUE OF THE SUBJECT MOTOR VEHICLES OR STATED CLAIM FOR EACH VIOLATION.

Digitized by srujanika@gmail.com

Table 1. The effect of different concentrations of *S. enteritidis* on the growth of *C. annuum* L.

It is the author's opinion that the best way to approach the problem of the relationship between the two types of data is to first determine the relationship between the two types of data at the level of the individual subject. This can be done by examining the correlation coefficient between the two types of data for each individual subject.

Scattered small-scale clusters of galaxies are also found in the field, and some of them are associated with the filamentary structures.

On the other hand, the results of the present study indicate that the use of a single dose of *Leishmania* antigen in the ELISA test is not sufficient to detect all the infected individuals.

For more information about the study, contact Dr. Michael J. Klag at (301) 435-2080 or via e-mail at mklag@jhu.edu.

For example, the following code creates a `Table` object with three columns:

For the first time, we have been able to measure the effect of the magnetic field on the rate of the reaction.

$\mu_1^{\text{opt}} = \frac{1}{2} \ln \left(\frac{1 + \sqrt{1 + 4\alpha^2}}{2} \right)$, $\mu_2^{\text{opt}} = -\frac{1}{2} \ln \left(\frac{1 + \sqrt{1 + 4\alpha^2}}{2} \right)$, $\mu_3^{\text{opt}} = \frac{1}{2} \ln \left(\frac{1 - \sqrt{1 + 4\alpha^2}}{2} \right)$, $\mu_4^{\text{opt}} = -\frac{1}{2} \ln \left(\frac{1 - \sqrt{1 + 4\alpha^2}}{2} \right)$.

For the first two terms in (2.1), we have the following lemma.

PM2.5 (Fig. 1) was 197.70 $\mu\text{g m}^{-3}$ (range = 146.50–240.00 $\mu\text{g m}^{-3}$) and PM10 (Fig. 2) was 320.00 $\mu\text{g m}^{-3}$ (range = 220.00–420.00 $\mu\text{g m}^{-3}$).

¹² See also the discussion of the relationship between the two in the section on "Theoretical Implications."

Figure 1. The effect of the addition of 10% of the following materials on the mechanical properties of polypropylene.

Figure 10 shows the results of the simulation of the effect of the variation of the number of nodes in the network on the performance of the proposed scheme.

¹ See also, Borchert (1998) for a discussion of the relationship between the two concepts.

For more information about the U.S. Census Bureau's 2010 Census, visit www.census.gov.

Figure 1. The relationship between the number of species and the area of forest cover in each state.

Other studies have shown that the use of a single dose of dexamethasone can reduce the incidence of postoperative nausea and vomiting.

¹ See also the discussion of the relationship between the two in the section on "Theoretical Implications" below.

Procedure Note

Date: 02/11/2016

Patient Name: Harwell, Danielle

DOB: 08/29/1980 Age: 35 Y Sex: Female

PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion

History of Present Illness

General.

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

This is Danielle's first round of trigger point injections. She has tried chiropractic and massage therapy with minimal relief. She is concerned about sensitivity to several medications and prefers to do the injections today without Steroid.

Current Medications

- Taking Vitamin D 50,000 intl units capsule 1 cap(s) 2 times a week
- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Taking Naprosyn 500 mg tablet 1 tab(s) pm headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Medication List reviewed and reconciled with the patient

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 122/68, HR 76, RR 16, Ht 63, Wt 150, BMI 26.57, BSA 1.74.

Examination**NEUROLOGICAL:**

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1

Continue all previously prescribed medicines at the current doses.

Return for repeat trigger point injections in 1 month.

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 7 cc was injected with a 25-gauge needle without complication into 7 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness.

Attn: Claims Dept

The attached claims have been faxed to Geico. Recently, there has been an issue with the clarity of the claims or they have not been scanned after they have been faxed. This is to verify that they were submitted both via fax and mail.

I hope this will help in getting the claims processed without any delay.

Sincerely,

Kristen R.
Billing

Policy ID: 013873940011059

Monday February 1, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain continues with radiation into her upper back. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain continues. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* worse. *since last visit.* *Pain:* achy, dull, shooting; level: 7/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain continues with radiation down her left posterior thigh. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 6/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck

Encounter dated 02/01/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius.

Orthopedic tests: left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Left Moderate to Severe; Thoraco-Lumbar Muscle Group Right Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: worse. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in

Encounter dated 02/01/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 (cervical decompression); C6 (cervical decompression) supine for 10 minutes at a max pull of 15 lbs for 10 sec with a min pull of 10 lbs for 15 sec; T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Pollina (neurosurgeon) for consult, Dr. McVige for neurological consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Thursday February 4, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been slightly better but still sore. Patient also has been experiencing a lot of left shoulder pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 6/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent*

infection or fever: No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. Today about a "4". *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain continues. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* worse. *since last visit.* *Pain:* achy, dull, shooting; level: 7/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. Left posterior thigh pain has not been as intense. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 6/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness:* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness:* Thoracic paraspinal musculature Left Moderate to Severe; Thoraco-Lumbar Muscle Group Right Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleton's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all

Encounter dated 02/04/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical-disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: improving. VAS score improved from a 7 to 6 out of 10. However her left shoulder pain continues and she will be referred to an ortho for an evaluation. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: improving, less posterior left thigh pain. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient will be referred to Dr. Ostempowski due to continued left shoulder pain. *Patient treated to:* relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks.

Subluxations found on assessment and adjusted: C5 (cervical decompression); C6 (cervical decompression) supine at 10 degrees for 10 minutes at a max pull of 15 lbs for 10 sec with a min pull of 10 lbs for 15 sec; T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left thromboid trigger point therapy. *Patient referred to:* Dr. Pollina (neurosurgeon) for consult, Dr. McVige for neurological consult. *Patient given:* home exercise program:

Encounter dated 02/04/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Tuesday February 9, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been better. Patient saw Dr. Pollina who recommended continued chiropractic care. Patient seeing Dr. McVige later today. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. Today about a "4". *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain has been better. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been slightly better. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent*

Encounter dated 02/09/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

Infection or fever: No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness:* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 70/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: *Hypertonicity & Tenderness:* Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar

Encounter dated 02/09/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: improving, VAS score improved from a 6 to 5 out of 10. *Prognosis:* Guarded.

Post-treatment analysis: patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: improving, VAS score improved from a 7 to 5 out of 10. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: improving, VAS score improved from a 6 to 5 out of 10. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient will be referred to Dr. Ostempowski due to continued left shoulder pain. *Patient treated to:* relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks.

Subluxations found on assessment and adjusted: C5 (cervical decompression); C6 (cervical decompression) supine at 10 degrees for 10 minutes at a max pull of 15 lbs for 10 sec with a min pull of 10 lbs for 15 sec; T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Ostempowski for and orthopedic consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec.

Home care: ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday January 21, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain remains the same. EMG was performed on Tuesday. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last week.* *Pain:* achy, dull, tingling, shooting, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain continues with left chest pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck

**Encounter dated 01/21/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016**

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius.

Orthopedic tests: left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Shepplemans: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Sensation:** left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive-right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild

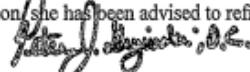

Encounter dated 01/21/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 (cervical decompression); C6 (cervical decompression) supine at a max pull of 18 lbs for 15 sec with a min pull of 10 lbs for 15 sec; T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Pollina (neurosurgeon) for consult, Dr. McVige for neurological consult.

Patient given: home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Tuesday January 26, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been worse since last visit. She stated that the decompression therapy really aggravated her neck and middle back. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* slightly worse, since last week. *Pain:* achy, dull, tingling, shooting, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:*

Encounter dated 01/26/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain feels worse. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* getting worse. *since last visit.* *Pain:* achy, dull, shooting; level: 6/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been more intense since last visit. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* getting worse. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on*

Encounter dated 01/26/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 02/18/2016

palpation: left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: slightly worse. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Lumbar assessment: worse. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 3 weeks; Re-examination for 3 weeks. *Subluxations found on assessment and adjusted:* C5 (cervical decompression); C6 (cervical decompression) supine at a max pull of 15 lbs for 10 sec with a min pull of 10 lbs for 15 sec; T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical cold therapy (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapulae trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Pollina (neurosurgeon) for consult, Dr. McVige for neurological consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain;

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS. A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, workers' compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.124(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency whom Medicare assigned or TRICARE participation cases. If the physician agrees to accept the charge, certification of the Medicare carrier or TRICARE local intermediary as the full source and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain extensions with the Uniformed Services. Information on the patient's sponsor should be provided in those items as indicated in "Initiated", i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedures and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided to you sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished to me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license # or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered professional service, 3) they must be of kinds commonly furnished in physician's office, and 4) the services of non-physicians must be included on the physician's bill.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 8538). For Black Lung claims I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or furnishes false or misleading information to secure payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1882, 1872 and 1874 of the Social Security Act as amended. 42 CFR 411.26(a) and 424.5(b) (8), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1079 and 1088; 5 USC 8101 et seq and 30 USC 901 et seq; 30 USC 813; E.O. 13087.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties pay to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, "Center Medicare Claims Record," published in the Federal Register, Vol. 65 No. 177, page 37519, Wed Sept 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Publication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, Sec ESA-6, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSE(S). To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services furnished are authorized by law.

DISCLOSURE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims, and to Congressional Offices in response to inquiries made at the request of the person to whom a report pertains. Appropriate disclosures may be made in other federal, state, local, foreign governmental agencies, private business entities, and individual providers of care, on matters relating to enrollment, fraud, program abuse, utilization review, quality assurance, prior review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE(S): Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under this program for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matching.

MEDICARE PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XXX plan and to furnish information regarding any payment claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were genuinely furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the burden of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Consultation

Date: 02/09/2016

Patient Name: Harwell, Danielle

DOB: 08/29/1980 Age: 35 Y Sex: Female

PCP: James Panzarella, DO

Reason for Appointment

- Neck/back pain

History of Present Illness

General:

Dear Dr. Panzarella:

I had the pleasure of seeing Danielle today in neurologic consultation regarding motor vehicle accident and head injury. She was seen at DENT Neurologic Institute in Amherst, New York. The following is a summary of my assessment and recommendations.

Danielle is a wonderful 35-year-old young woman who had an unfortunate motor vehicle accident on 10/31/2015. Patient was the seat-belted driver. She stopped, waiting for a truck and was rear-ended. This caused chain reaction where multiple cars hit each other. She had her children and her husband in the car. Patient hit her head against the headrest and then was jolted forward. She was seen at the urgent care the next day. Initially she had pain but was unaware of how serious it would become. She complained of dizziness, difficulty with attention and concentration, headaches, poor sleep, but denies any mood changes. She had significant amount of pain in the left upper extremity and shoulder. She felt this was from the seatbelt pulling.

In regard to the headaches, they occur in the bifrontal area and the neck, 3 to 7 out of 10 on the pain scale, described as pressing. They are happening about 4 times a week. They do interfere with her ability to function and concentrate. She has not had any family history of migraines, but she herself has had past history of very infrequent migrainous headaches and was followed here at DENT previously. Since the accident, though, she feels that these symptoms have been exacerbated. She does not have a history of previous head injury.

On reviewing headache triggers, she does not exercise regularly, does not skip meals. She does have sleeping issues and the headaches do wake her from sleep. There is no depression or anxiety. Associated headache symptoms include sonophobia, osmophobia, spots before her eyes, fatigue, difficulty concentrating, neck stiffness, weakness in the arms and face. Things that can exacerbate the headache are sleep irregularity, stress, physical activity, missing a meal, seasonal changes, processed meats and certain medications. To treat the headaches she has tried ibuprofen, Tylenol, Motrin, chiropractic care, massage therapy and recently has seen Dr. Pollina, a neurosurgeon, on 02/08/2016. Dr. Pollina has recommended physical therapy and then followup afterwards. Patient did have an MRI of her brain in the past, 06/12/2015, that did show no abnormalities. This was done for her history of migraines. She recently had an MRI of the CT and L spine on 01/05/2016 that showed mild multilevel degenerative changes, but

Hospitalization/Major Diagnostic Procedure

See surgical history

Review of Systems

Positive for headaches, weakness, tremors, numbness, confusion, sleep problems, weight gain, blurry vision, ringing in the ears, earache, palpitations, heartburn, abdominal pain, sexual dysfunction, joint pain, neck stiffness, thyroid problems, anemia. No additional new neurological or physical deficits were reported outside of the patient's complaints upon the clinical review of systems for today's visit. The following systems were assessed: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 112/76, HR 72, RR 16, Ht 63, Wt 150, BMI 26.67, BSA 1.74.

Examination

NEUROLOGICAL:

Mental Status: Orientation to person, place, and time was normal. Recent and remote memory was intact. Attention span and concentration was appropriate. Speech: Speech content and production was normal. Language for naming objects, repetition and spontaneous speech was normal. Memory: Memory for remote and recent events was intact. Fund of Knowledge: Appropriate for events and past history. Cognition was intact. Motor: 5/5 upper and lower extremities bilaterally. Tone: Tone and bulk was within normal limits in the upper and lower extremities. No atrophy or fasciculations were noted. Reflexes: DTRs were +2 globally. Plantar responses were downgoing bilaterally. Coordination: Test of coordination, finger-nose-finger, fine motor and pronator drift were all within normal limits. Gait and Station: Within normal limits. Tandem walk, standing on 1 foot bilaterally, and Romberg were all within normal limits. Sensory: Sensation is normal x4 extremities, aside from the left upper extremity, from the elbow to the fingers there is perceived numbness and tingling. Strength is 5/5 globally aside from the left upper extremity 4+/5.

GENERAL EXAMINATION:

General Appearance: Patient well nourished, well developed, in moderate distress. Neck: Firm trigger points to palpating the trapezius bilaterally. Decreased range of motion of the neck. She has pain with palpation of the upper shoulder. Cardiovascular: S1, S2, no murmurs, regular rate. Normal peripheral pulses. Extremities: Full range of motion of extremities x4. No edema. Skin: No rashes or lesions obvious on exam.

CRANIAL NERVES:

Cranial Nerve II: Visual fields full. Disc margins clear bilaterally. Cranial Nerves III, IV, VI: Extraocular movements intact. PERRLA. Cranial Nerve V: Facial sensation and muscles of mastication were normal bilaterally. Cranial Nerve VII: Face was symmetric and strength was equal bilaterally. Cranial Nerve VIII: Hearing was intact to finger rub bilaterally. Cranial Nerves IX, X: Swallowing and palate elevation was within normal limits. Cranial Nerve XI: Sternocleidomastoid and shoulder shrug was within normal limits bilaterally. Cranial Nerve XII: Tongue was midline.

Assessments

- Cervical radiculopathy - M54.12 (Primary)
- Concussion, without loss of consciousness, initial encounter - S06.0X0A
- Post-traumatic headache - G44.309

Danielle is a wonderful 35-year-old young woman who was involved in a motor vehicle accident 10/31/2015. There was no loss of consciousness, but she has struggled with postconcussive symptoms including headache, dizziness, attention and concentration issues. As well, she has significant myofascial spasm in the upper cervical region. Pain with palpation of the shoulder. Numbness and tingling as well as weakness in the left upper extremity. These symptoms are consistent with a radiculopathy. She is following with Dr. Pollina in Neurosurgery in addition to the chiropractic therapy she has been doing, which has been

INFUSION CENTERS

Barbara Mullerig, RN, Manager

very helpful. Patient is now starting into physical therapy for myofascial spasms.

TREATMENT:

1. I am recommending trigger point injections to loosen up the upper cervical paraspinous spasm.
 2. Physical therapy for vestibular symptoms. Patient was very dizzy on examination.
 3. Magnesium oxide to decrease headaches.
 4. Naprosyn for the lesser headaches and neck pain.
 5. Rizatriptan for severe debilitating migraines.
 6. Laboratory studies to rule out metabolic or vitamin deficiency causes for patient's symptoms.
 7. Massage therapy is also recommended if patient so chooses.
 8. Her biggest complaint is that she cannot sleep because of the pain. I have recommended melatonin.
- Thank you for allowing me to care for the patient. If there are any questions or concerns, feel free to contact me at any point in time.
 cc: Peter Guzinski]

Treatment

1. Cervical radiculopathy

PHYSICAL THERAPY Vestibular nos1027093

Notes: trigger injections.

2. Post-traumatic headache

Start magnesium oxide tablet, 250 mg, 1-2 tab(s), orally, once a day, 30 days, 60, Refills 5

Start Naprosyn tablet, 500 mg, 1 tab(s), orally, prn headache, up to BID, 30 day(s), 30, Refills 5

Start rizatriptan tablet, 10 mg, 1 tab(s), orally, prn migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3, 30 days, 12, Refills 5

LAB: COMP METABOLIC PANEL W/EGFR

LAB: VITAMIN D25-OH LCMSMS

LAB: VITAMIN B12 SERUM

LAB: CBC W/DIFF & PLT

LAB: TSH WITH REFLEX TO FREE T4

PHYSICAL THERAPY Cervical Myofascial Spasm1027087

MASSAGE Therapy1027088

3. Others

Start Melatonin tablet, 3 mg, 1 tab(s), orally, once (at bedtime), 30 days, 30, Refills 5

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle 02/09/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 02/09/2016.

Exercise: Patient counseled on importance of moderate physical activity daily. 02/09/2016.

APPROVED: OMB-0938-1192 FORM 1500 (03-12)

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal contemptable offence and may be subject to civil penalties.

בנוסף לוגו גוונטן וווג-וואטס צייר

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the patient has employer group health insurance, liability, nobility, or other insurance which is managed, or pay for the services for which this Medicare claim is made. See 42 CFR 437.14(b). If this box is checked, we, the patient's signature authorizes release of your information to the health plan or other agency that manages Medicare payments to the physician. If this box is checked, we, the patient's signature authorizes release of your information to the health plan or other agency that manages TRICARE payments to the physician. In Medicare, if the physician agrees to accept assignment, the deductible and the copayments are based upon the charge determined by the physician, or cancer or TRICARE local beneficiary rates. In Medicare, the charges submitted to TRICARE and a health insurance "program" that makes payment for health care services provided through facilities and/or the Uniform Services Information System, etc., its spouse should be provided in the same manner as in Block 12, items 14, 15, 16, 17, and 18.

BLACK HAWK CITY NEWS CLASS

This provider agrees to accept the amount, paid by the Government as payment in full. See Block 13a and ECA instructions regarding required procedure and disbursements.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FICA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, when submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare laws, regulations, and program instructions for payments, including but not limited to the Federal Anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were authorized in writing to my professional service by my employer and/or my direct supervisor; 6) receipts, otherwise expressly permitted by Medicare or TRICARE; 7) for each service rendered in my professional capacity, the relevant CPT, HCPCS, or BSKU or the entity identifier, claim sets or as reported in the decategorialized record; 8) services to be considered "incident to" a physician's physical service(s); 1) they must be paid-and-received under the physician's direct supervision by his/her employee; 2) they must be an integral, although incidental part of a covered physician service; 3) they must be of kinds commonly furnished as physician's office, and 4) the services of non-physician must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contractor employee of the United States Government, either civilian or military (refer to 5 USC 5338). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations [42 CFR 424.321].

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and CWCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1862, 1872 and 1767 of the Social Security Act as amended, 42 CFR 411.21(a) and 424.5(a) (6), and 44 USC 3101; 1 CFR 101 et seq and 10 USC 1079 and 1088, 5 USC 8101 et seq and 30 USC 901 et seq, 38 USC 6103; E.C. 5057.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third party payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, 'Cancer Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FDICWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990. See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S). To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

POLICY/LIABILITY: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumers regarding accounts with occupant, claimants, and to Congressional Offices in response to inquiries made at the request of the person to whom it record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities and individual providers of care, on matters relating to enrollment, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntarily; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for failing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, could delay payment of the claim. Failure to provide medical information such as ICD-9-CM codes could also delay payment.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1120B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 10-503, the Computer Matching and Privacy Protection Act of 1998, grants the power to verify information on behalf of consumer credit reporting agencies.

Персонал відповідь передається системою

I hereby agree to keep such records as are necessary to disclose fully the information provided to individuals under the State's Title XIX plan and to furnish information concerning any payments I made for providing such services as the State agency or Dept. of Health and Human Services may request.

I further agree to accept as payment in full the amount paid by the Medicaid program for the charges rendered for payment under this program, with the exception of enhanced deductible, insurance co-payment or similar cost sharing charge.

DEFINITION OF PHYSICIAN (OR SELF-EMPLOYEE): I clearly limit the services I render to those who medically need me and care for the health of the patient and who personally furnish my services under my personal direction.⁵

any false claims, statements, or documents, or otherwise commit a misdemeanor, may be prosecuted under applicable Federal or State laws.

Information for this form is contained in the following sections of the Information Collection Request:

- 1. **Section I: General Information** - This section contains information about the purpose of the collection, the types of information collected, how it will be used, and your rights regarding the information.
- 2. **Section II: Data Elements** - This section lists the specific items of information being collected, such as name, address, and telephone number.
- 3. **Section III: Privacy Act Statement** - This section provides information about how your information will be protected under the Privacy Act of 1974.
- 4. **Section IV: Response Options** - This section provides instructions on how to respond to the survey or collection request.

Attn: Claims Dept

The attached claims have been faxed to Geico. Recently, there has been an issue with the clarity of the claims or they have not been scanned after they have been faxed. This is to verify that they were submitted both via fax and mail.

I hope this will help in getting the claims processed without any delay.

Sincerely,

Kristen R.
Billing

Figure 1. The effect of the number of nodes on the performance of the proposed algorithm.

Digitized by srujanika@gmail.com

¹ See also the discussion of the relationship between the two concepts in the section on "The concept of 'cultural capital'".

For more information about the National Institute of Child Health and Human Development, please call the NICHD Information Resource Center at 301-435-2936 or visit the NICHD Web site at www.nichd.nih.gov.

在這段時間內，我們已經開始研究如何將這些知識應用於實際問題上。我們希望能夠通過這種方法來解決一些具體的社會問題。

$$m_1 = \frac{1}{2} \left(\frac{1}{2} + \frac{1}{2} \right) = \frac{1}{2}, \quad m_2 = \frac{1}{2} \left(\frac{1}{2} - \frac{1}{2} \right) = 0, \quad m_3 = \frac{1}{2} \left(\frac{1}{2} + \frac{1}{2} \right) = \frac{1}{2},$$

The present study suggests that the relationship between the two variables is not as simple as it appears at first sight. The results indicate that the relationship between the two variables is not as simple as it appears at first sight.

¹ The term "soft power" was coined by Joseph Nye, Jr., in his book *The Paradox of Power: Why Soft Power Is the New Politics* (New York: Oxford University Press, 2000).

For the first time, we have shown that the *in vitro* growth of *Candida albicans* biofilms can be inhibited by the addition of a low concentration of the antifungal agent amphotericin B.

1960-1961: The first year of the new program was a success. The new curriculum was well received by students and faculty alike. The new facilities were utilized effectively, and the new teaching methods proved to be successful.

¹ See, e.g., *U.S. v. Babbitt*, 100 F.3d 1250, 1254 (10th Cir. 1996) (“[T]he [Bald Eagle] Act does not prohibit the killing of bald eagles; it prohibits the ‘take’ of bald eagles.”).

For $\mu = 0$, the solution is given by (2.1)–(2.3). For $\mu > 0$, we have $\lambda_1 < \lambda_2 < \lambda_3$. The solution is given by (2.1)–(2.3) with $\lambda_1, \lambda_2, \lambda_3$ replaced by $\lambda_1 + \mu, \lambda_2 + \mu, \lambda_3 + \mu$.

For the first time, we have shown that the $\text{P}(\text{H}_2\text{O})$ dependence of the $\text{P}(\text{H}_2)$ production rate is linear over a wide range of pressures.

W. H. Guggenheim, "The Economics of the Oil Industry," *Review of Economics and Statistics*, Vol. 32, No. 1, February 1950.

Systematic analysis of the data from the present study revealed that the mean total daily energy intake was significantly higher than the recommended intake for all age groups.

10. The following table shows the number of hours worked by each employee in a company.

Consultation
Date: 02/09/2016

Patient Name: Harwell, Danielle
DOB: 08/29/1980 Age: 35 Y Sex: Female
PCP: James Panzarella, DO

Reason for Appointment

- Neck/back pain

History of Present Illness

General:

Dear Dr. Panzarella:

I had the pleasure of seeing Danielle today in neurologic consultation regarding motor vehicle accident and head injury. She was seen at DENT Neurologic Institute in Amherst, New York. The following is a summary of my assessment and recommendations.

Danielle is a wonderful 35-year-old young woman who had an unfortunate motor vehicle accident on 10/31/2015. Patient was the seat-belted driver. She stopped, waiting for a truck and was rear-ended. This caused a chain reaction where multiple cars hit each other. She had her children and her husband in the car. Patient hit her head against the headrest and then was jolted forward. She was seen at the urgent care the next day. Initially she had pain but was unaware of how serious it would become. She complained of dizziness, difficulty with attention and concentration, headaches, poor sleep, but denies any mood changes. She had significant amount of pain in the left upper extremity and shoulder. She felt this was from the seatbelt pulling.

In regard to the headaches, they occur in the bifrontal area and the neck, 3 to 7 out of 10 on the pain scale, described as pressing. They are happening about 4 times a week. They do interfere with her ability to function and concentrate. She has not had any family history of migraines, but she herself has had past history of very infrequent migraineous headaches and was followed here at DENT previously. Since the accident, though, she feels that these symptoms have been exacerbated. She does not have a history of previous head injury.

On reviewing headache triggers, she does not exercise regularly, does not skip meals. She does have sleeping issues and the headaches do wake her from sleep. There is no depression or anxiety. Associated headache symptoms include sonophobia, osmophobia, spots before her eyes, fatigue, difficulty concentrating, neck stiffness, weakness in the arms and face. Things that can exacerbate the headache are sleep irregularity, stress, physical activity, missing a meal, seasonal changes, processed meats and certain medications. To treat the headaches she has tried ibuprofen, Tylenol, Motrin, chiropractic care, massage therapy and recently has seen Dr. Pollina, a neurosurgeon, on 02/08/2016. Dr. Pollina has recommended physical therapy and then followup afterwards. Patient did have an MRI of her brain in the past, 05/12/2015, that did show no abnormalities. This was done for her history of migraines. She recently had an MRI of the CT and L spine on 01/05/2016 that showed mild multilevel degenerative changes, but

INFUSION CENTERS
Barbara Muldrig, RN, Manager

there are disk extrusions seen at C4-C5 and C5-C6

She did have an EMG 01/19/2016, but I do not have these results.

Patient has been getting regular chiropractic treatment 2 times a week and does feel this has been helpful. She follows with Dr. Guzinski.

Current Medications

- Taking Vitamin D 50,000 int'l units capsule 1 cap(s) 2 times a week
- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Discontinued Wellbutrin XL 150 mg/24 hours tablet, extended release 1 tab(s) every 24 hours
- Medication List reviewed and reconciled with the patient

Past Medical History

- Asthma
- Esophageal reflux

Surgical History

- T & A

- D&C

- Endoscopy

- Colonoscopy

Family History

Hospitalization/Major Diagnostic Procedure

See surgical history

Review of Systems

Positive for headaches, weakness, tremors, numbness, confusion, sleep problems, weight gain, blurry vision, ringing in the ears, earache, palpitations, heartburn, abdominal pain, sexual dysfunction, joint pain, neck stiffness, thyroid problems, anemia. No additional new neurological or physical deficits were reported outside of the patient's complaints upon the clinical review of systems for today's visit. The following systems were assessed: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 112/76, HR 72, RR 16, Ht 63, Wt 150, BMI 26.57, BSA 1.74.

Examination

NEUROLOGICAL:

Mental Status: Orientation to person, place, and time was normal. Recent and remote memory was intact. Attention span and concentration was appropriate. Speech: Speech content and production was normal. Language for naming objects, repetition and spontaneous speech was normal. Memory: Memory for remote and recent events was intact. Fund of Knowledge: Appropriate for events and past history. Cognition was intact. Motor: 5/5 upper and lower extremities bilaterally. Tone: Tone and bulk was within normal limits in the upper and lower extremities. No atrophy or fasciculations were noted. Reflexes: DTRs were +2 globally. Plantar responses were downgoing bilaterally. Coordination Test of coordination, finger-nose-finger, fine motor and pronator drift were all within normal limits. Gait and Station: Within normal limits. Tandem walk, standing on 1 foot bilaterally, and Romberg were all within normal limits. Sensory: Sensation is normal x4 extremities, aside from the left upper extremity, from the elbow to the fingers there is perceived numbness and tingling. Strength is 5/5 globally aside from the left upper extremity 4+/5.

GENERAL EXAMINATION:

General Appearance: Patient well nourished, well developed, in moderate distress. Neck: Firm trigger points to palpating the trapezius bilaterally. Decreased range of motion of the neck. She has pain with palpation of the upper shoulder. Cardiovascular: S1, S2, no murmurs, regular rate. Normal peripheral pulses. Extremities: Full range of motion of extremities x4. No edema. Skin: No rashes or lesions obvious on exam

CRANIAL NERVES:

Cranial Nerve II: Visual fields full. Disc margins clear bilaterally. Cranial Nerves III, IV, VI: Extraocular movements intact. PERRLA. Cranial Nerve V: Facial sensation and muscles of mastication were normal bilaterally. Cranial Nerve VII: Face was symmetric and strength was equal bilaterally. Cranial Nerve VIII: Hearing was intact to finger rub bilaterally. Cranial Nerves IX, X: Swallowing and palate elevation was within normal limits. Cranial Nerve XI: Sternocleidomastoid and shoulder shrug was within normal limits bilaterally. Cranial Nerve XII: Tongue was midline.

Assessments

- Cervical radiculopathy - M54.12 (Primary)
- Concussion, without loss of consciousness, initial encounter - S06.0X0A
- Post-traumatic headache - G44.309

Danielle is a wonderful 35-year-old young woman who was involved in a motor vehicle accident 10/31/2015. There was no loss of consciousness, but she has struggled with postconcussive symptoms including headache, dizziness, attention and concentration issues. As well, she has significant myofascial spasm in the upper cervical region. Pain with palpation of the shoulder. Numbness and tingling as well as weakness in the left upper extremity. These symptoms are consistent with a radiculopathy. She is following with Dr. Pollina in Neurosurgery in addition to the chiropractic therapy she has been doing, which has been

very helpful. Patient is now starting into physical therapy for myofascial spasm.

TREATMENT:

1. I am recommending trigger point injections to loosen up the upper cervical paraspinous spasm.
 2. Physical therapy for vestibular symptoms Patient was very dizzy on examination
 3. Magnesium oxide to decrease headaches
 4. Naprosyn for the lesser headaches and neck pain.
 5. RizatRIPTAN for severe debilitating migraines
 6. Laboratory studies to rule out metabolic or vitamin deficiency causes for patient's symptoms.
 7. Massage therapy is also recommended if patient so chooses
 8. Her biggest complaint is that she cannot sleep because of the pain. I have recommended melatonin.
- Thank you for allowing me to care for the patient. If there are any questions or concerns, feel free to contact me at any point in time.
cc: Peter Guzinski).

Treatment

1. Cervical radiculopathy

PHYSICAL THERAPY Vestibular nos1027093

Notes: trigger injections.

2. Post-traumatic headache

Start magnesium oxide tablet, 250 mg, 1-2 tab(s), orally, once a day, 30 days, 60, Refills 5

Start Naprosyn tablet, 500 mg, 1 tab(s), orally, pm headache, up to BID, 30 day(s), 30, Refills 5

Start rizatRIPTAN tablet, 10 mg, 1 tab(s), orally, pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3, 30 days, 12, Refills 5

LAB: COMP METABOLIC PANEL WEGFR

LAB: VITAMIN D,25-OH,LCMSMS

LAB: VITAMIN B12,SERUM

LAB: CBC WDIF& PLT

LAB: TSH WITH REFLEX TO FREE T4

PHYSICAL THERAPY Cervical Myofascial Spasm1027087

MASSAGE Therapy1027086

3. Others

Start Melatonin tablet, 3 mg, 1 tab(s), orally, once (at bedtime), 30 days, 30, Refills 5

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle 02/09/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 02/09/2016.

Exercise. Patient counseled on importance of moderate physical activity daily 02/09/2016.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Monday February 15, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been better. Patient saw Dr. McVige who performed trigger point injections on her neck. Patient seeing Dr. Ostempowski next week. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit:* *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are no longer daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also has dizziness associated with the headaches but she denies any nausea. Today about a "4". *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit:* *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit:* *Pain:* achy, dull, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain

Encounter dated 02/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/01/2016

neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 70/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Sensation:** left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc

Encounter dated 02/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/01/2016

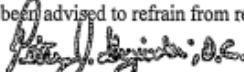

extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 (cervical decompression); C6 (cervical decompression) supine at 10 degrees for 13 minutes at a max pull of 15 lbs for 10 sec with a min pull of 10 lbs for 15 sec; T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical moist heat pack while seated (15 minutes); bilateral lumbar moist heat pack while seated (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Ostempowski for and orthopedic consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Thursday February 18, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31,

Encounter dated 02/18/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/01/2016

2015.

Subjective

Cervical: Patient stated that her neck pain has been slightly better. "I think the trigger point injections kind of helped." Patient seeing Dr. Ostempowski next week. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that her headaches are no longer daily but every other day. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient has not experienced as much dizziness with the headaches. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain has been better. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, shooting; level: 3/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been slightly better. Left foot numbness continues to come and go. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness:* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left/lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 80/180 pain left shoulder; internal rotation: WNL

**Encounter dated 02/18/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/01/2016**

80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by motion and static palpation.*

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: mild to moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** improving. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

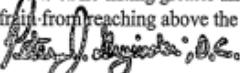

Thoracic assessment: improving, VAS score improved from a 5 to 3 out of 10. **Post-treatment analysis:** patient tolerated treatment without incident.

Lumbar assessment: improving, VAS score improved from a 5 to 3 out of 10. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

APPROVED OMB-0938-1197 FORM 1500 (02-12)

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

NMEDICARE AND TRICARE PAYMENTS: A patient's signature requires that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.2(a)(g). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provision through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items explained in "Invoicing". Ls., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Block Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (NMEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment, including but not limited to the Federal anti-kidnapping statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SRRN) of the primary individual rendering each service is reported in the designated section for services to be considered "incident to" a physician's professional services; 7) they must be rendered under the physician's direct supervision by his/her employee; 2) they must be an integral, although incidental part of a covered physician's service; 8) they must be of funds kindly furnished in physician's office, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5338). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 427.32).

NOTICE: Any one who manufactures or leases essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(d), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.2(h) and 424.3(g) (b), and 44 USC 3101; 1 CFR 101 et seq and 10 USC 1079 and 1088; 5 USC 8101 et seq. and 30 USC 801 et seq.; 38 USC 612; E.O. 13379.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties payers to pay primary to Federal programs and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice mailing system No. 09-70-0591 titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records." Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

BOUTLINES: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with repayment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under Beta programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or class number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-603, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds and that any false claims, statements, or documents or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: HHS, Ctrs. 7500 Security Boulevard, Attn: PRA Response Clearance Officer, Mail Stop C4-28-05, Baltimore, Maryland 21244-1860. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

NEW YORK MOTOR VEHICLE NO-FAULT INSURANCE LAW
ASSIGNMENT OF BENEFITS FORM

(FOR ACCIDENTS OCCURRING ON AND AFTER 3/1/02)

Danielle Harwell ("Assignor") hereby assign to Buffalo PT, ("Assignee")
(Print patient's name) (Print hospital or health care provider name)

all rights privileges and remedies to payment for health care services provided by assignee to which I am entitled under Article 51 (the No-Fault statute) of the Insurance Law.

The Assignee hereby certifies that they have not received any payment from or on behalf of the Assignor and shall not pursue payment directly from the Assignor for services provided by said Assignee for injuries sustained due to the motor vehicle accident which occurred on 10/31/15, notwithstanding any other agreement (Print accident date)

to the contrary.

This agreement may be revoked by the assignee when benefits are not payable based upon the assignor's lack of coverage and/or violation of a policy condition due to the actions or conduct of the assignor.

ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFRAUD ANY INSURANCE COMPANY OR OTHER PERSON FILES AN APPLICATION FOR COMMERCIAL INSURANCE OR A STATEMENT OF CLAIM FOR ANY COMMERCIAL OR PERSONAL INSURANCE BENEFITS CONTAINING ANY MATERIALLY FALSE INFORMATION, OR CONCEALS FOR THE PURPOSE OF MISLEADING, INFORMATION CONCERNING ANY FACT MATERIAL THERETO, AND ANY PERSON WHO, IN CONNECTION WITH SUCH APPLICATION OR CLAIM, KNOWINGLY MAKES OR KNOWINGLY ASSISTS, ABETS, SOLICITS OR CONSPIRES WITH ANOTHER TO MAKE A FALSE REPORT OF THE THEFT, DESTRUCTION, DAMAGE OR CONVERSION OF ANY MOTOR VEHICLE TO A LAW ENFORCEMENT AGENCY, THE DEPARTMENT OF MOTORS VEHICLES OR AN INSURANCE COMPANY, COMMITS A FRAUDULENT INSURANCE ACT, WHICH IS A CRIME, AND SHALL ALSO BE SUBJECT TO A CIVIL PENALTY NOT TO EXCEED FIVE THOUSAND DOLLARS AND THE VALUE OF THE SUBJECT MOTOR VEHICLE OR STATED CLAIM FOR EACH VIOLATION.

PHYSICIAN OR SUPPLIER INFORMATION

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature on this form will be made and will attest to the fact that all information necessary to process this claim are contained in the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any study or review to determine if Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, health-risk worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR § 411.94(a). If claim is appealed, the patient's signature authorizes release of the information to the health plan or agency that is responsible to pay for the services. In Wisconsin, assigned or TRICARE prepayment cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE Final determination as the full charge and the patient is responsible only for the deductible contribution and any copay required. Overpayments and line item debits are based upon the charge determination in the Medicare carrier or TRICARE final determination and are to be returned in the correct amount. TRICARE is not a health insurance program but makes payment for health benefits provided through certain providers with the Uniformed Services. Information on one's sponsor should be provided in three items captioned in "Assigned," i.e., items 4, 8, 7, 9, and 11.

BLOCK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required providers and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: (1) all information on this form is true, accurate and complete; (2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare carrier; (3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; (4) the claim, whether submitted by me or on my behalf by an attorney or by my physician or by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal and State/territory status and Physician Self-Referral law (commonly known as Stark Law); (5) the services on this form were medically necessary and reasonably furnished by me or were furnished incident to my professional services by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; (6) for each service rendered incident to my professional services, the identity (legal name and NPI license, if any, or SBN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services: (1) they must be rendered under the physician's direct supervision by his/her employee; (2) there must be an integral, although incidental part of a covered physician service; (3) they must be of lands commonly furnished in physician's offices, and (4) the services of non-physicians must be included on the physician's bill;

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 36 USC 5338). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or omits essential information to receive payment from Federal funds required by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWC to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 2051(a), 1022, 1072 and 1074 of the Social Security Act as amended. (42 CFR 411.34(a) and 434.5(a)) (B), and 44 USC 3101-41 CFR 101 of et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq, and 30 USC 901 et seq; 38 USC 119; E.O. 13397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies for the effective administration of Federal programs that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosure is made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-5501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 63 No. 177, page 37549, Wed Sept. 12, 1990, as updated and republished.

FOR OWC CLAIMS: Department of Labor, Privacy Act of 1974, Republification of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-93 or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies rendered are authorized by law.

FOR DOD USES: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory authority and responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumers reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care on matters relating to entitlement, claims adjudication, fraud, program abuses, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE/LFR: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged could prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XXI plan and to furnish information regarding any payments claimed for providing such services to the State Agency or Dept. of Health and Human Services as may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary in the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and not any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1187. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a claim or claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal or punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, ability, no-fault, workers' compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 3 is completed, the patient's signature authorizes release of the information to the health plan or agency shown in Medicare assigned or TRICARE exception case, the physician agrees, except the change of termination of the Medicare carrier or TRICARE lessor to lessor by the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if it is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain allowances with the Uniformed Services. Information on the patient's spouse should be provided in those items captioned in "Insured"; i.e., items 4, 6, 7, 9 and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal Anti-Fraud Statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, its identity (legal name and NPI, license # or SSN) of the primary individual rendering such service is reported in the designated section For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee; 2) they must be an integral, although incidental part of a covered physician service; 3) they must be of kinds commonly furnished in physician offices; and 4) the services of non-physicians must be included on the physician's bill.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a civilian employee of the United States Government, either civilian or military prior to 8 USC 5326. For Black Lung claims, I further certify that the services performed are not for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless the form is returned as required by existing law and regulations (42 CFR 424.32).

NOTICE. Any one who misrepresents or violates essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENTS ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS TRICARE and OWC to use you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(p) 1882, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.50(i) (8), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 5501 et seq; 50 USC 901 et seq; 8 USC 6104, E.O. 13377.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-10-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Yea Sept. 12, 1990, as updated and re-published.

FOR OWC CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, See E&A-6, E&A-6, E&A-12, E&A-13, E&A-50, as updated and re-published.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S) To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from clients and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions to the Internal Revenue Service, private collection agencies, and consumer reporting agencies, in connection with recoupment claims, and to Congressional Offices in response to requests made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, could delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-623, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

REBILLED PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost sharing charge.

SIGNATURE OF PHYSICIAN (OR STAFF MEMBER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of the claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Privacy Act Regulation of 1974, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1397. This has been reviewed and determined that this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, get information from other records and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please mail to CMS, 7500 Security Boulevard, Attn: PRA Regis Clearance Officer, Mail Stop C4-05-05, Baltimore, Maryland 21244-1000. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

 BUFFALO, NY 14221

Patient: DANIELLE HARWELL
 DOB: 8/29/1980
 ID: RAM1965183
 DOS: 2/25/2016 1:39:21 PM

MRI SHOULDER W/O CONTRAST LT 25MIN

REASON FOR STUDY AND CLINICAL INFORMATION: Left shoulder pain. Patient was in motor vehicle accident, and was a driver of a van.

IMAGING SEQUENCES: Multiplanar 3-T MR imaging of the left shoulder is performed.

FINDINGS: The components of the rotator cuff are unremarkable in size, morphology and signal characteristics, showing no tendinosis or tear. The long head of the biceps is also unremarkable, as is the short head.

Acromioclavicular alignment is satisfactory without arthrosis. There is no compromise of the subacromial space. A type 1 acromion is present.

Glenohumeral alignment is satisfactory. There is no capsule or labral defect. There is no synovial effusion or soft tissue mass. There is no bursitis. There are a few scattered ovoid axillary lymph nodes, the majority of which are fatty replaced. These have benign features but clinical correlation would be advised given the number of lymph nodes that are present.

There is a tiny subcortical cyst at the lateral margin of the humeral head, benign in appearance.

IMPRESSION:

1. THERE IS NO ROTATOR CUFF TEAR OR TENDINOSIS, OR ANY INTERNAL DERANGEMENT OF THE SHOULDER.
2. TINY SUBCORTICAL CYSTS LATERALLY AT THE HUMERAL HEAD.
3. MULTIPLE LYMPH NODES WHICH HAVE BENIGN FEATURES BUT CLINICAL CORRELATION WOULD BE ADVISED.

Thank you very much for referring this patient to us.

Sincerely,

Signed by STEVEN WINTER, M.D. at 2/28/2016 6:40:39 PM

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency chosen. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned "Insured", i.e., items 1a, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, when submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral Law (commonly known as Stark Law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SBN) of my primary individual rendering each service is reported in the designated section. For services to be considered incident to a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral although incidental part of a covered physician's professional services, 3) they must be of little commercial value in physician's office, and 4) the services of non-physician must be indicated on the physician's bills.

For TRICARE claims, I further certify that I (or my employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 10 USC 5330). For Black Lung claims, I further certify that the services performed were not for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who represents or misrepresents information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCW to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 2052(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(e)(8) and 44 USC 3101; 41 CFR 101 et seq and 10 USC 1076 and 1086; 5 USC 8101 et seq, and 30 USC 901 et seq, 38 USC 813; E.O. 13937.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if no services and supplies you received are covered by these programs and to insure that proper payment is made.

This information may also be given to other providers of services, consumer organizations, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosure are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 02-70-0501, titled, "Cancer Medicare Claims Record," published in the Federal Register, Vol. 65 No. 177, page 37510, Wed Sept 12, 1990, as updated and republished.

FOR OWCW CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 65 No. 40, Wed Feb. 28, 1990. See ESA-5, EBA-6, EBA-12, EBA-13, EBA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

BOUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, or matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLAIMER: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the incident services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1120B of the Social Security Act and 31 USC 3811-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-603, the "Ch�rester Martin and Privacy Protection Act of 1986," permits the government to verify information by way of computer inquiries.

Medicaid Payments (Provider Certification)

I hereby agree to keep track records in an ordinary manner to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services or the State Agency or Dept. of Health and Human Services may request.

I further agree to accept as payment in full the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of uninsured deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary in the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0238-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C-26-05, Baltimore, Maryland 21204-1850. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday March 3, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain remains the same. Patient started PT yesterday for the shoulder. Follow up with the orthopedist will be on March 16, 2016. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 4/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that her headaches remain the same about 2 x a week. She states that the duration varies, sometimes they last all day. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain remains sore. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 4/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck

Encounter dated 03/03/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 80/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: mild to moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

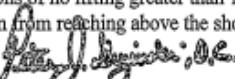

Encounter dated 03/03/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

Thoracic assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (supine mobilization); C6 left lateral flexion restriction (supine mobilization); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); Left SI left (prone mobilization). *Physical Modalities:* bilateral cervical moist heat pack while seated (15 minutes); bilateral lumbar moist heat pack while seated (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform broom stick elevations 2 sets of 10 daily. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to March 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Policy ID: 013873940011059

Monday February 22, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain remains the same. Patient seeing Dr. Ostempowski on Wednesday. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, tingling, shooting, numb; level: 5/10. **Pain is constant.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that her headaches are no longer daily but every other day. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient has not experienced as much dizziness with the headaches. **Recent medical treatment for this condition:** Massage therapy. **Prior chiropractic treatment for this condition:** None.

Thoracic: Patient stated that her left middle back pain remains the same. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, shooting; level: 3/10. **Pain is constant.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. Left foot numbness continues to come and go. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** improving. **since last visit.** **Pain:** achy, dull, shooting, tingling, numb; level: 3/10. **Pain is constant.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck

**Encounter dated 02/22/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016**

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 80/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: mild to moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Encounter dated 02/22/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

Thoracic assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Stopped decompression due to lack of improvement at this time. *Patient treated to:* relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical moist heat pack while seated (15 minutes); bilateral lumbar moist heat pack while seated (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient referred to:* Dr. Ostemponski for and orthopedic consult. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform broom stick elevations 2 sets of 10 daily. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to February 29, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Thursday February 25, 2016 Provider: Peter Guzinski DC

Encounter dated 02/25/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been better since last visit. Patient saw Dr. Ostempowski who ordered a shoulder MRI which will be performed this afternoon. She also stated that she has been advised to perform PT. Follow up will be on March 16, 2016. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving, *since* last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 4/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that her headaches have been "pretty good, maybe 2 x a week." She states that the duration varies, sometimes they last all day. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition:* None.

Thoracic: Patient stated that her left middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change, *since* last visit. *Pain:* achy, dull, shooting; level: 4/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change, *since* last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness:* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Encounter dated 02/25/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 80/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by motion and static palpation.*

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: mild to moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: improving, less frequent headaches. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens thecal sac.

Thoracic assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident.

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Encounter dated 02/25/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

Treatment & Plan

Stopped decompression due to lack of improvement at this time. *Patient treated to:* relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical moist heat pack while seated (15 minutes); bilateral lumbar moist heat pack while seated (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform broom stick elevations 2 sets of 10 daily. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to March 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Monday February 29, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been better since last visit. Patient saw Dr. Ostempowski who ordered a shoulder MRI which was performed on February 25, 2016. She also stated that she has been advised to perform PT. Follow up will be on March 16, 2016. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 4/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that her headaches remain the same about 2 x a week. She states that the duration varies, sometimes they last all day. *Recent medical treatment for this condition:* Massage therapy. *Prior chiropractic treatment for this condition*

Encounter dated 02/29/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

None.

Thoracic: Patient stated that her left middle back pain remains sore. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit:* Pain: achy, dull, shooting; level: 4/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain is "probably a 3". *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit:* Pain: achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 80/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending:

Encounter dated 02/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/15/2016

25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: mild to moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). *Cervical assessment:* unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical moist heat pack while seated (15 minutes); bilateral lumbar moist heat pack while seated (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily;

CC: Left shoulder pain

HPI: Danielle presents to the office today in regards to her left shoulder. She is a 35-year-old female who was involved in a motor vehicle accident on 10/31/2015. She states she was a belted driver when she was stopped on Stain in North Buffalo. She was rear-ended by another vehicle. She states she saw the vehicle coming in her rear view mirror and tensed up gripping the steering wheel. She injured her left shoulder. She was also noted to have some wisp/injury to the neck. She was seen and immediate care and had x-rays. At that time her neck and back were more symptomatic. She followed up with Dr. Pollina for this. She states she has had an MRI of her cervical spine. Dr.Pollina also recommend she see someone for her continued left shoulder pain. She has weakness in her left arm. She does get pain at night and pain with overhead activities. She has been seeking chiropractic treatment with some relief. She is right-hand dominant. She does sometimes get some numbness and tingling down the arm. She denies any fevers, chills or any constitutional symptoms.

CV: Denies cardiovascular symptoms.

GI: Denies gastrointestinal symptoms.

Musculo: Denies symptoms other than stated above.

Skin: Denies skin, hair and nail symptoms.

Neuro: Denies symptoms other than stated above.

Reviewed, no changes.

PHYSICAL EXAMINATION: The patient is a well developed well nourished person, in no acute distress. The patient appears as stated age, is alert and oriented x 3 and is cooperative and interactive.

Musculoskeletal Exam:

Left shoulder

Skin: Intact throughout.

Inspection/Palpation/Swelling: She is no gross swelling or deformity throughout the shoulder. She is non tender throughout the shoulder. She does have some tenderness in the trapezial region.

ROM: She can forward elevate the shoulder to approximately 150° with pain. Internal rotation is to the LS junction. External rotation is 70°.

Stability: No gross instability.

Strength: 5 minus/5 abduction and external rotation strength.

Special Tests: Positive Hawkins and impingement testing. She does have some discomfort with Spurling's is well.

Neurovascular: Sensation is intact throughout the upper extremity in all dermatomes. Pulses palpable in the wrist.

Dx Studies:

Radiographs of the left shoulder were taken in the office today for the purposes of evaluating shoulder pain. Glenohumeral joint space is well-maintained. No acute fracture is evident.

Assessment:

1. M25.512 Pain in left shoulder
2. M75.42 Impingement syndrome of left shoulder

Care Plan:

Comments : Treatment was discussed with Danielle in the office today. We discussed her situation. She does see to have some mild symptoms of impingement in the left shoulder. I do think some of her symptoms are likely coming from her cervical spine. She states she was told she does have 2 herniated disks in her neck. Dr. Pollina has been managing this. I do think a course of physical therapy for her shoulder and neck will be beneficial. I have also discussed a cortisone injection in the shoulder with her. Unfortunately she is allergic to a lot of things and she does not have her EpiPen with her today. I would like to obtain an MRI scan of the left shoulder for further evaluation. If she does have findings on the MRI of the shoulder we can consider the injection. She is going to bring her EpiPen to the next appointment. She states she is not specifically allergic to cortisone but she just knows she is very sensitive to a lot of medications. For now she will begin a course of therapy and proceed with MRI of the shoulder. I would like to see her back in 4 weeks to review the MRI and to see how she is done with physical therapy. She was agreeable with the above treatment plan. She will continue management of her cervical spine with Dr.Pollina.

I do think a course of physical therapy for her shoulder and neck will be beneficial. I have also discussed a cortisone injection in the shoulder with her. Unfortunately she is allergic to a lot of things and she does not have her EpiPen with her today. I would like to obtain an MRI scan of the left shoulder for further evaluation. If she does have findings on the MRI of the shoulder we can consider the injection. She is going to bring her EpiPen to the next appointment. She states she is not specifically allergic to cortisone but she just knows she is very sensitive to a lot of medications. For now she will begin a course of therapy and proceed with MRI of the shoulder. I would like to see her back in 4 weeks to review the MRI and to see how she is done with physical therapy. She was agreeable with the above treatment plan. She will continue management of her cervical spine with Dr.Pollina.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

NICEDARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Block 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.3(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary to pay the full charge and the patient is responsible only for the deductible, coinsurance and non-contracted services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items explained in Item 1(e), items 1a, 2, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to account the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedures and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (HEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form are medically necessary and personally furnished to me or were furnished pursuant to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered pursuant to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section for services to be considered "incident to" a physician's professional services; 7) they must be rendered under the physician's direct supervision by his/her employee; 2) they must be an integral, although incidental part of a physician's professional service; 8) they must be of kinds commonly furnished in physician's offices; and 9) the services of non-physicians must be included on the physician's bill.

For TRICARE claims: I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, Civilian or military (refer to 5 USC 5508). For Black Lung claims, I further certify that the services performed were for a Black Lung related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 422.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF HEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1882, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(b) and 424.3(a) (b), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1079 and 1088, 5 USC 8101 et seq; and 30 USC 901 et seq, 38 USC 613, E.O. 13377.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay primary to Federal programs and as otherwise necessary to administer those programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See 'An notice modifying system No. 09-70-0991, titled, 'Carrier Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37549, Wed, Sept. 19, 1990, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, 'Reputation of Notice of Systems of Records' Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USES: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice in representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with retrospective claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on issues relating to enrollment, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLAIMERS: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3301-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988" permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to fully disclose the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

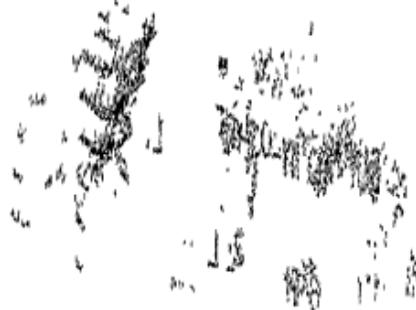

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under this program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Rm. PRPA Reports Clearance Officer, Mail Stop C4-20-06, Baltimore, Maryland 21244-1860. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided is accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, auto, life, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.2(b)(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation plans, a physician's agreement to accept the charge determination of the Medicare center or TRICARE fiscal intermediary is less than full charge submitted. TRICARE is not a health insurance program but makes payment for health services provided through certain clinicians within the Uniformed Services. Information on the provider's sponsor should be provided if the items captioned as "listed", i.e., items 1a, 4, 6, 7, 8, and 13.

BLACK LUNG AND TRICARE CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnostic coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE, 6) for each service rendered incident to a physician's professional services: 1) they must be rendered under the physician's direct supervision by his/her employee; 2) they must be an integral, although incidental part of a covered physician service; 3) they must be of little concern furnished in physician's office; and, 4) the services of non-physician must be indicated on the physician's bill.

For TRICARE claims, I further certify that I (or my employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (41 CFR 5 USC 5336). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless the form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(e), 1982, 1972 and 1974 of the Social Security Act as amended, 42 CFR 411.26(a) and 424.5(a) (6) and 44 USC 3101; 41 CFR 101 et seq and 10 USC 1079 and 1088; 5 USC 8101 et seq; and 30 USC 901 et seq; 38 USC 613; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other programs of service, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying System No. 16-70-0301, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 86 No. 177, page 37519 Wed. Sept. 12, 1990, as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, 50 FR P-5A-6, ESA-6, ESA-12, ESA-13, ESA-22, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSES: To validate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/benefits rendered are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory authorities to conduct audits, under TRICARE/CHAMPVA to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the General Revenue Service, private collection agencies, and consumer reporting agencies in connection with recuperable claims; and to Congressional Offices in response to inquiries made at request of the person to whom a claim is made or to whom a payment is made; aggregate disclosures may be made to other Federal, state, local, foreign government agencies, private businesses, other, and individual providers of care, or matters relating to entitlement, claims adjudication, fraud programs, etc., unless otherwise prohibited by law; peer review, program integrity, third-party liability coordination of benefits, and civil and criminal legal actions related to the operation of TRICARE.

RIGHTS/OPPORTUNITY FOR VOLUNTARY RELEASE: Voluntary release, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amounts charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an admission.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1120B of the Social Security Act and 31 USC 3801-0812 provide penalties for furnishing this information.

You should be aware that P.L. 100-503, the Computer Matching and Privacy Protection Act of 1988, permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I have agreed to keep such records as are necessary to describe fully the extent of services provided to individuals under this State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates or suggestions for improving this form, please write to: CMS 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-03, Baltimore, Maryland 21214-1850. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday March 10, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain remains the same. Follow up with the orthopedist will be on March 16, 2016. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that her headaches remain the same about 2 x a week. She states that the duration varies, sometimes they last all day. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* Yes: patient currently wearing a heart monitor due to chest pain. Patient also going for a stress test on Friday.

Thoracic: Patient stated that her left middle back pain remains sore. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 60/80 with pain neck and upper back; right rotation: 60/80 with pain neck

Encounter dated 03/10/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/28/2016

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 5/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Upper Extremity: *Left shoulder ROM (active):* flexion: 90/180 pain left shoulder; extension: 15/40 pain left shoulder; adduction: 10/30 pain left shoulder; abduction: 80/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain. *Left shoulder ROM (passive):* flexion: 160/180 pain left shoulder; extension: WNL 40/40 pain left shoulder; adduction: WNL 30/30 pain left shoulder; abduction: 120/180 pain left shoulder; internal rotation: WNL 80/80 with no pain; external rotation: WNL 90/90 with no pain.

Thoracic: *Hypertonicity & Tenderness:* Thoracic paraspinal musculature Left Moderate; Thoraco-Lumbar Muscle Group Right Mild to Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: 25/25 with pain lower back; right lateral bending: 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Sensation:* left L5 decreased sensation Pin prick; left S1 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: mild to moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** improving, left deltoid was stronger and graded 5/5. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Encounter dated 03/10/2016 for Danielle Harwell #3438
DOB:08/29/1980 Last 4 digits SS#: Today's date: 03/28/2016

Thoracic assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (supine mobilization); C6 left lateral flexion restriction (supine mobilization); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (anterior); T7 (anterior); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); Left SI left (prone mobilization). *Physical Modalities:* bilateral cervical moist heat pack while seated (15 minutes); bilateral lumbar moist heat pack while seated (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform broom stick elevations 2 sets of 10 daily. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days.

Additional instructions: Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to March 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Reason for Appointment

- Trigger Points

History of Present Illness

General:

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Danielle states the trigger point injections have been moderately helpful. She has seen the effects wear off after about 1 month. She has continued with PT, massage and chiropractic adjustment regularly. She has continued with magnesium oxide daily, which has been helpful both for muscle relaxation and sleep issues.

Current Medications

- Taking Vitamin D2 50,000 intl units capsule 1 cap(s) 2 times a week
- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Taking Naprosyn 500 mg tablet 1 tab(s) pm headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Medication List reviewed and reconciled with the patient

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 110/61, HR 66, RR 16, Ht 63, Wt 150, BMI 26.57, BSA 1.74.

Examination

NEUROLOGICAL:

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger

points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1 (Primary)

Continue all previously prescribed medicines at the current doses.

Return for repeat trigger point injections in 6 weeks

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 10 cc was injected with a 25-gauge needle without complication into 10 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness.

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle. 04/01/2016.

Diet: Patient counseled on Importance of lowering sugar intake, sodium and fats. 04/01/2016.

Exercise: Patient counseled on importance of moderate physical activity daily. 04/01/2016.

Follow Up

6 weeks

For Plaintiff's claim 1, I further certify that I am a supervisor who performed services as an independent member of the Unarmed Services or a civilian employee of the United States Government or its contractors employed in the United States Government, its civilian or military functions, 46 USC 2303. For Plaintiff Lung-bien, I further certify that the services performed in connection with Plaintiff's claim 1 were performed as a supervisor.

Eligible PFR beneficiaries can now be paid under a new benefit structure as required by existing law, in regulations 45 CFR 20.20.

NOTICE: This is a draft version, subject to change. It is not intended to be relied on as a definitive statement of law or legal advice.

We are saddened by GUS' TPCAMP and CHOCO's decision to withdraw from the administration of the Merger, TPCAMP, FEDA, and Black Lung programs. Autonomy will result in significant savings of \$1.1 billion, 10% and 10% of the Social Security Act, respectively, 42 CFR 411.210(a) and 421 Subtitle B, and 44 CFR 3101.01 CPH 101 of seq and 10 HSC 1705 and 1035 USC Subtitle C and 40 CFR 100.10(b) CPC 1001 CPH 2 339.

The information is objective for complaints, claims under the law, and other purposes, but it is not intended to be a substitute for legal advice. It is not used to create a relationship between you and your attorney.

The information may also go on to outline members of staff, roles, responsibilities, management systems, health plans, welfare arrangements, or other arrangements for staff who work at home. It may also include details of any training or support available to staff, as well as details of any relevant legislation or codes of practice. It may also include details of any relevant regulations or standards, such as the Health and Safety at Work Act.

FOR INFORMATION: The CWA/IDC: See the notice modifying 34 CFR Part 300.1(d)(1) ("General Allocation Criteria Standard," published in the Federal Register, Vol. 55, No. 177, page 37948, June 12, 1990, or as amended and restated).

FOR TRICART CLAIMS, PLEASE USE THIS FORM TO REQUEST TO ENROLL OR DEENROLL FOR MEDICAL CARE PROVIDED BY OUTSIDE SOURCES AND TO ISSUE PAYMENT UPON APPROVAL OF CLAIMS.

Digitized by srujanika@gmail.com on 2016-07-06 10:00:00 by srujanika@gmail.com

On January 1, 2013, the Department of Justice (“DOJ”) issued a “Dear Colleague” letter to all state and local law enforcement agencies, including tribal law enforcement agencies, in the hope of “encouraging” them to adopt a policy of “no consent decrees.” The letter states that such decrees are “unnecessary, burdensome, and counterproductive.”

IFPAC DISBURSES VOLUNTARY LENDER PAYMENTS To prevent information disclosed in dispute or payment in many result in demand of claim. When the case is resolved, if disputed, there are no procedures available to require information. "Failure to furnish information regarding the services rendered or the amount charged would, if given payment, or would render these payment. Failure to furnish any other information, such as name or date or day number, would delay payment of the claim. Failure to provide medical information may result in denial of payment.

It is mandatory that you will tell us if you know it'd another party is responsible for paying for your treatment. Sections 1128B of the Social Security Act and 31 U.S.C. 3801(g)(2) provide penalties for withholding this information.

You should let us know if we can help you with your request or if you would like to speak with someone about your request.

NONCASH PAYMENTS-EXHIBIT C CERTIFICATION

I hereby agree to keep such records as are necessary in disorderly, fully the extent of services provided to individuals under the State's Title XXI plan and to furnish information regarding any payments claimed for providing such services as the Blue Agency or Dept. of Health and Human Services may require.

The number of days in each month during which the amount paid by the Medicaid program for their claims submitted for payment under that program, with the exception of such medical services, transportation, co-payment or similar co-dealing charges.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing statement is true, accurate and complete. I understand and agree that each of the claims will be from Federal and State funds and will not contain any false claims, statements, or documents, or certifications as a false fact, may be proposed under applicable Federal or State laws.

According to the D.C. parole Recidivism Act of 1995, no person is entitled to respond to a collection of information unless it displays a valid CIBR control number. The valid CIBR control number for this inmate can be located at 053-1995. This law requires to complete this information collection in up to 30 minutes, per request. Including the CIBR control number, you may request to receive the data record(s) and compare and review the information contained in this form. If you have any comments concerning the accuracy of the information contained in this form, please write to: CIBR, 7000 Security Boulevard, APT 1700, Hanover, Maryland 21076-3800. Please include the CIBR control number in your correspondence.

PHYSICIAN OR SUPPLIER INFORMATION

PATIENT AND INSURED INFORMATION

Date: 03/16/16
Name: Danielle Harwell

Buffalo Orthopaedic Group LLP
DOB: 08/29/1980 Sex: F Age: 35 yrs Acct#: 60409

CC: Follow-up left shoulder

HPI: Danielle returns to the office today to her left shoulder. At her last visit I sent her for an MRI of her left shoulder for further evaluation. I also recommended she states that a course of physical therapy for her shoulder. Her cervical spine. In review she was in a motor vehicle accident and has been having neck and shoulder pain since. She's been seeing Dr. Pollina for her neck. She continues to have pain in the neck that radiates down her arm. She is here today to review the results of the MRI.

Meds Prior to Visit:

Allergies:

ROS:

Const: Denies symptoms other than stated above.

CV: Denies cardiovascular symptoms.

GI: Denies gastrointestinal symptoms.

Musculo: Denies symptoms other than stated above.

Skin: Denies skin, hair and nail symptoms.

Neuro: Denies symptoms other than stated above.

Reviewed, no changes.

PHYSICAL EXAMINATION: The patient is a well developed well nourished person, in no acute distress. The patient appears as stated age, is alert and oriented x 3 and is cooperative and interactive.

Musculoskeletal Exam:

Left shoulder

Skin: Intact no ecchymosis

Inspection/Palpation/Swelling: She has no gross deformity or swelling throughout the shoulder.

ROM: She has full range of motion of the shoulder with mild pain in the upper arm.

Stability: No gross instability

Strength: 5/5 supraspinatus strength

Special Tests: Negative Hawkins and impingement testing today.

Neurovascular: Sensation is intact throughout the upper extremity. Pulses palpable in the wrist.

Dx Studies: 02/25/16 - MRI Report LT Shoulder

[]

Assessment:

1. M25.512 Pain in left shoulder

Care Plan:

Comments: Treatment was discussed as Danielle in the office today. I reviewed her MRI with her. Her MRI was essentially unremarkable. At this time we discussed that her symptoms

are likely coming from her cervical spine. Her rotator cuff is intact with no evidence of inflammation on the MRI. She is going to continue a course of physical therapy as I do think that this will be helpful for her neck and trapezial region. She will continue to follow up with Dr.Pollina. In regards to her shoulder at this time we'll see her back on an as-needed basis. She is going to switch physical therapy centers due to personal reasons.

DOB: 08/29/1980 Age: 35 Y Sex: Female

PCP: James Panzarella, DO

Reason for Appointment

- Trigger Points

History of Present Illness**General:**

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Danielle states the trigger point injections have been moderately helpful. She has seen the effects wear off after about 1 month. She has continued with PT, massage and chiropractic adjustment regularly. She has continued with magnesium oxide daily, which has been helpful both for muscle relaxation and sleep issues.

Current Medications

- Taking Vitamin D2 50,000 int'l units capsule 1 cap(s) 2 times a week
- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Taking Naprosyn 500 mg tablet 1 tab(s) pm headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Medication List reviewed and reconciled with the patient

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 110/61, HR 66, RR 16, Ht 63, Wt 150, BMI 26.57, BSA 1.74

Examination

NEUROLOGICAL:

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger

points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1 (Primary)

Continue all previously prescribed medicines at the current doses.

Return for repeat trigger point injections in 6 weeks

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 10 cc was injected with a 25-gauge needle without complication into 10 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness.

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle:-04/01/2016

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats 04/01/2016.

Exercise Patient counseled on importance of moderate physical activity daily 04/01/2016.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Saturday March 19, 2016 Provider: Peter Guzinski DC RE-EXAM

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Accident Description: *Date of Accident:* October 31, 2015. *Time of Accident:* 4:55 PM. *Narrative Description of Accident:* Patient stated that she was stopped in traffic, while waiting for a truck to make a left hand turn into a driveway, when she was rear impacted. She stated that accident occurred while she was traveling South on Starin in the City of Buffalo, New York. Mrs Harwell, stated that this was a chain reaction accident. The vehicle that was behind her was also stopped and was pushed into her vehicle by an automobile that rear impacted them. *Patient Seatbelted?* Yes. *Position in vehicle driver.* *Patient Position at Impact:* looking straight ahead. *Impact Point of Patient's Car:* rear. *Brakes On At Time of Impact?* Yes. *Airbags Deployed?* No. *Did The Patient's Seat Break?* No. *Impact With Car Interior?* seatbelt left chest; headrest back head. *Patient's Vehicle Type:* Honda Odyssey 2007. *Type of Other Vehicle:* Honda CRV 2015. *Road Conditions At Time of Accident:* dry. *Was There Loss of Consciousness?* no. *What Symptoms Were Immediately Present?* Patient stated that she was experiencing head, neck, back and left shoulder and arm pain.

Cervical: Patient presented today with the continued chief complaint of neck pain. Due to the pain, she is unable to lift heavy weights, she has slight headaches which come infrequently, she cannot perform her usual work, her normal sleep has been moderately disturbed (2-3 hrs. sleepless) and she is able to engage in most, but not all of her usual recreational activities. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving. *since onset.* *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week as opposed to daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. In addition, light no longer bother her. *Cervical Disability Index:* 38%. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back and left anterior chest pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving. *since onset.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is frequent.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates*

Encounter dated 03/19/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Today's date: 04/04/2016

symptoms: nothing. *Numbness:* none. *Weakness:* none. *Oswestry score:* 26%. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. Due to the pain, she is unable to lift heavy weights and she is only able to sleep comfortably for 4 hours. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving, since onset. *Pain:* achy, dull, shooting, tingling, numb; level: 5/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *OSWESTRY Disability Index:* 24%. *The Keele STarT Back Screening Tool:* Medium risk. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Activity of Daily Living Form Bending forward/backward: mild impairment; Buttoning shirt: moderate impairment; Driving: moderate impairment; Drying Hair: moderate impairment; Household chores: moderate impairment; Laundry: moderate impairment; Lifting more than 10 lbs: moderate impairment; Kneeling: mild impairment; Making Meals: moderate impairment; Putting pants on: mild impairment; Putting shoes/socks on: mild impairment; Reaching above the shoulders: severe impairment; Restful night's sleep: moderate impairment; Seated to standing position: mild impairment; Squatting: moderate impairment; Taking out the trash: severe impairment; Tying shoes: moderate impairment; Walking: mild impairment.

Objective

Physical exam: Ht: 5' 3" Never smoker; Ht: 5' 3" Wt: 150lbs. BMI: 26.6 Never smoker Temp: 98.8 BP (left): 110/70.

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Sensation:* all upper extremity sensory exams (C5-T1) were WNL to Pin prick. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Reflexes:* bilateral upper extremity reflexes (C5, C6, C7) 2+. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left; Spinal Percussion C1-C7: Negative; left shoulder depression: Positive for left lower neck; right shoulder depression: Negative for right lower neck pain; neutral cervical compression: Negative; hyperextension cervical compression: Negative. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral.

Encounter dated 03/19/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/04/2016

Spinal subluxation level(s): T2, T3, T6, T7, T8, T9. Subluxations detected by motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Sensation:* left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate. *Trigger points:* left gluteus maximus. *Reflexes:* bilateral lower extremity reflexes (L4 and S1) 2+. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Ely's Heel to Buttock: Negative bilateral; Minor's sign: Negative; Nachlas: Negative bilateral; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Hibbs test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Cervical assessment: Based on the current history and examination results, I professionally feel that their current symptoms are causally related to the MVA sustained on October 31, 2015. Since her last re-evaluation on January 15, 2016, Mrs Harwell has made favorable improvement with chiropractic treatment. Her VAS score improved from a 7 to 5 out of 10 and her Neck Disability Index score improved from 48% to 38%. In addition, she is now able to read for longer durations with less pain and her headaches are no longer moderate but now slight in intensity. Further chiropractic treatment is medically necessary to decrease pain and improve function especially with her ability to perform her ADLs. **Diagnosis:** M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Lumbar assessment: Mrs. Harwell has made favorable improvement with chiropractic treatment since her initial evaluation on November 12, 2015. Her VAS score improved from 7 to 5 out of 10 and her pain is no longer constant but now frequent. In addition, she no longer has severe but now moderate pain while lifting objects greater than 10 lbs and while sleeping. Further treatment is medically necessary to help improve her active lumbar ROM and improve her ability to reach, sleep and lift with less pain. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural

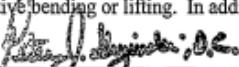

Encounter dated 03/19/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/04/2016

foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to April 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Thursday March 24, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain continues to remain the same. Patient started physical therapy this week on the left shoulder. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last week:* *Pain:* achy, dull, tingling, shooting, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week as opposed to daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. In addition, light no longer bother her. *Cervical Disability*

Encounter dated 03/24/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/04/2016

Index: 48%. Recent medical treatment for this condition: None. Changes in past medical history: None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last week.* *Pain:* achy, dull, shooting; level: 7/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* foward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Sensation:* all upper extremity sensory exams (C5-T1) were WNL to Pin prick. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Reflexes:* bilateral upper extremity reflexes (C5, C6, C7) 2+. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate to Severe. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Sensation:* left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left

Encounter dated 03/24/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/04/2016

gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), MS4.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: slightly worse. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: worse. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease

PATIENT AND INSURED INFORMATION

PHYSICIAN OR SUPPLIER INFORMATION

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal offence under the Health Insurance Act.

PIECES TO COMPLETE YOUR GRAVES OR X

TRICARE AND MEDICARE PAYMENT. As the claim's provider, you request that payment be made and authorize release of any information necessary to process the claim and certify that the information provided in Block 14 is true, accurate and complete. In the case of Medicare claims, the provider's signature authorizes any entity to release an Medicare medical record and nonmedical information, and where the person has given his/her power of attorney, liability waiver, waiver, other written or other instrument which is responsible in law for the release of the medical record. See 42 CFR 411.24(a). If item 14 is completed, the provider's signature authorizes release of the information to the health plan or agency within the Medicare program or to TRICARE plus plan(s), as applicable, the payor agrees to accept full charge as payment in full for the services rendered. Insurance is not considered as seen in Contract 14, and the deductible may be used upon the charge determination as the Medicare carrier. TRICARE plus plans are subject to the charge submitted by TRICARE or to their established program. If the provider is a member of the Uniform Data System, information in the patient's records should be available at 703-842-5000 or 1-800-444-8987. Payment for health care is processed through vendor billings. See 42 CFR 411.24 and 14.

REFERENCES AND NOTES

This non-peer-reviewed document is provided for reference only. See [NIH Line and ReCA instructions](#) regarding consensus and disclaimer coding systems.

DISMANTLED BY THE SUPPLIER (MEDICAL TRICARE, PFC6 AND BLACK LUMPS)

In submitting this claim for payment from federal funds, I certify that: 1) my information on this form is true, accurate, and complete; 2) I have informed myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have earned or will provide services, documents required to allow the government to make an advance payment or pay my bill; 4) I do, either by statute or by my employer, my employer's health benefit plan, or my employer's third party administrator, comply with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited in the Federal one-month statute and Physician Self-Referral law (commonly known as Stark); 5) I practice on this form if it is medically necessary and properly furnished by me or someone I have lent my medical credential to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by 42 U.S.C. § 13957(l)(6); 6) each service rendered incident to my professional service are identified (legal name and NPI, license #, or SBN# of the primary individual rendering such service); 7) no conflict of interest exists between the physician and the non-physician services to be rendered; 8) I am not a subscriber to professional services; 9) they must be rendered under the physician's direct supervision by his/her employee; 10) my agent is an integral, direct, and integral part of a non-physician service; 11) they must be of high quality and furnished in a timely manner.

For TCREC claims: I further certify that for my employment with rendered services, I am not an active member of the United States Army or a civilian employee of the United States Commission or a contract employee of the United States Government, either civilian or military (refer to UMC 3526). For Black Lung claims, I further certify that the services performed were not in a mine or coal-related industry.

In Part B, Sections B.3(b)(1)-(3) may be used unless the firm is required to use such law and regulations (42 CFR 104(e)).

NOTICE: Any person who knowingly makes or transmits false information to law enforcement agencies shall be held liable. Persons found guilty of this offense may upon conviction be subject to fine and/or imprisonment under applicable State and Federal laws.

NOTICE TO PATIENTS ABOUT THE COLLECTION AND USE OF GENOTYPE, TRIGRAGE, FECO, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

NOTICE TO PATIENTS This document from Aetna is for educational purposes only. It does not contain medical, legal or other professional advice. It is not intended to be relied upon as a substitute for consultation with your physician or attorney. We are authorized by CMS, TRICARE and OIGP to ask you for information needed in the administration of the Programs. TRICARE, FECA, and Black Lung programs. Authority to collect information is in 45 CFR 160.101, 1620.101, 1872 and 1874 of the Social Security Act as amended, 42 CFR 111.2(a) and 21.6(a), (b), and 44 USC 3101 et seq. 10 USC 1078 and 1083, 5 USC 8101 et seq., and 30 USC 811 et seq.; 58 USC 813 F.O. 8397.

This information we obtain to complete our needs for these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to ensure that your payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0601, titled, 'Corrrr Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR OFFICE OF COMPTROLLER OF THE CURRENCY: Department of Labor, Privacy Act of 1974 ("Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wednesday Feb. 28, 1990, See E&A-5, E&A-6, E&A-12, E&A-13, E&A-30, or its updated and reauthorized)

PURSUE UNICARE CLAIMS: PRINCIPLE PURPOSE: To control eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services supplied received are authorized by law.

10/10/2011 LEGISLATIVE INFORMATION: False claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation along with their statutory adviser in the appropriate agency (e.g., VA/HHS/DOT) or to the Dept. of Justice (for representation of the Secretary of Defense) and in addition to the Internal Revenue Service, private citizen litigants, and consumer protection agencies in connection with equipment claims, and to Congress and OIGs in response to inquiries; in addition, the names of the persons to whom a claim was submitted, and pertinent information concerning the claim, may be made to other Federal, state, local, and foreign government agencies, private business entities, and individual providers of care, on entities subject to regulation, licensure, audit, review, audit, regulatory, quality assistance, peer review, program integrity, third-party liability, promulgation of standards, and used cases of similar nature, as required by law, including the False Claims Act.

ENROLLED/EMPLOYED: However, failure to provide information will result in delay in payment or may result as denial of claim. With the one exception discussed below, there are no penalties similar to the HIPAA programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under the FECA program. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be denied as non-merit.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1126B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1991," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services, may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

According to the Paperwork Reduction Act of 1995, no burdens are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control

PATIENT AND INSURED INFORMATION

PHYSICIAN OR SUPPLIER INFORMATION

April 11, 2016

Peter Guzinski DC
345 Dick Road
Depew, NY 14043

Patient Name:	Danielle Harwell
Date of Birth:	08/29/1980
No-Fault Carrier:	NF Geico
CL#:	0138739400101059
Date of Injury:	10/31/15
Date of Exam:	04/11/16

Dear Dr. Guzinski:

I had the pleasure of seeing Danielle Harwell in the office today.

History: We saw Ms. Harwell in the office today for follow-up after continued conservative treatment. As you are aware, she was involved in a motor vehicle accident in October of 2015, when she was rear-ended and she has been having ongoing neck and low back pain since then. She has noticed an improvement of her neck pain with the combination of physical therapy, chiropractic therapy and massage therapy, but is still noticing low back pain with some left sided radicular symptoms. She does obtain some short term relief with the physical therapy, chiropractic therapy and massage therapy, but she is not seeing the same results as she is seeing with her neck. She is here to discuss further treatment recommendations at this point in time.

Medications: Voltaren

Physical Examination: Ms. Harwell is a 35-year-old female in no acute distress, pleasant and cooperative, oriented to person, place, and time. Coordination is within normal limits. They have a normal gait and station. Upper and lower extremity reflexes are intact and symmetrical bilaterally. Sensation to pinprick is intact and symmetrical bilaterally. They have 5/5 strength in all muscle groups in the upper and lower extremities bilaterally. No tenderness on palpation of cervical spine, paraspinal muscles, lumbar spine or paraspinal muscles. She has decreased range of motion in the left shoulder with abduction and internal and external rotation secondary to pain within her shoulder. Negative straight leg raise and Patrick's maneuver bilaterally. Negative Hoffman's sign bilaterally. No evidence of myelopathy, fasciculations, clonus, or edema.

Danielle Harwell DD 04/11/2016

Page #2

Medical Decision Making: Danielle has cervicalgia and low back pain with cervical and lumbar radiculopathy in addition to having suboccipital headaches as a result of the motor vehicle accident in October of 2015. She has disk herniations at C4-C5 and C5-C6 along with lumbar disk herniations on the left at L5-S1 and a central disk herniation at L4-L5. At this time, we do encourage her to continue with conservative treatment since she has been making some slow and steady improvements. She can continue with the physical therapy, chiropractic therapy and the massage therapy. In addition, we would like to introduce Voltaren gel. She cannot take any oral NSAIDS due to significant reflux. We will see her back in the office in three months time to continue following her progress. If she has any increased pain, questions or concerns, she can contact the office back at that time.

The patient and proposed treatment plan was discussed with Dr. Pollina.

Thank you very much for allowing me to participate in the ongoing care of this patient.

Diagnosis: Headache, Intervertebral disc disorders with radiculopathy, lumbar region, Other cervical disc displacement, unspecified cervical region

Sincerely,

Electronically signed by Cheryl L. Owczarzak, PA-C on 04/12/2016 at 11:55 am

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Monday March 28, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient presented today with continued left side of neck and shoulder pain. "I feel about the same". **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, tingling, shooting, numb; level: 7/10. **Pain is constant.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week as opposed to daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. In addition, light no longer bother her. **Cervical Disability Index:** 48%. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Thoracic: Patient stated that her middle back pain has not been as intense. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** improving. **since last visit.** **Pain:** achy, dull, shooting; level: 5/10. **Pain is constant.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has not been as intense but still radiates down the left thigh. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** improving. **since last visit.** **Pain:** achy, dull, shooting, tingling, numb; level: 5/10. **Pain is constant.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain

Encounter dated 03/28/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/13/2016

with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Sensation:** all upper extremity sensory exams (C5-T1) were WNL to Pin prick. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Reflexes:** bilateral upper extremity reflexes (C5, C6, C7) 2+. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Sensation:** left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident.

Encounter dated 03/28/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/13/2016

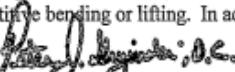

Lumbar assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 3 weeks; Re-examination for 3 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain.

Long term goals: decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to April 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

首先，我們要了解的是，當我們說「一個國家」的時候，我們其實是在說一個社會。這是一個由許多不同的人、家庭、組織和團體組成的複雜系統。每個人都有自己獨特的背景、經驗和價值觀。因此，當我們說「一個國家」的時候，我們其實是在說一個社會。

Subtracting the above expression from the first, the following moment equation is obtained: $M_{AB} = -M_{BC} + M_{AC}$. Then the value of M_{AB} is $M_{AB} = \frac{1}{2}(M_{BC} + M_{AC})$.

2. In the event of a fire or explosion, the following steps should be taken:
a) Evacuate the building as quickly as possible.
b) Call 911 and report the fire or explosion.
c) Follow the instructions of the emergency responders.

3. Physician's view on medical treatment and family by cultural & religious orientation.
 4. Religious belief and its influence on medical decision-making and its effect on family.
 5. Signature of consent form, the extent of the information contained in the informed consent form, the extent of the information given to the patient, the extent of the information given to the family, the extent of the information given to the physician, the extent of the information given to the hospital.
 6. The extent of social support given by the family in the form of emotional, physical, financial, and informational support.
 7. Religious belief and its influence on the extent of social support given by the family.
 8. Religious belief and its influence on the extent of social support given by the physician.
 9. Religious belief and its influence on the extent of social support given by the hospital.
 10. Religious belief and its influence on the extent of social support given by the physician and the hospital.

(b) The minimum age of service for a member of the Royal Canadian Air Force is 18 years. The maximum age limit for a member of the RCAF is 32 years. The maximum age limit for a member of the Canadian Forces is 35 years.

NOTICE: Any person who fraudulently files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a

ПОСТРОЕНИЕ ВАРИАНТОВ ОЦЕНКИ

MEDICARE AND TRICARE PAYMENTS: A patient's separate payment is the payment he or she makes and suffuses a release of any information necessary to prevent the claim and continue the release from prior paid in Block 1. Because it is his, doctors and hospitals. In the case of a hospital claim, the patient's separate payment may apply to release in Medicare medium and maximum, as well as to the other parts of the hospital group, to both inpatient, outpatient, and emergency care. See 19 CFR 111.11. Take 19 CFR 111.11, the provider statement, and the information of the insurance which is responsible in part for the payment of the hospital claim. The information to the health care or agency where the Medicare payment is made by the hospital, as well as the physician, agrees to release all the information of the hospital claim or TRICARE health insurance, in the full amount and in full responsibility for the individual, as well as one or more hospital claims. Contractors and subcontractors are bound upon the TRICARE health insurance, in the full amount and in full responsibility for the individual, as well as one or more hospital claims. Contractors and subcontractors are bound upon the TRICARE health insurance, in the full amount and in full responsibility for the individual, as well as one or more hospital claims.

BLACK AND WHITE

The procedure enables to assess the amount held by the Government as payment in kind. See Black Line and EBCA in sections regarding mineral resources and diamonds under section 2.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, PICA AND BLACK LUNG)

In submitting the claim for payment from Federal funds, I certify that: 1) the information on the item is true, accurate, and complete; 2) I have compensated myself fairly and appropriately, in accordance with applicable law, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim is either submitted by me or on my behalf by my designated billing company, compliant with all applicable Medicare laws, regulations, and program instructions for payment, including but not limited to the Federal Anti-kickback Statute and Physician Self-Referral law (commonly known as Stark law); 5) the services in the form were medically necessary and personally furnished by me or were reasonably incident to my professional service under my decimal code description except as otherwise expressly permitted by law; 6) for each service rendered incident to my professional service, the identity (legal name and NPI license #, if applicable) of the primary individual rendering my service is included in the itemized action for services to be rendered ("incident to"), physician professional services; 7) they must be rendered under the physician's direct supervision by his/her employee(s); 8) they must be an integral, although incidental part of a covered physician service; 8) they must be of items commonly furnished in a physician's office; and 9) the amount of non-passive items must be included on the physician's bill.

For TRICARE drama, I further certify that I (or my employee) who furnished services am not an active-duty member of the Uniformed Services or a civilian employee of the U.S. Government or a contractor employee of the United States Government. Other than a military spouse (as defined in 10 USC 853(b)), I do not have a Black-Lynn status. I further certify that the services furnished were not for a Black-Lynn related disorder.

Mr. Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 434 series).

NOTICE. Any one who misrepresents or falsifies proposed information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CHS, TRICARE and CMCPC to ask you for information needed in the administration of the Medicare, TRICARE, PECRA and Black Lung programs. Authority to collect information in this letter is under 10 U.S.C. 1621 and 1074 of the *Post-9/11 Security Act* as amended, 42 CFR 111.24(n) and 124(a)(2), and 44 USC 3101.41 (4 CFR 101 et seq and 10 USC 1709 and 1806; 5 USC 801 et seq; and 30 USC 901 et seq; 38 USC 613; E.O. 13887).

The information we obtain to contact you directly under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to assure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the specific claim-related or Federal provisions that require other third parties pay to give priority to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you are paid in a hospital or doctor. Adverse medical disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70 0601, titled, 'Corner Medicare Claims Record,' published in the Federal Register, Vol. 65 No. 177, page 37349, Wed. Sep. 12, 1990, as updated and republished.

FOR OWCP CLAIMS: Department of Labor Privacy Act of 1974, "Regulation of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 25 1990, SFR-ESA-8 ESA-6 ESA-12 ESA-11 ESA-10, as updated and re-published.

FOR TRICARE CLAIMS: PRINCIPLE PURSE (a). To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of liability and determination that the "incident" happened, neither of which is sufficient below:

For more information from claims and related documents, may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation or related units their disability administrative units or the Office of the Inspector General of the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation.

length of the person's life where it is most appropriate or desired. Many benefits in medical care, health, health insurance systems, personal finance, values, and inherited powers of care, can be best realized within these values, objectives, focus, program design, selection criteria, quality insurance, peer review, program intensity, third-party liability, coordination of benefits, and cost and limited litigation reflected in the acronym of "FIREBEE".

Healthcare providers should be encouraged to report adverse events to the manufacturer or distributor, and to advise patients, under license provisions for reporting, to supply information regarding the medical services received or the amount charged if there would potential liability of claim(s) in those products. Failure to furnish any other information, such as names or client numbers, could delay payment of the claim. Failure to provide financial information, e.g., FICA code, could also delay payment.

If you're already on your feet or you know that another party is responsible for paying for your treatment, Section 114(b) of the Social Security Act and 31 CFR 380.4-6(d) provides procedures.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Tuesday April 12, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her left neck pain has not been as intense. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 1-2 x a week as opposed to daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. In addition, light no longer bother her. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving, since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper

Encounter dated 04/12/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/27/2016

back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Sensation:** left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** improving. VAS score improved from a 7 to 5 out of 10 and her headache frequency improved from a 2 to 3 to 1 to 2 out of 10. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens thecal sac.

Thoracic assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident.

Lumbar assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the

Encounter dated 04/12/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/27/2016

radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 3 weeks; Re-examination for 3 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 right (diversified prone); T3 right (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 (manual traction); L5 (manual traction); SI left PI (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to April 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Friday April 15, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her left neck pain remains the same. Patient saw Dr. Pollina who recommended continued chiropractic treatment. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck**

Encounter dated 04/15/2016 for Danielle Harwell #3438

Encounter dated 04/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/27/2016

WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Sensation:* left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). *Cervical assessment:* unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident.

Lumbar assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 right (diversified prone); T3 right (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 (manual traction); L5 (manual traction); SI left PI (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB

Encounter dated 04/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 04/27/2016

soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to April 30, 2016 with the restrictions of no lifting greater than 15lb and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, workers' compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "insured," i.e., items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete, 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor, 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 7) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5336). For Black-Lung claims, I further certify that the services performed were for a Black-Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 434.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.6(a) (5), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1079 and 1080; 5 USC 8101 et seq, and 30 USC 901 et seq, 38 USC 513; E.O. 9397

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990. See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S) To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and documentation that the services/supplies received are authorized by law.

ROUTINE USE(S) Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlements, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving the form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-28-05, Baltimore, Maryland 21244-1850. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

APPROVED OMB-0938-1197 FORM 1500 (02-12)

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made; and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participant cases, the physician signs a Release, the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible is based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain contractors with the Uniformed Services. Information on the patient's spouse should be provided in those items captioned "Insured"; i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor, 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal Anti-Kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of nonphysicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (under 5 USC §3356). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.38).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1982, 1972 and 1974 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(b) (B), and 44 USC 9101; 41 CFR 101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 901 et seq; 36 USC 619; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

This information may also be given to other providers of services, carriers, insurance companies, medical review agents, health plans, and other organizations or Federal agencies for the effective administration of Federal programs that require other third parties (payers) to pay primary to Federal programs, and is otherwise necessary to administer the programs. For example, it may be necessary to disclose information about the benefits you have used to a health plan or doctor. Additional disclosure may include items resulting from information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying systems No. 08-70-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37579, Wed. Sept. 10, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990. See E&A-5, E&A-6, E&A-12, E&A-13, E&A-32, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the corresponding records are authorized by law.

ROUTINE USES: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities; under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with account claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosure may be made to other federal, state, local, foreign governments, private business entities, and individual providers of care, or matters relating to entitlement, claim adjudication, fraud, program abuses, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and denial and denial of litigation related to the use of TRICARE.

DISCLOSURES: Voluntary: However, failure to provide information will result in delay in payment or may result in denial of claim. With the exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged and/or payment of claim may result in a program. Failure to furnish any other information, such as, name or claim number, would delay payment of the claim. Failure to provide medical information under FICA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1135B of the Social Security Act and 31 USC 3801-012 provides penalties for withholding this information.

You should be aware that P.L. 100-603, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer match.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time for travel, to instructions, saving existing data resources, gathering the data needed, and completing and reviewing the information collection. If you have any comments concerning the economy of the information collection or suggestions for improving this form, please write to: CMS 7500 Security Boulevard, Mail PRA-Romis Clearance Officer, Mail Stop C4-20-05, Baltimore, Maryland 21201-1850. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

THE CERTIFICATIONS ON THE REVERSE APPLY TO THIS BILL AND ARE MADE A PART OF IT.

NUBC National Utility Billing Council 2025-0034

UB-04 NOTICE: THE SUBMITTER OF THIS FORM UNDERSTANDS THAT TO PERIODICALLY RELEASE INFORMATION OR ESSENTIAL INFORMATION AS REQUESTED BY THIS FORM, THE SUBMITTER MAY BE SUBJECT TO CIVIL MONETARY PENALTIES AND ASSESSMENTS AND MAY BE SUBJECT TO CRIMINAL PENALTIES FOR UNDUE INPRISONMENT UNDER FEDERAL STATUTE 42 U.S.C. § 1395k.

Submission of this claim constitutes certification that the billing information as shown on the face hereof is true, accurate and complete. That the submitter did not knowingly or recklessly disregard or fabricate or conceal material facts. The following certifications or verifications apply where pertinent to this Bill:

- If third party benefits are indicated, the appropriate assignments by the insured/beneficiary and signature of the patient or parent or a legal guardian covering authorization to release information on file. Determinations as to the release of medical and financial information should be guided by the patient or the patient's legal representative.
- If patient occupied a private room or required private nursing for medical necessity, any required certifications are on file.
- Physician's certifications and re-certifications, if required by contract or Federal regulations, are on file.
- For Religious Non-Medical facilities, verifications and if necessary certifications of the patient's need for services are on file.
- Signature of patient or his representative on certifications, authorization to release information, and payment request, as required by Federal Law and Regulations (42 USC 1335f, 42 CFR 424.36, 10 USC 1071 through 1086, 32 CFR 159) and any other applicable contract regulations, is on file.
- The provider or care submitter acknowledges that the bill is in conformance with the Civil Rights Act of 1964 as amended. Records adequately describing services will be maintained and necessary information will be furnished to such government agencies as required by applicable law.
- For Medicare Purposes: If the patient has indicated that other health insurance or a state medical assistance agency will pay part of his/her medical expenses and he/she wants information about his/her claim released to them upon request, necessary authorization is on file. The patient's signature on the provider's request to tell Medicare medical and non-medical information, including employment status, and whether the person has employer group health insurance which is responsible to pay for the services for which the Medicare claim is made.
- For Medicaid purposes: The submitter certifies that because payment and satisfaction of this claim will be from Federal and State funds, any false statements, documents, or concealment of a material fact are subject to prosecution under applicable Federal or State Laws.
- For TRICARE Purposes:
 - The information on the face of this claim is true, accurate and complete to the best of the submitter's knowledge and belief, and services were medically necessary and appropriate for the health of the patient;

- The patient has signed a bill of lading or other document to indicate a liability to the provider for services rendered. The provider does not have authority to bill Medicare, TRICARE, or other medical insurance companies for services rendered. The submission of claims to other payers is the responsibility of the patient, the State, and/or the facility. The provider is not responsible for the denial of medical claims by other insurance companies or for amounts not available by State or Federal law.
- The patient or the patient's family, if applicable, has signed a liability to the provider for services rendered to the patient by the provider, including a non-dischargeable liability to the patient for the claim amount, even if the claim is denied or if the provider receives partial payment from the other payers.
- The amount due to TRICARE for services rendered will be paid by the provider to TRICARE, unless otherwise specified in the TRICARE contract.
- The beneficiary or patient, if applicable, has signed a liability to the provider for services rendered to the patient by the provider and, if applicable, to the State.
- Any hospital-based physician, or other health care professional, who provides service and renders a bill of lading or other document to the employee or patient, shall sign the bill of lading or other document, indicating his/her name, title, and address. This includes physician assistants, nurse practitioners, clinical pharmacists, and other health care professionals employed by the provider.
- Based on all valid State Medicaid programs and all TRICARE participating in Element 1, the provider is liable to the State or TRICARE for services rendered to the patient, even if the provider bills another entity for the services.
- "TRICARE beneficiaries" are defined as dependents of the submitter, and dependents of dependents of the submitter, who are appropriate TRICARE beneficiaries. The term "dependent" means a person related by blood, marriage, or adoption to the subscriber, or to the subscriber's spouse, and includes children, stepchildren, and other dependents of the subscriber. The term "dependent" does not include persons who are more closely related to the subscriber than the listed dependents and persons who are not entitled to be paid by TRICARE, such as persons who are not eligible to be paid as dependents from available TRICARE funds, or persons whose full payment for the services is not covered by TRICARE. The provider is not liable to the State or TRICARE for services rendered to a patient for whom the patient is not entitled to be paid by TRICARE if a medical record indicates that the patient is not eligible for payment by TRICARE, or if the provider has been advised by the provider's state or TRICARE that the patient is not eligible for payment by TRICARE.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAM.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENT: A patient's signature means that payment will be made and otherwise releases any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient waives liability for any delay in release to Medicare in medical and non-medical information and waives the physician's group health care liability, no less, without reservation or other reservation which is responsible in full for the services furnished in the Medicare claims made. See 42 CFR 411.204(b). If item 8 is completed, it is the patient's right to have a copy of the information released to the health plan or agency shown in Medicare assigned or TRICARE participation codes. The physician agrees to accept the charge determination of the health care carrier or TRICARE local intermediary as the bill charge and the physician is responsible only for amounts deductible, reasonable and non-reasonable charges. **Consent:** And the debtor agrees on behalf of the charge determinations of the Medicare carrier or TRICARE local intermediary as the bill charge determined. TRICARE is not a health insurance program but makes payment for health benefits provided through certain suppliers with the United States. Information on the patient's sponsor should be pre-printed in block letters numbered in "Legend", i.e., items 8, 6, 7, 9, and 11.

* BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting the claim for payment from Medicare funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf to my employer's billing company, complies with all applicable Medicare and/or Medicaid laws, regulations and program instructions for payment including but not limited to the Federal and State Audit and Physician Self-Referral law (commonly known as Stark law); 5) the services on the claim were medically necessary and personally furnished to me or were furnished pursuant to my professional service by my employee under my direct supervision, except otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, I am clearly (legally and NPI) licensed if or SSI of the primary individual rendering such service as required in the designated section. For services to be considered "incident to" a physician's professional services, (i) they must be rendered under the physician's direct supervision by his/her employee, (ii) they must be integral, although incident, part of a covered physician service, (ii) they must be items commonly furnished in physician's office, and 4) the names of non-physicians must be included on the physician's bills.

For TRICARE claim: Further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a civilian employee of the United States Government either civilian or military (refer to 5 USC 8339j). For Black Lung claims, I further certify that the services performed were for a Black Lung related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 414.32).

NOTICE: Any one who represents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWCWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1082, 1082 and 1087 of the Social Security Act as amended, 42 CFR 411.24(a) and 421.5(a) (6), and 44 USC 3101.41 CFR 101 et seq and 10 USC 1079 and 1088, 5 USC 80101 et seq, and 30 USC 901 et seq 36 USC #10: E.O. 13377.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties pay to pay priority to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 00-70-0601, titled, "Gamer Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 97540 Wed. Sept. 17, 1990, or as updated and republished.

FOR OWCWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, Sec EBA-5, EBA-6, EBA-12, EBA-13, EBA-30, or as updated and republished.

FOR TRICARE CLAIMS, PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the service(s) received were authorized by law.

EXEMPTIONS: (a) Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation for use in the disability adjustment, re-employment, and TRICARE/CHAMPVA; to the Dept. of Justice for investigation of the St. Louis City of Death in小麦田村; to the Dept. of Justice, the FBI, private collection agencies, and consumer reporting agencies in connection with recovery of debts, and to Congress and the Office of the Comptroller of the Currency in connection with a financial institution's examination and audit procedures. Aggregate disclosure may be made to other Federal, state, local, foreign government agencies, panels, commissions, and individual members of Congress in connection with their legislative functions. (b) Information from claims and related documents may be given to the Dept. of Health and Human Services, the Dept. of Transportation, and the Dept. of Justice in connection with the operation of TRICARE.

RIGHTS: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, this is no limitation under this program for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claim under this program. Failure to furnish any other information, such as name or doctor used, would delay payment of the claim. Failure to provide medical information under this law could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 9301-9312 provide penalties for withholding this information.

You should be aware that P.L. 100-505 (the Computer Matching and Privacy Protection Act of 1988), permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to furnish such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept the payment in full, the amount paid by the Medicaid program for these claims submitted for payment under that program, with the exception of authorized deductible, copayments, co-payments or similar cost-sharing charges.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically reasonable and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Report Clearance Officer, Mail Stop C4-25-05, Baltimore, Maryland 21244-1650. This address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Friday April 22, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her left neck pain continues to remain sore. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 1-2 x a week as opposed to daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. In addition, light no longer bother her. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activites of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain continues as well. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper

Encounter dated 04/22/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/16/2016

back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Sensation:** left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident.

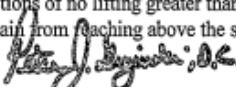

Lumbar assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet

Encounter dated 04/22/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/16/2016

arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 (manual traction); L5 (manual traction); SI left PI (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and/or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to April 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

symptoms: movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are now daily for the past week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she denies any nausea. In addition, light aggravates her headaches. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Thoracic: Patient stated that her middle back pain remains the same. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** no change. **since last visit:** **Pain:** achy, dull, shooting; level: 5/10. **Pain is constant.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been better. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** improving. **since last visit:** **Pain:** achy, dull, shooting, tingling, numb; level: 3/10. **Pain is constant.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Objective

Cervical: **Range of motion:** flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Shepplemans: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5.

Encounter dated 04/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/16/2016

Sensation: left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** worse, increased headache frequency. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident.

Lumbar assessment: improving, VAS score improved from a 5 to 3 out of 10. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. **Treatment schedule:** 2x/week for 2 weeks; Re-examination for 2 weeks. **Subluxations found on assessment and adjusted:** C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); SI left PI (prone mobilization). **Physical Modalities:** bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. **Patient given:** home exercise program: advised patient to perform active

Encounter dated 04/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/16/2016

cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to May 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Thursday May 5, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her left neck pain remains the same. Patient going for a MRI on the jaw later today. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 4/10. *Pain is constant.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also continues to experience headaches. The headaches are now every other day for the past week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she denies any nausea. In addition, light aggravates her headaches. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is constant.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent*

Encounter dated 05/05/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/16/2016

Infection or fever: No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Sensation:* left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). *Cervical assessment:* unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment

Encounter dated 05/05/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/16/2016

without incident.

Lumbar assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 1 week; Re-examination for 1 week. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); SI left PI (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to May 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzilski, D.C.

Abbreviations:

ADL: activities of daily living
MVA: motor vehicle accident
ROM: range of motion
WNL: within normal limits
VAS: Visual Analog Scale

PHYSICIAN OR SUPPLIER INFORMATION

PATIENT AND INSURED INFORMATION

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any false, preposterous or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS A patient's physician requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer/group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.2(b)(1). If item 8 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "insured", i.e., items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting the claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal self-insurance statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in its designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician service, 3) they must be of kinds commonly furnished in physician's office, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5336). For Black Lung claims I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.82).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OIGP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 2056(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(e) (6), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1078 and 1088, 5 USC 8101 et seq and 90 USC 901 et seq, 36 USC 613; E.O. 13377

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to issue the proper payment if made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay money to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system no. 09-70-0501 titled "Carmer Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept. 12, 1980, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974. "Republication of Notice of Systems of Records." Federal Register Vol. 55 No. 40, Wed Feb. 28, 1980, See ESA-5, ESA-6, ESA-12, ESA-13 ESA-30, or as updated and republished

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S) To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/benefits received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in actions to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recompence claims, and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosure may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to enrollment, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3601-3612 provides penalties for withholding this information.

You should be aware that P.L. 100-603, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICARE PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to discharge fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER) I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of the claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1167. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-28-03, Baltimore, Maryland 21234-1800. This address is for comments and/or suggestions only. DO NOT MAIL COPIES OR PLATED COPIES TO THIS ADDRESS.

REASON FOR STUDY AND CLINICAL INFORMATION: Bilateral TMJ pain with clicking, greater on the right.

IMAGING SEQUENCES: Sagittal and proton density open and closed mouth images. Coronal proton density images. Sagittal T2 images. Sagittal proton density kinematic images.

RIGHT SIDE FINDINGS: In the closed mouth position, there is moderate anterior displacement of the right TMJ meniscus with its posterior band at 10 o'clock. There is full reduction on the second stage of mouth opening. No meniscal tear is detected. There is a minimal superior compartment effusion. No lateral displacement is detected. The condylar head appears intact.

IMPRESSION:

1. MODERATE ANTERIOR RIGHT TMJ MENISCAL DISPLACEMENT WITH REDUCTION ON THE SECOND STAGE OF MOUTH OPENING.
2. MINIMAL SUPERIOR COMPARTMENT EFFUSION.

LEFT SIDE FINDINGS: In the closed mouth position, there is normal position of the TMJ meniscus with normal translation with mouth opening. No meniscal tear is detected. No lateral displacement is detected. No effusion is detected. The condylar head appears unremarkable.

IMPRESSION:

1. NEGATIVE LEFT TMJ.

Thank you very much for referring this patient to us.

Sincerely,

Signed by LAWRENCE RAND, MD at 5/6/2016 11:55:45 AM

ACKNOWLEDGEMENT OF RECEIPT OF NOTICE OF PRIVACY PRACTICES

A copy of a summarization of the current Federal law protecting the privacy of your health information has been provided for your review. If you would like a copy of the summary of the law, please request us. We are also required by law to ask for your signature acknowledging only that you have seen a copy of the summarized law. By signing below you are acknowledging that we have given you a copy of the summarized law. I have been offered a copy of the Notice of Privacy Practices for Protected Health Information (PHI) from Buffalo Diagnostic Imaging, PLLC.

AUTHORIZATION TO PAY BENEFITS TO PHYSICIAN AND RELEASE OF RECORDS

I hereby authorize Buffalo Diagnostic Imaging, PLLC to release any information, including the diagnosis, records, and services to my doctor(s) and/or insurance company. I hereby give my authorization to release any of my medical records requested by Buffalo Diagnostic Imaging PLLC or Buffalo MRI.

I hereby authorize direct payment(s) to Buffalo Diagnostic Imaging PLLC for services rendered. I understand I am financially responsible for and guarantee payment of all charges not covered by the insurance(s) I presented at the time of study or properly authorized by my insurance.

An account referred to an outside collection agency will be charged an additional 25% collection fee on the unpaid balance. You will be responsible for additional service fees, interest and attorney's fees while your account is in collection.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who fraudulently files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A health care provider may request the medical and nonmedical release of this information necessary to process the claim and certify that the information provided in this form is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity in relation to Medicare to make medical and nonmedical information available to the patient's health care provider. In this, the health care provider may request any information necessary to pay for services for which the Medicare claim is made. See 42 CFR 411.24(a). If claim is completed, the individual's signature authorizes release of the information to the health plan or other payor entity. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the change determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health resource program but makes payment for health services provided through certain entities with the Uniformed Services. Information on the patient's spouse should be provided in those items concerned in "Insured," i.e., items 10, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and degree of coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or my authorized agent, is based on information furnished by my designated billing company, complete with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-fraud statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service, by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 3) they must be rendered under the physician's direct supervision by his/her employees, 2) they must be an integral, although incidental part of a covered physician service, 3) they must be of kinds commonly furnished in physician's offices; and 4) the services of non-physicians must be included on the physician's file.

For TRICARE claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contractor employee of the United States Government, either civilian or military (refer to 36 USC 5336). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or omits essential information in a request for payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 203(a), 1882, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.50(a)(6), and 44 USC 3101, 41 CFR 101 of sqq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 30 USC 901 et seq, 38 USC 619; E.O. 9370.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties pay to pay primary to Federal programs and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Disclosure disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 05-70-0551, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept. 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESI-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and documentation that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with collection claims; and to Congressional Offices in response to inquiries made at my request of me person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign governmental agencies, private businesses entities, and individual providers of care, on matters relating to enrollment, claims adjudication, level, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE(S): Voluntary, however failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act, and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed by providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. This address is for comment, and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

REFERS TO COVERED/EXEMPT PROGRAM ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests the payment to me and authorizes release of any information necessary to process the claim and certifies that the information provided in Block 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any inquiry to release to Medicare medical and nonmedical information and certifies the person has employer group health insurance, liability, life, auto, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.34(a). If Item 8 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if it is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain utilization in the Uniform Services. Information on the patient's sponsor should be provided in above items captioned as "Insurer", i.e., Items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to compensate the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedures and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

I submit this claim for payment from Federal funds. I certify that: 1) the information in this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program requirements, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal Anti-Kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering such service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's services, 3) they must be of little or no value furnished in physician's office and 4) the services of non-physicians must be included on the physician's bill.

For TRICARE claims, I further certify that I (or my employee) who rendered services, am not a active duty member of the Uniformed Services or a civilian employee of the United States Government or a contractor employee of the United States Government, either civilian or military (under 5 USC 5339). For Black Lung claims, I further certify that the services performed were for a Black Lung-eligible claimant.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any oral or written representation or false or misleading information or income statement or income payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal or state laws.

NOTICE TO PAYMENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OASFC to collect your information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(w), 1822, 1872 and 1674 of the Social Security Act as amended, 42 CFR 411.26(a) and 426(d)(6) (b), and 44 USC 3101-41 CFR 101 et seq and 10 USC 1079 and 1086, 5 USC 8101 et seq, am 30 USC 901 et seq, 34 USC 613, E.O. 13379.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, promotorships, individual health boards, health plans and other organizations or Federal agencies for the effective administration of Federal programs that require other health care programs to pay money to Federal programs and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 00-00-TC01 titled "Center for Medicare Claims Review" published in the Federal Register, Vol. 53 No. 177, page 37510, Wed Sept 12, 1990, as updated and republished.

FOR OASFC CLAIMS: Department of Labor, Privacy Act of 1974, "Reproduction of Notice of System of Records," Federal Register Vol. 55 No. 49, Wed Feb 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies rendered are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory authority and responsibilities under TRICARE/Title 37 PA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recuperant claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, or entities relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and end of criminal litigation related to the operation of TRICARE.

DISCLOSURE(S): Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or phone number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1120B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for the claim, submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: The is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0638-1197. The time required to complete the information collection is estimated to average 10 minutes per response, including the time in review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-28-05, Baltimore, Maryland 21244-1850. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Form
 (Rev. December 2014)
 Department of the Treasury
 Internal Revenue Service

W-9

Request for Taxpayer Identification Number and Certification

Give Form to the
requester. Do not
send to the IRS.

Print or type
See Specific Instructions on page 2.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

Colleen J. Marx

2 Business name/dispersed entity name, if different from above

Great Lakes Therapeutic Massage + Bodywork Practitioners

3 Check appropriate box for federal tax classification; check only one of the following seven boxes:

Individual/sole proprietor or C Corporation S Corporation Partnership Trust/estate

United liability company. Enter the tax classification (D=C corporation, S=S corporation, P=partnership) ►

Note. For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner.

Other (see instructions) ►

5 Address (number, street, and apt. or suite no.)

375 Dick Road, Suite #2

Requester's name and address (optional)

6 City, state, and ZIP code

Deerpark, New York 14043

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see How to get a TIN on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Social security number

			-				
--	--	--	---	--	--	--	--

or

Employer identification number

4	7	-	0	9	8	9	4	1	9
---	---	---	---	---	---	---	---	---	---

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions: You must cross out Item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, Item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/w9.

Purpose of Form

An individual or entity (Form W-9 requested) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-G (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

• Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)

• Form 1099-C (canceled debt)

• Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding? on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued).

2. Certify that you are not subject to backup withholding.

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See What is FATCA reporting? on page 2 for further information.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday May 12, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her left neck pain continues to remain the same. Patient waiting to get her TMJ MRI results. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, tingling, shooting, numb; level: 4/10. **Pain is constant.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving, lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also continues to experience headaches. The headaches are now every other day for the past week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she denies any nausea. In addition, light aggravates her headaches. **Recent medical treatment for this condition:** None. **Changes in past medical history:** Yes: patient had a chest x-ray and blood work performed.

Thoracic: Patient stated that her middle back pain remains the same. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, shooting; level: 5/10. **Pain is constant.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, shooting, tingling, numb; level: 3/10. **Pain is constant.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain

Encounter dated 05/12/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/27/2016

with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Sensation:** left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident.

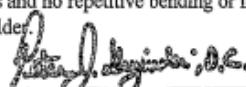

Lumbar assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet

Encounter dated 05/12/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 05/27/2016

arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 1 week; Re-examination for 1 week. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); SI left PI (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to May 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Abbreviations:

ADL: activities of daily living
MVA: motor vehicle accident
ROM: range of motion
WNL: within normal limits

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday May 26, 2016 Provider: Peter Guzinski DC RE-EXAM

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Accident Description: *Date of Accident:* October 31, 2015. *Time of Accident:* 4:55 PM. *Narrative Description of Accident:* Patient stated that she was stopped in traffic, while waiting for a truck to make a left hand turn into a driveway, when she was rear impacted. She stated that accident occurred while she was traveling South on Starin in the City of Buffalo, New York. Mrs Harwell, stated that this was a chain reaction accident. The vehicle that was behind her was also stopped and was pushed into her vehicle by an automobile that rear impacted them. *Patient Seatbelted?* Yes. *Position in vehicle* driver. *Patient Position at Impact:* looking straight ahead. *Impact Point of Patient's Car:* rear. *Brakes On At Time of Impact?* Yes. *Airbags Deployed?* No. *Did The Patient's Seat Break?* No. *Impact With Car Interior?* seatbelt left chest; headrest back head. *Patient's Vehicle Type:* Honda Odyssey 2007. *Type of Other Vehicle:* Honda CRV 2015. *Road Conditions At Time of Accident:* dry. *Was There Loss of Consciousness?* no. *What Symptoms Were Immediately Present?* Patient stated that she was experiencing head, neck, back and left shoulder and arm pain.

Cervical: Patient presented today with the continued chief complaint of neck pain. Due to the pain, she has moderate headaches which come infrequently, she can do most of her usual work, but no more, she has a fair degree of difficulty concentrating and her normal sleep has been moderately disturbed (1-2 hrs. sleepless). *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving, since onset. *Pain:* achy, dull, tingling, shooting, numb; level: 3/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Cervical Disability Index:* 34%. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving, since onset. *Pain:* achy, dull, shooting; level: 3/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activites of daily living. *Alleviates symptoms:* nothing.

Encounter dated 05/26/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/02/2016

Numbness: none. *Weakness:* none. *Oswestry score:* 24%. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. Due to the pain, she is unable to sit greater than 60 minutes and she is only able to sleep comfortably for 6 hours. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving, since onset. *Pain:* achy, dull, shooting, tingling, numb; level: 4/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *OSWESTRY Disability Index:* 24%. *The Keele STaRt Back Screening Tool:* Low risk. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Activity of Daily Living Form Bathing/Showering: mild impairment; Bending forward/backward: moderate impairment; Driving: moderate impairment; Drying Hair: mild impairment; Household chores: moderate impairment; Laundry: moderate impairment; Lifting less than 10 lbs: mild impairment; Lifting more than 10 lbs: moderate impairment; Kneeling: moderate impairment; Making Meals: mild impairment; Prolonged Sitting more than 30 minutes: moderate impairment; Putting pants on: mild impairment; Putting shoes/socks on: mild impairment; Reaching above the shoulders: severe impairment; Restful night's sleep: moderate impairment; Seated to standing position: mild impairment; Sexual activity: moderate impairment; Standing: mild impairment; Squatting: moderate impairment; Tying shoes: mild impairment; Using lavatory: mild impairment; Walking: mild impairment.

Objective

Physical exam: Ht: 5' 3" Wt: 150lbs. BMI: 26.6 Never smoker Temp: 99.0 BP (left): 103/70 Pulse (left/resting): 83.

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* foward head carriage; rounded shoulders. *Strength:* all upper extremity musculature (C5-T1) were WNL and graded 5/5. *Sensation:* all upper extremity sensory exams (C5-T1) were WNL to Pin prick. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Reflexes:* bilateral upper extremity reflexes (C5, C6, C7) 2+. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left; Spinal Percussion C1-C7: Negative; left shoulder depression: Positive for left lower neck; right shoulder depression: Negative for right lower neck pain; neutral cervical compression: Negative; hyperextension cervical compression: Negative. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:*

Encounter dated 05/26/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/02/2016

bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by motion and static palpation.*

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Sensation:* all lower extremity sensory exams (L1-S1) were WNL to Pin prick. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate. *Trigger points:* left gluteus maximus. *Reflexes:* bilateral lower extremity reflexes (L4 and S1) 2+. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Ely's Heel to Buttock: Negative bilateral; Minor's sign: Negative; Nachlas: Negative bilateral; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Hibbs test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Cervical assessment: Based on the current history and examination results, I professionally feel that their current symptoms are causally related to the MVA sustained on October 31, 2015. Since her last re-evaluation on March 19, 2016 her VAS score improved from a 5 to 3 out of 10 and she is able to sleep 1 to 2 hours longer with less pain. In addition, her active left cervical rotation improved from 50 to 70 degrees and her left deltoid was stronger and graded 5/5. Further chiropractic treatment is medically necessary to decrease pain and improve function especially with her ability to perform her ADLs. **Diagnosis:** M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** improving, VAS score improved from a 5 to 3 out of 10 and her pain is no longer frequent but now occasional.

Lumbar assessment: Mrs. Harwell has made favorable improvement with chiropractic treatment since her initial evaluation on November 12, 2015. Her VAS score improved from 7 to 4 out of 10 and her pain is no longer constant but now frequent. In addition, since her last re-evaluation on March 19, 2016 she is now able to sleep 2 hours longer with less pain and her left L5 dermatome is now WNL. Further treatment is medically necessary to help improve her active lumbar ROM and improve her ability to reach, sit and lift with less pain. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy

Encounter dated 05/26/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/02/2016

and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to June 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Abbreviations

ADL: activities of daily living
MVA: motor vehicle accident
ROM: range of motion
VAS: Visual Analog Scale
WNL: within normal limits

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Monday May 23, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her left neck pain remains the same. Patient waiting to get her TMJ MRI results. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, tingling, shooting, numb; level: 4/10. **Pain is constant.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also continues to experience headaches. The headaches are now every other day for the past week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she denies any nausea. In addition, light aggravates her headaches. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Thoracic: Patient stated that her middle back pain remains the same. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, shooting; level: 5/10. **Pain is constant.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient stated that her lower back has been sore. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, soreness, shooting, tingling, numb; level: 4/10. **Pain is constant.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with no pain

Encounter dated 05/23/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/02/2016

with pain; left rotation: 50/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** left deltoid: 4/5; all other upper extremity musculature (C5-T1) were graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate to Severe; cervical paraspinal musculature Left Moderate to Severe; scalene Left Moderate to Severe; sternocleidomastoid Left Moderate to Severe; pectoralis minor Left Moderate to Severe; cervical paraspinal musculature Right Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 45/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with no pain; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Sensation:** left L5 decreased sensation Pin prick; all other lower extremity dermatomes WNL to Pin prick. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Thoracic assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident.

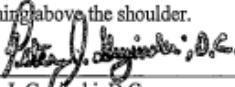

Lumbar assessment: unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet

Encounter dated 05/23/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/02/2016

arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 1 week; Re-examination for 1 week. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (anterior); T9 (anterior); L4 (manual traction); L5 (manual traction); SI left PI (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal myofascial release with china gel; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to May 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PAYMENT ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requires that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical records and medical information and whether the person has employer group health insurance, liability no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participant cases, the physician agrees to accept the charge determined by the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's spouse should be provided in those items captioned in "Insured" i.e., items 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payments including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional services by my employee under my direct supervision, except as otherwise expressly authorized by Medicare or TRICARE; 6) for each service rendered incident to my professional services, the physician (legal name and NPI license #, or BSN) of the primary individual whose care service is reported in the designated section. For services to be considered "incident to" a physician's professional services: 1) they must be rendered under the physician's direct supervision by health care employees, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of kinds commonly furnished in physician's offices, and 4) the services of non-physician must be included on the physician's bills.

For TRICARE claims, I further certify that I [or any employee] who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 9338). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 203(a), 1862, 1872 and 1874 of the Social Security Act as amended. 42 CFR 411.24(a) and 424.50(a) (6), and 44 USC 3101, 41 CFR 101-1 et seq and 10 USC 1079 and 1085; 5 USC 8101 et seq, and 30 USC 901 et seq; 36 USC 813; E.O. 13987.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37340, Wed, Sept. 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990. See ESA-5, ESA-8, ESA-12, ESA-13, ESA-39, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collector agencies, and consumer reporting agencies in connection with recompence claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosure may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, or makers relating to entitlement claims administration, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits and civil and criminal litigation related to the operation of TRICARE.

DISCLAIMERS: Voluntary however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount rendered would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," causes the government to verify information by way of computer matches.

MEDICARE PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to document fully the extent of services provided to individuals under the State Title XIX plan and to furnish information regarding any payments claimed for providing such services to the State Agency or Dept. of Health and Human Services which request.

I further agree to accept as payment in full the amounts payable by the Medicaid program for those claims on a risk basis for payment under that program, with the exception of insurance or other third party coverage, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Form W-9
 (Rev. December 2014)
 Department of the Treasury
 Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 3

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

Colleen J. Marx

2 Business name (disregarded entity name, if different from above).

Great Lakes Therapeutic Massage & Bodywork Practitioners

3 Check appropriate box for federal tax classification; check only one of the following seven boxes:

- Individual/sole proprietor or C Corporation S Corporation Partnership Trust/estate

single-member LLC

- Limited liability company. Enter the tax classification (D=C corporation, S=S corporation, P=partnership) ►

Note. For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner.

- Other (see instructions) ►

5 Address (number, street, and apt. or suite no.)

375 Dick Rd. Suite #2

Requester's name and address (optional)

6 City, state, and ZIP code

Dickson, MI 48043

7 List account number(s) here (if applicable)

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exempt from FATCA reporting code (if any) _____

(Applies to exempt individuals only in the U.S.)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I Instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see How to get a TIN on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Social security number		
	-	
	-	

or

Employer identification number			
4	7	-	09894499

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here Signature of U.S. person ►

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/fac.

Purpose of Form

An individual or entity (Form W-9 requestor) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1090-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

Date ►

May 30, 2016

• Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)

• Form 1099-C (canceled debt)

• Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding? on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See What is FATCA reporting? on page 2 for further information.

ZIP 14210 \$ 000419

UB-4K NOTICE: THE SUBMITTER OF THIS FORM UNDERSTANDS THAT IT IS A VIOLATION OF FEDERAL LAW TO FURNISH ANY INFORMATION AS REQUESTED IN THIS FORM WHICH IS NOT TRUE AND ACCURATE. CIVIL MONETARY PENALTIES ARE ASSESSED UP TO \$10,000 FOR EACH FALSE STATEMENT OR MISSTATEMENT MADE IN THIS FORM.

Submission of this claim constitutes certification that the billing information as shown on this face hereof is true, accurate and complete. That the submitter did not knowingly or recklessly disregard or misrepresent or conceal material facts. The following certifications or verifications apply where pertinent to this Bill.

- 1 If third party benefits are indicated, the appropriate assignments by the insurer, beneficiary and signature of the patient or parent or a legal guardian covering authorization to release information are on file. Determinations as to the release of medical and financial information should be guided by the patient or the patient's legal representative.
 2. If patient occupied a private room or required private nursing for medical necessity, any required certifications are on file.
 - 3 Physician's certifications and re-certifications, if required by contract or Federal regulations, are on file.
 - 4 For Religious Non-medical facilities, verifications and if necessary re-certifications of the patient's need for services are on file.
 - 5 Signature of patient or his representative on certifications, authorization to release information, and payment request, as required by Federal Law and Regulations (42 USC 1395I, 42 CFR 424.36, 10 UGC 1071 through 1088, 32 CFR 199) and any other applicable contractual regulations, is on file.
 - 6 The provider of care, submitter acknowledges that the bill is in conformance with the Civil Rights Act of 1964 as amended. Records adequately describing services will be maintained and necessary information will be furnished to such governmental agencies as required by applicable law.
 7. For Medicare Purposes: If the patient has indicated that other health insurance or a state medical assistance agency will pay part of his/her medical expenses and has/could/wants information about his/her claim related to them upon request, necessary authorization is on file. The patient's signature on the provider's request to bill Medicare instead of insurance, information including employment, age, and whether the person has employer group health insurance which is responsible to pay for the services to which the Medicare claim applies.

8. For Mearud purposes, The subscriber understands that because payment and satisfaction of this claim will be from Federal and State funds any false statements, documents, or representations it is making to us, are subject to prosecution under applicable Federal or State Law.

- e. For TBIGC:5E Purposes:

- (c) This information on the use of this item is true, accurate and complete to the best of my knowledge and belief and services we ~ medically necessary and appropriate for the health of the patient.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday June 9, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient presented today with the continued chief complaint of neck pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 3/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, shooting; level: 3/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 4/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck

Encounter dated 06/09/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/27/2016

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** unchanged.

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in

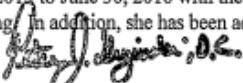

Encounter dated 06/09/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/27/2016

mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (Instrument adjustment Arthrostim); T3 left (Instrument adjustment Arthrostim); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver).

Physical Modalities: bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to June 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Monday June 13, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain has been more intense all weekend. She denies any new injuries. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** worse. since last visit. **Pain:** achy, dull, tingling, shooting, numb; level: 6/10. **Pain is:** frequent. **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night**

**Encounter dated 06/13/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/27/2016**

sweats or pain: No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Thoracic: Patient presented today with increased middle back pain as well. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** worse. *since* last visit. **Pain:** achy, dull, shooting; level: 6/10. **Pain is occasional.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** no change. *since* last visit. **Pain:** achy, dull, shooting, tingling, numb; level: 3/10. **Pain is frequent.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** Massage therapy. **Changes in past medical history:** None.

Objective

Cervical: **Range of motion:** flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Shepplemans: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower

Encounter dated 06/13/2016 for Danielle Harwell #3438

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabre: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** Slight improvement since their last treatment. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** improving.

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild

Encounter dated 06/16/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 06/27/2016

bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to June 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Grzinski, D.C.

Abbreviations:

ADL: activities of daily living
MVA: motor vehicle accident
ROM: range of motion
WNL: within normal limits
VAS: Visual Analog Scale

Re-Evaluation
Date: 06/30/2016

Patient Name: Harwell, Danielle
DOB: 08/29/1980 Age: 35 Y Sex: Female
PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion
- Patient is here following up for migraines

History of Present Illness

Dear Dr. Panzarella:

I had the pleasure of seeing Danielle today in neurologic reevaluation regarding motor vehicle accident and head injury. She was seen at DENT Neurologic Institute in Amherst, New York.

Danielle is a wonderful 35-year-old young woman who had an unfortunate motor vehicle accident on 10/31/2015. The patient was the seat-belted driver in her vehicle and was rear-ended by another car. The patient hit her head against the headrest, then jolted forward. She was seen at the urgent care the next day. Afterward, the patient struggled with dizziness, difficulty with attention and concentration, headaches, poor sleep. She had significant amount of pain in the left upper extremity and shoulder. Headaches were occurring 4 times per week at 3-7/10 on the pain scale. The headaches were worse than her baseline. She reported associated sonophobia, osmophobia, spots before her eyes, fatigue, difficulty concentrating, neck stiffness, weakness in the arms and face.

The patient was evaluated by Dr. Pollina, a neurosurgeon, on 2/8/16. MRI L spine and C-spine 1/5/16 showed mild multilevel degenerative changes, but there are disk extrusions seen at C4-C5 and C5-C6. She did have an EMG 01/19/2016, but we do not have the results. Laboratory studies 3/24/16 showed a low MCV of 77.7, low MCH of 25.7 and elevated RDW 14.8. The remainder of the CBC was within normal limits. CMP, TSH, Vitamin D and Vitamin B12 were within normal limits.

Danielle has tried ibuprofen, Tylenol, Motrin, chiropractic care, massage therapy and physical therapy. After initial evaluation, she was started on magnesium oxide, Naprosyn and Rizatriptan. She tried trigger point injections for cervical spasm. She was encouraged to try vestibular therapy in addition to the physical therapy as well.

Danielle returns today with worsening of her symptoms. She continues to have pain in her cervical region and radiating down her left arm. At times, she will experience weakness in her left arm. The patient has continued with physical therapy, but the primary focus of therapy has been on her left shoulder and arm. She states the therapy sessions are quite painful for her. She has continued with regular massage therapy, which has been helpful. In addition to the neck pain, the patient has experienced ongoing dizziness and unsteadiness. She has continued with magnesium oxide daily. She has continued with trigger point injections, which provide temporary relief.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Taking Naprosyn 500 mg tablet 1 tab(s) pm headache, up to BID
- Taking nizatidine 10 mg tablet 1 tab(s) pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 int'l units capsule 1 cap(s) once a day
- Not-Taking/PRN Vitamin D2 50,000 int'l units capsule 1 cap(s) 2 times a week
- Medication List reviewed and reconciled with the patient

Hospitalization/Major Diagnostic Procedure

See surgical history

Review of Systems

Positive for headaches, dizziness, weakness, numbness, unsteadiness, sleep problems, fatigue, ringing in the ears, joint pain, stiffness, neck pain, muscle aches, asthma, chest pain, palpitations, heartburn, itching, rash and swollen lips No additional new neurological or physical deficits were reported outside of the patient's complaints upon the clinical review of systems for today's visit. The following systems were assessed: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy

Vital Signs

BP sitting 116/68, HR 72, RR 16, HT 63, WT 150, BMI 26.57, BSA 1.74.

Examination

GENERAL EXAMINATION:

General Appearance: Well-nourished, well-developed, in no apparent distress, participated with the exam. Well groomed. Neck: Trapezius are quite spasmed and tender bilaterally, more so on the left side. Range of motion is limited.. Cardiovascular: peripheral pulses within normal limits. Extremities: Full range of motion of extremities x4. No edema.

NEUROLOGICAL:

Mental Status: Orientation to person, place, and time was normal. Attention span and concentration was appropriate. Speech: Speech content and production was normal. Memory: Memory for remote and recent events was intact. Fund of Knowledge: Appropriate for events and past history. Cognition was intact. Motor: 5/5 upper and lower extremities bilaterally. Tone: Tone and bulk was within normal limits in the upper and lower extremities. No atrophy or fasciculations were noted. Reflexes: DTRs were +2 globally. Coordination: Test of coordination and fine motor skills were within normal limits. Gait and Station: Patient is quite unsteady with both Romberg and tandem stance testing. She is unable to maintain her balance.. Sensory: Sensation to touch and cold was intact in all 4 extremities bilaterally.

CRANIAL NERVES:

Cranial Nerves III, IV, VI: Extraocular movements intact. PERRLA. Cranial Nerve V: Facial sensation and muscles of mastication were normal bilaterally. Cranial Nerve VII: Face was symmetric and strength was equal bilaterally. Cranial Nerves IX, X: Swallowing and palate elevation was within normal limits. Cranial Nerve XI: Sternocleidomastoid and shoulder shrug was within normal limits bilaterally. Cranial Nerve XII: Tongue was midline.

Assessments

- Concussion, without loss of consciousness, sequela - S06.0X0S (Primary)
- Myofascial pain - M79.1
- Vestibular dysfunction - H83.2X9
- Cervical radicular pain - M54.12
- Posttraumatic headache - G44.309

Danielle is a 35-year-old female currently under our care for the treatment of postconcussive symptoms, which resulted from motor vehicle accident. The patient continues to struggle with prominent spasm in her cervical region, with radiating symptoms down her left arm. She also reports feeling quite dizzy and unsteady at times. At this point, I encouraged her to initiate physical therapy for the cervical region, as well as vestibular therapy for the dizziness. We will continue with regular trigger point injections. I encouraged her to continue with magnesium oxide daily as well. We discussed trying occipital nerve blocks in the future if her symptoms persist. We also discussed trying Lamictal if therapy is ineffective. We will see the patient back next week for her next round of trigger point injections.

Dr. McVige is the supervising physician on site.

Thank you for allowing us to participate in the care of this patient. If there are any questions please feel free to call anytime.

Treatment

1. Concussion, without loss of consciousness, sequela

Start Lamictal tablet, 25 mg, 1 tab(s), orally, 1 tab once daily x 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID, 30 day(s), 120, Refills 5

2. Myofascial pain

Continue magnesium oxide tablet, 250 mg, 1-2 tab(s), orally, once a day
PHYSICAL THERAPY Cervicalgia1160785

3. Vestibular dysfunction

VESTIBULAR THERAPY1160784

4. Posttraumatic headache

Continue Naprosyn tablet, 500 mg, 1 tab(s), orally, pm headache, up to BID

Continue rizatriptan tablet, 10 mg, 1 tab(s), orally, pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle. 06/30/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 06/30/2016.

Exercise: Patient counseled on importance of moderate physical activity daily. 06/30/2016.

PHYSICAL AND INTRACRANIAL ABNORMALITIES—A neurologist requires that patient's medical and social history as well as any information necessary to precisely the clinical signs observed. He further may require a brief physical examination and complete. In the case of a head injury, the physician may explore any area of the head to rule out life threatening injuries and may require an x-ray of the skull or orbits to explore gross brain tissue damage, fracture, basal skull, or a tumor compressing either intracranial or extracranial structures. The physician may also require a lumbar puncture to rule out meningitis or encephalitis. In the case of a stroke, the physician requires a detailed history as well as a physical examination and may require a CT scan or MRI to rule out hemorrhage or infarction. In the case of a traumatic brain injury, the physician requires a detailed history as well as a physical examination and may require a CT scan or MRI to rule out hemorrhage or infarction.

PLATE LIVESTOCK RECORDS

The panel of experts will review and assess each baseline SCA and its payment model. See Table 1 for a summary of the PEGCA expectations regarding baseline SCA coordination and diagnosis coding, and see

ESTATE PLANNING FOR YOUR RETIREMENT PORTFOLIO: A GUIDE TO THE FUTURE

In September 2012, the government issued its first full budget. I briefly discuss the elements of this budget – tax, revenue, and spending, by 2) the framework of application to us, consumers, and 3) the general measures that will benefit the US consumer. As they would be, the principles and best information reported in other government documents on the impact of the new law and its effects on us, the consumer, are also included. In addition, I provide a brief summary, comprising an overview of the law, its goals and measures and my own personal analysis of the potential impact on us, the consumer. The author is a medical and pharmaceutical law attorney and has been involved in the pharmaceutical industry for over 20 years. She is a member of the American Bar Association and the American Medical Writers Association. She has taught law, medical law, and pharmaceutical law at the University of Florida Levin College of Law, the University of Miami School of Law, and the University of Miami Miller School of Medicine. She has also lectured on pharmaceutical law at the University of Miami Miller School of Medicine, the University of Miami School of Law, and the University of Miami Miller School of Medicine. She has also lectured on pharmaceutical law at the University of Miami Miller School of Medicine, the University of Miami School of Law, and the University of Miami Miller School of Medicine.

For THICARE claims, I further certify that I or my dependents who received services am not active duty members of the Uniformed Services or a civilian employee of the United States Government or a contractor employee of the United States Government, a U.S. citizen or military polar to U.S.C. § 101. My claim is that the services performed were for a Bona Fide User of THICARE.

No Part B Medicare benefits may be paid unless the form is submitted as required by law, regulations and instructions (72 CFR 621.3(c)).

ACTIVE: *Any new work or service, or addition to an existing one, which is done by anyone except the original contractor, and which is not included in the original contract.*

**INSURANCE CLAIM
FORMS ENCLOSED**

NOTE: OPEN THIS ENVELOPE FROM THE BOTTOM.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, hobby no-tau, worker's compensation or other insurance which is responsible to pay for the services or which the Medicare claim is made. See 42 CFR 411.2(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "Insured", i.e., Items 4, 6, 7, 9 and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government, as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral Law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my expert supervision except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal) name and MPI, license #, or SSN of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 7) they must be rendered under the physician's direct supervision by her/his employee, 8) they must be an integral, although incidental, part of a covered physician's service; 9) they must be of benefit commonly furnished in physician's offices; and 10) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a civilian employee of the United States Government, either civilian or military (as per 10 USC 3386). For Black Lung claims, I further certify that the services performed were for a Black Lung related disorder.

No Part B Medicare benefits may be paid unless the form is received as required by existing law and regulations (42 CFR 424.22).

NOTICE: Any one who manufactures or facilitates essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in sections 206(a), 1832, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.2(a) and 425.5(a)(6) and 44 USC 3101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 39 USC 801 et seq; 38 USC 613; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies for the effective administration of Federal programs that require other third parties pay or pay priority to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0501, Med "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept. 12, 1990 or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990 Sce ESA-5, ESA-6, ESA-12, ESA-13, ESA-30 or as updated and republished.

FOR TRICARE CLAIMS (PRINCIPLE PURPOSE(S)): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

FOR DOD LIFE/DEATH: Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE-CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recuperation claims, and to Congressional Offices in response to inquiries made at the request of the citizen to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care or matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, insurance, pay review, premium integrity, third party liability coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1138B of the Social Security Act and 31 USC 3801-38-2 provides penalties for withholding this information.

You should be aware that P.L. 100-360, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

STATE MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds and that any false claim statements, documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-187. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Report Clearance Officer, Mail Stop C4-08-05, Baltimore, Maryland 21244-1850. This document is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Re-Evaluation
Date: 06/30/2016

Patient Name: Harwell, Danielle
DOB: 08/29/1980 Age: 35 Y Sex: Female
PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion
- Patient is here following up for migraines

History of Present Illness

Dear Dr. Panzarella:

I had the pleasure of seeing Danielle today in neurologic reevaluation regarding motor vehicle accident and head injury. She was seen at DENT Neurologic Institute in Amherst, New York.

Danielle is a wonderful 35-year-old young woman who had an unfortunate motor vehicle accident on 10/31/2015. The patient was the seat-belted driver in her vehicle and was rear-ended by another car. The patient hit her head against the headrest, then jolted forward. She was seen at the urgent care the next day. Afterward, the patient struggled with dizziness, difficulty with attention and concentration, headaches, poor sleep. She had significant amount of pain in the left upper extremity and shoulder. Headaches were occurring 4 times per week at 3-7/10 on the pain scale. The headaches were worse than her baseline. She reported associated sonophobia, osmophobia, spots before her eyes, fatigue, difficulty concentrating, neck stiffness, weakness in the arms and face.

The patient was evaluated by Dr Pollina, a neurosurgeon, on 2/8/16. MRI L spine and C-spine 1/5/16 showed mild multilevel degenerative changes, but there are disk extrusions seen at C4-C5 and C5-C6. She did have an EMG 01/19/2016, but we do not have the results. Laboratory studies 3/24/16 showed a low MCV of 77.7, low MCH of 25.7 and elevated RDW 14.8. The remainder of the CBC was within normal limits. CMP, TSH, Vitamin D and Vitamin B12 were within normal limits.

Danielle has tried ibuprofen, Tylenol, Motrin, chiropractic care, massage therapy and physical therapy. After initial evaluation, she was started on magnesium oxide, Naprosyn and Rizatriptan. She tried trigger point injections for cervical spasm. She was encouraged to try vestibular therapy in addition to the physical therapy as well.

Danielle returns today with worsening of her symptoms. She continues to have pain in her cervical region and radiating down her left arm. At times, she will experience weakness in her left arm. The patient has continued with physical therapy, but the primary focus of therapy has been on her left shoulder and arm. She states the therapy sessions are quite painful for her. She has continued with regular massage therapy, which has been helpful. In addition to the neck pain, the patient has experienced ongoing dizziness and unsteadiness. She has continued with magnesium oxide daily. She has continued with trigger point injections, which provide temporary relief.

Hospitalization/Major Diagnostic Procedure

See surgical history

Review of Systems

Positive for headaches, dizziness, weakness, numbness, unsteadiness, sleep problems, fatigue, ringing in the ears, joint pain, stiffness, neck pain, muscle aches, asthma, chest pain, palpitations, heartburn, itching, rash and swollen lips No additional new neurological or physical deficits were reported outside of the patient's complaints upon the clinical review of systems for today's visit. The following systems were assessed: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 116/68, HR 72, RR 16, Ht 63, Wt 150, BMI 26.57, BSA 1.74.

Examination

GENERAL EXAMINATION

General Appearance: Well-nourished, well-developed, in no apparent distress, participated with the exam. Well groomed Neck Trapezius are quite spasmed and tender bilaterally, more so on the left side. Range of motion is limited. Cardiovascular peripheral pulses within normal limits. Extremities: Full range of motion of extremities x4 No edema

NEUROLOGICAL:

Mental Status: Orientation to person, place, and time was normal. Attention span and concentration was appropriate. Speech: Speech content and production was normal. Memory: Memory for remote and recent events was intact. Fund of Knowledge: Appropriate for events and past history. Cognition was intact. Motor: 5/5 upper and lower extremities bilaterally. Tone: Tone and bulk was within normal limits in the upper and lower extremities. No atrophy or fasciculations were noted. Reflexes: DTRs were +2 globally. Coordination: Test of coordination and fine motor skills were within normal limits. Gait and Station: Patient is quite unsteady with both Romberg and tandem stance testing. She is unable to maintain her balance.. Sensory: Sensation to touch and cold was intact in all 4 extremities bilaterally

CRANIAL NERVES:

Cranial Nerves III, IV, VI, Extracocular movements intact PERRLA Cranial Nerve V: Facial sensation and muscles of mastication were normal bilaterally. Cranial Nerve VII: Face was symmetric and strength was equal bilaterally. Cranial Nerves IX, X: Swallowing and palate elevation was within normal limits. Cranial Nerve XI: Sternocleidomastoid and shoulder shrug was within normal limits bilaterally. Cranial Nerve XII: Tongue was midline.

Assessments

1. Concussion, without loss of consciousness, sequela - S06.0X0S (Primary)
2. Myofascial pain - M7.1
3. Vestibular dysfunction - H83.2X9
4. Cervical radicular pain - M54.12
5. Posttraumatic headache - G44.309

Danielle is a 35-year-old female currently under our care for the treatment of postconcussive symptoms, which resulted from motor vehicle accident. The patient continues to struggle with prominent spasm in her cervical region, with radiating symptoms down her left arm. She also reports feeling quite dizzy and unsteady at times. At this point, I encouraged her to initiate physical therapy for the cervical region, as well as vestibular therapy for the dizziness. We will continue with regular trigger point injections. I encouraged her to continue with magnesium oxide daily as well. We discussed trying occipital nerve blocks in the future if her symptoms persist. We also discussed trying Lamictal if therapy is ineffective. We will see the patient back next week for her next round of trigger point injections. Dr. McVige is the supervising physician on site.

- Patient is here today for trigger point injections

History of Present Illness

General:

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 int'l units capsule 1 cap(s) once a day
- Taking Lamictal 25 mg tablet 1 tab(s) 1 tab once daily x 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID
- Taking Naprosyn 500 mg tablet 1 tab(s) pm headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Discontinued Vitamin D2 50,000 int'l units capsule 1 cap(s) 2 times a week
- Medication List reviewed and reconciled with the patient

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 120/66, HR 76, RR 16, Ht 63", Wt 150, BMI 26.57, BSA 1.74.

Examination
NEUROLOGICAL:

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger

Page 3 of 3

points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1

Continue all previously prescribed medicines at the current doses.

Return for repeat trigger point injections in 1 month.

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 10 cc was injected with a 25-gauge needle without complication into 10 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness. An additional 0.5cc was injected at the C1-2 facet bilaterally.

Preventive Medicine

HEALTH INSURANCE CLAIM FORM

APPROVED BY NATIONAL UNIFORM CLAIM COMMITTEE (NUCC) 6/12

GEICO INSURANCE - NF
NY PIP CLAIMS
POBOX 9507
FREDERICKSBURG VA 22403

EXCEP CAN

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentations or any false, incomplete or misleading information may be guilty of a criminal or punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS. A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and enables that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(b). If item 9 is completed, the patient's signature authorizes release of the information on the health plan or agency shown in Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the local carrier or TRICARE fiscal intermediary as the full charge and the patient is responsible only for the deductible co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the local carrier or TRICARE fiscal intermediary if the is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health services provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned "Insured"; i.e., items 1a, 4, 5, 7, 9, and 11.

BLACK LUNG AND PEGA CLARIS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and PEGA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, PEGA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal Anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and MPR, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's ambulatory services: 1) they must be rendered under the physician's direct supervision by either employee; 2) they must be an integral, although incidental part of a covered physician service; 3) they must be of kinds commonly furnished in physician's offices; and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5336). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who manufactures or distributes essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, PEGA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CHIS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, PEGA, and Black Lung programs. Authority to collect information is in section 203(j)(4), 1982, 1987 and 1974 of the Social Security Act as amended, 42 CFR 411.24(d) and 424.5(a)(6) and 44 USC 3101 et seq and 10 USC 1079 and 1086; 5 USC 5101 et seq. and 39 USC 801 et seq. 38 USC 813. E.O. 1337

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties payers to pay primary to Federal programs, and as otherwise necessary to administer those programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0891, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177 page C7548, Wed Sept 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor Privacy Act of 1974. Republication of Notice of Systems of Records, Federal Register Vol. 55 No. 40, Wed Feb 28, 1990. See ESA-3, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S). To evaluate eligibility for medical care provided by civilian sources and to make payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHIPS/VA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recompensable claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlements, claims adjudication, fraud, program abuse, utilization review, quality assurance, policy review, program integrity, third-party liability coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under PEGA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1106B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988" permits the government to verify information by way of computer matching.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Report Comments, Office, Mail Stop 04-08-05, Baltimore, Maryland 21244-1850. This address is for comments, and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Procedure Note

Date: 07/05/2016

Patient Name: Harwell, Danielle

DOB: 08/29/1980 Age: 35 Y Sex: Female

PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion
- Patient is here today for trigger point injections

History of Present Illness

General:

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 intl units capsule 1 cap(s) once a day
- Taking Lamictal 25 mg tablet 1 tab(s) 1 tab once daily x 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID
- Taking Naprosyn 500 mg tablet 1 tab(s) prn headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) prn migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Discontinued Vitamin D2 50,000 intl units capsule 1 cap(s) 2 times a week
- Medication List reviewed and reconciled with the patient

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 120/86, HR 76, RR 16, Ht 63", Wt 150, BMI 26.57, BSA 1.74

Examination

NEUROLOGICAL:

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger

points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions

Assessments

1. Myofascial pain - M79.1

Continue all previously prescribed medicines at the current doses.

Return for repeat trigger point injections in 1 month.

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 10 cc was injected with a 25-gauge needle without complication into 10 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness. An additional 0.5cc was injected at the C1-2 facet bilaterally.

Preventive Medicine

COUNSELING: Healthy Living Patient counseled on the importance of healthy lifestyle 07/05/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 07/05/2016.

Exercise: Patient counseled on importance of moderate physical activity daily 07/05/2016

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Thursday June 30, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that she remains the same. She stated that she had an ortho IME yesterday. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 4/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also has headaches since the accidents. The headaches are back to every other day. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences less dizziness since last visit. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* Massage Therapy.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been better. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 4/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck

Encounter dated 06/30/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: mild to moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** unchanged.

Lumbar assessment: slightly worse. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in

Encounter dated 06/30/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 1 week; Re-examination for 1 week. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (anterior); T7 (anterior); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and/or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to July 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Gulaniski, D.C.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Tuesday June 21, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient stated that her neck pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activites of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* Massage Therapy.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change, since last visit. *Pain:* achy, dull, shooting, tingling, numb; level: 3/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck

Encounter dated 06/21/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. **Tenderness on palpation:** left SI: moderate. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** unchanged.

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in

Encounter dated 06/21/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and/or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to June 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Thursday June 23, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that "I feel about the same". *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit:* Pain: achy, dull, tingling, shooting, numb; level: 5/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient

Encounter dated 06/23/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

stated that she also had headaches since the accidents. The headaches are back daily again. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness occasionally but she is definitely sensitive to light. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit:* *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* Massage Therapy.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit:* *Pain:* achy, dull, shooting, tingling, numb. *Range:* 4->5/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* all upper extremity musculature (C5-T1) were WNL and graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower

Encounter dated 06/23/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s): L4, L5, Left SI.*
Subluxations detected by: motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. *Thoracic assessment:* unchanged.

Lumbar assessment: slightly worse. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 2 weeks; Re-examination for 2 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (diversified prone); T7 (diversified prone); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction); L5 left (manual traction); Left SI left (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and

Encounter dated 06/23/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016

intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to June 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Monday June 27, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that "I feel a little bit better". *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* slightly improved. *since last visit:* Pain: achy, dull, tingling, shooting, numb; level: 4/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are back daily again. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness occasionally but she is definitely sensitive to light. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit:* Pain: achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* Massage Therapy.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been more intense. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* slightly worse. *since last visit:* Pain: achy, dull, shooting, tingling, numb. Range: 5->6/10. *Pain is frequent.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain

**Encounter dated 06/27/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/12/2016**

neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* all upper extremity musculature (C5-T1) were WNL and graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by* motion and static palpation.

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Tenderness & Hypertonicity* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). *Cervical assessment:* Slight improvement since their last treatment. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. *Thoracic assessment:* unchanged.

Lumbar assessment: slightly worse. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild

US-04 CMS-1500 NCP-0884 APPROVED CMMR 0838-0987 CCW original NUBC Version 2/23/2004 THE CERTIFICATIONS ON THE REVERSE APPLY TO THIS BILL AND ARE MADE A PART HEREOF

USER NOTICE: THE SUBMITTER OF THIS FORM UNDERSTANDS THAT IT IS AN AGREEMENT TO RELEASE ALL INFORMATION CONTAINED IN THIS FORM, OR DERIVED THEREFROM, AS A RECORD OF ESSENTIAL INFORMATION AS REQUESTED BY THE STATE OF CALIFORNIA PURSUANT TO THE CALIFORNIA PUBLIC RECORD ACT AND ASSESS RELATED FEES FOR THE FILING, PROCESSING, AND MAINTENANCE OF THIS RECORD. THE SUBMITTER AGREES TO HOLD EBCOM LENDER, INC., ITS OFFICERS, EMPLOYEES, AGENTS, AND ATTORNEYS HARMLESS FROM ANY AND ALL LIABILITY ARISING OUT OF THE SUBMISSION OF THIS RECORD.

Submission of this claim constitutes certification that the billing information as shown on the rate hereof is true, accurate and complete. That the submitter did not knowingly or recklessly disregard or misrepresent or conceal material facts. The following certifications or verifications apply where pertinent to this Bill:

- 1 If third party beneficiaries are indicated, the appropriate assignments by the insured, beneficiary and signature of the patient or parent or a legal guardian, covering authorization to release information are on file. Determinations as to the release of medical and financial information should be guided by the patient or the patient's legal representative.
 2. If patient occupied a private room or required private nursing for medical necessity, any required certifications are on file.
 - 3 Physician's certifications and re-certifications, if required by contract, or Federal regulations are on file.
 - 4 For Religious Non-Medical facilities verifications and if necessary re-certifications of the patient's need for services are on file.
 - 5 Signature of patient or his representative on certifications authorizing to release information, and payment request, as required by Federal Law and Regulations (42 USC 1935i, 42 CFR 421.35, 10 CFR 1071 through 1086, 32 CFR 199) and any other applicable contract regulations, is on file
 6. The provider of care submitter acknowledges that the bill is in conformance with the Civil Rights Act of 1964 as amended. Records adequately describing services will be maintained and necessary information will be furnished to such governmental agencies as required by applicable law.
 7. For Medicare Purposes: If the patient has verified that other health insurance or a state medical assistance agency will pay part of his/her medical expenses and he/she wants information about his/her claim released to them upon request, necessary authorization is on file. The patient's signature on the provider's request to bill Medicare, medical and non-medical institution including employment status and whether the person has employer group health insurance which is responsible to pay for the services for which this Medicare claim is made.
 8. For Medicaid purposes: The submitter understands that because payment and satisfaction of the claim will be from Federal and State funds, any false statements, documents, or concealment of a material fact are subject to prosecution under applicable Federal or State Laws.
 9. For TRICARE Purposes:
 - (f) The information on the face of this claim is true, accurate and complete to the best of the submitter's knowledge and belief, and services were medically necessary and appropriate for the health of the patient.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT & PRIVATE HEALTH PROGR/MS. SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a crime. I, the patient, file under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICAID AND TRICARE PAYMENTS: A patient's signature requests that payment be made and/or releases release of any information necessary to process the claim and certifies that the information provided in Boxes 1 through 12 is true, accurate and complete. In the case of a Medicaid claim, the patient's signature authorizes any entity to release to Medicaid medical and related information and bills for the person has employer group health insurance, briefly, self-employed workers compensation or other insurance which is responsible to pay for the services for which the Medicaid claim is made. See 42 CFR 411.2(a). If item 1 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In like manner as assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE for intermediary as the full charge and the patient is responsible only for the deductible, copayments and non-covered services. Copayments and deductible are based upon the charge determined by the Medicare carrier or TRICARE fiscal intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniform Services. Information on the patient's agreement shall be provided in those items captioned as "Initial"; i.e., items 1a, 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide essential information required to allow the government to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare rules, Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-fraud statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were principally necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI license #, SBN#) of the primary individual rendering such service is reported in the designated section for notation to be considered "incident to" a physician's professional services; 7) they must be rendered under the physician's direct supervision by either employee; 8) they must be an integral, although incidental part of a covered physician service; 9) they must be of kinds commonly furnished in physician's office; and 10) services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I or any employee who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5536). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disease.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.2(a) and 424.5(a) (8), and 44 USC 3101-1; 41 CFR 101.10(a) and 10 USC 1079 and 1086; 5 USC 8101 et seq. and 30 USC 801 et seq. 38 USC 813, E.O. 13659.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties to give priority to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used at a hospital or doctor. Additional disclosures are made through routine uses for information collection in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. IRB-70-0501, titled, "Center Medicare Claims Record," published in the Federal Register Vol. 55 No. 177, page 37518, Wed, Sept. 12, 1990, or as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990. See PIA-5, ESH-6, ESH-12, ESH-13, ESH-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE CHAG/PWIC; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; in the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosure may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, benefit, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability coordination of benefits and civil and criminal litigation. All disclosure is pursuant to the operation of TRICARE.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for failing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1103B of the Social Security Act and 31 UBC 3801-0812 provide penalties for not disclosing this information.

You should be aware that P.L. 100-603, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

LEDGER/AD PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the level of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount, paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-payment or similar cost-sharing charges.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0935-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the needed data, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C-04-25-05, Baltimore, Maryland 21204-1630. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that her neck pain has been slightly better. Patient saw Dr; Pollina earlier today. Patient also saw Dr. McVige who recommended PT with Susan Bennett for PT with her balance issues. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, tingling, shooting, numb. **Pain is frequent.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also has headaches since the accidents. The headaches are back to every other day. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences less dizziness since last visit. **Recent medical treatment for this condition:** Massage therapy; Neurosurgeon evaluation; Neurological evaluation. **Changes in past medical history:** None.

Thoracic: Patient stated that her middle back pain remains the same. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** no change. **since last visit.** **Pain:** achy, dull, shooting; level: 5/10. **Pain is occasional.** **Exacerbates symptoms:** movement; bending; lifting; activities of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** Massage Therapy.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain has been more intense. She states that the pain radiates into both posterior thighs and at times into both posterior legs with tingling / numbness into her toes. Patient saw Dr. Pollina who referred her to Dr. Siddique for injections. Dr. Pollina stated that she will give it to October for further improvement and if she does not improve he is recommending surgery. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** getting worse. **since last visit.** **Pain:** achy, dull, shooting, tingling, numb. **Pain is frequent.** **Pain radiates to:** bilateral posterior thighs and legs. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** Massage therapy; Neurosurgeon evaluation. **Changes in past medical history:** None.

Encounter dated 07/11/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/26/2016

Objective

Cervical: Range of motion: flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. Posture: forward head carriage; rounded shoulders. Strength: all upper extremity musculature (C5-T1) were WNL and graded 5/5. Hypertonicity & Tenderness Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. Trigger points: left levator scapulae, bilateral upper trapezius. Orthopedic tests: left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. X-ray findings: Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. Spinal subluxation level(s): C5, C6. Subluxations detected by: motion and static palpation.

Thoracic: Hypertonicity & Tenderness Thoracic paraspinal musculature Bilateral Moderate. Trigger points: bilateral rhomboids. Spinal subluxation level(s): T2, T3, T6, T7, T8, T9. Subluxations detected by motion and static palpation.

Lumbar/Sacral/Pelvis: Range of motion: flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. Heel to toe walking: WNL. Gait pattern: normal. Strength: all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. Tenderness & Hypertonicity lumbar paraspinal bilateral moderate to severe; TFL / ITB left moderate.

Tenderness on palpation: left SI: moderate. Trigger points: left gluteus maximus. Orthopedic tests: Patrick's Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. Spinal subluxation level(s): L4, L5, Left SI. Subluxations detected by: motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** unchanged.

Lumbar assessment: worse. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:**

Encounter dated 07/11/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/26/2016

Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks with a treatment change to decompression due to increased lower back and lower extremity pain; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (anterior); T7 (anterior); T8 (diversified prone); T9 (diversified prone); L4 left (manual traction and anterior maneuver); L5 left (manual traction and anterior maneuver); Left SI left (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy.

Patient given: home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / CAmel stretches 2 sets of 10 daily hold 5 sec. *Home care:* ice: lumbar 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and/or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to July 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Friday July 15, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Encounter dated 07/15/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 07/26/2016

Cervical: Patient returned today stating that her neck pain remains the same. Patient had an appointment with Susan Bennett for PT yesterday. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 3/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also has headaches since the accidents. The headaches are back to every other day. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences less dizziness since last visit. *Recent medical treatment for this condition:* Massage therapy; Physical therapy. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* Massage Therapy.

Lumbar/Sacral/Pelvis: Patient stated that her lower back pain continues which makes it difficult to walk. "I can't get comfortable". *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb; level: 6/10. *Pain is frequent.* *Pain radiates to:* bilateral posterior thighs and legs. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy; Neurosurgeon evaluation. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* all upper extremity musculature (C5-T1) were WNL and graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by motion and static palpation.*

extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. *Thoracic assessment:* unchanged.

Lumbar assessment: worse, VAS score increased from a 6 to an 8 out of 10. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks without decompression at this time because her lower back is so sore she would not be able to tolerate it; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (anterior); T7 (anterior); T8 (diversified prone); T9 (diversified prone); L4 extension restriction (manual traction); L5 extension restriction (manual traction); Left SI left (prone mobilization). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / Camel stretches 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform single knee to chest exercises 3 sets of 10 daily hold 10 sec. *Home care:* ice: lumbar 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to August 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

PATIENT AND INSURED INFORMATION

PHYSICIAN OR SUPPLIER INFORMATION

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE REPRINTED INSTRUCTIONS ISSUED BY APPLICABLE PROGRAM.

POLICIES: Any person who knowingly makes a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act pursuant to our law and may be subject to civil penalties.

REFERS TO HOMEWORK TIME SPANS ONLY

MEDICARE AND TRICARE PAYMENTS. A patient's insurance company that pays for Medicare and supplemental rates of pay may determine, in accordance with the terms of the policy, to process the claim and certain costs of the services as follows:
1. Through a Medicare claim, the patient's insurance authorizes any entity to release to Medicare medical and nonmedical information and relating to the patient's health condition, laboratory test results, hospital stay, and other treatment which is responsible for any or all of the patient's expenses.
2. In Medicare assignment or TRICARE participation, the patient's insurance accepts the charge determinations of the Medicare carrier or TRICARE beneficiary in full.
3. The patient's insurance may make payment for health care services rendered by a provider listed on the enrollment list with this insurance.
4. Insurance resulting in a deductible or coinsurance amount should be processed in those areas where applicable. In the case of items 1, 2, 3, 6, 7, 8, and 11.

THE SOUTHERN CALIFORNIA CLASS

The following terms are used throughout this document as defined in all *See Black Line* and *ERGIC* instructions including *new-old procedure* and *diagnose coding systems*.

SCHEMATIC DRAWING NO. 100-1227000-001 DATE 11-10-03 BY ECA AND BLDG. 1003

In submitting this claim for payment from Mutual Health, I certify that: 1) the information on this form is true, accurate and complete; 2) I have furnished myself with all applicable laws, regulations, rules, codes, or requirements, which may apply to the medical contractor; 3) I have provided or will provide sufficient information required to allow the corporation to issue insurance or reinsurance coverage to my employer; 4) my claim is being submitted by me or my employee to my employer, my agent, or billing company, along with all applicable bills, claims, authorizations, and payment instruments or paper work that is not furnished in the Federal Form 1040, Schedule C, Physician Self-Reliance Tax Law (Form 1040 Schedule C); 5) the services, on this form, were medically necessary and personally required; 6) my services were furnished entirely to my professional service by my employee under my direct supervision, except as otherwise expressly provided by Medicare or TRICARE; 7) no such service rendered is related to my professional service, the identity (legal name and NPI), license # (or SSN) of the primary intended recipient, and/or cause is listed in the designated "other services" to be rendered to "me" (self), "my" wife, "my" spouse, professional service; 8) they must be rendered under the physician's direct supervision by the employee; 2) they must be an integral, though incident, part of a covered physician service; 3) they must be of kind commonly furnished in private office practice; 4) the "other services" must be rendered "in person" as defined.

For TAD/CARE claims, I further certify that (a) my employee who received services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the "Under" Status Command, either civilian or military (refer to 5 USC 553); For Back/Lung claims, I further certify that the services performed were for a Profit-Limited Company.

iii. Part B Medicare payments may be paid in installments if required by existing law or regulations (42 CFR 434.32).

MONIQUE. Am I correct in my assumption or has the court information to receive payment from Federal funds requested by the former may upon conviction be subject to fine and imprisonment under reasonably Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF LBD-1005, TRIC-056, ZEGO-1, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by GI-5, TRICARE and OHCP to ask you for information needed in the administration of the Medicare, TRICARE, PBOA, and Black Lung programs. Authority to collect information is under 30 USC, 106, 107-2 and 1874 of the Veterans' Benefits Act as amended, 42 CFR 411.24(a) and 37 CFR 5(a)(6), and 44 USC 3101, 41 CFR 101-10 seq and 10 UGC 1079 and 1083. 5 USC 5501 seq, and 41 USC 601 et seq, 29 USC 181 E.O. 13937.

The information we obtain to complete claims and to determine your aid to determine your eligibility. It is also used to decide if the service is supplied to you under the law.

The information on many of the topics in this chapter is derived from the Federal Register and other publications of the Federal Interagency. In this chapter, the following terms are used to refer to the programs and activities of the Federal government:

POR MEDICARE CL 44132: See also notes modifying systems No. 00-70-0010, 4 Vol. *Cover Medicare Claims Report*, published in the Federal Register, Vol. 55 No. 177 page 3758, Wed. Nov. 12 1990 or as in listed and reprinted book.

FOR OFFICE OF CLIMATE CHANGE DEPARTMENT OF LABOR, PROSECUTIVE ACT OF 1974, 'REGULATION OF POWER SYSTEMS OF NUCLEAR,' FEDERAL REGISTER VOL. 55 NO. 40, WED FEB. 28, 1990. SEE EBA-5, EBA-6, EBA-12, EBA-13, EBA-30, OR AS AMENDED AND RESTATED.

FOR TRICARE CLASS: PRINCIPAL PURPOSE(S). To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the service member's dependents are authorized beneficiaries.

ROUTINE USES. Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation, or to contractors and consultants with statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the International Review Board, private collection agencies, and consumer reporting agencies; in connection with procurement claims, and to Congressional Offices, in response to inquiries made at the request of the person or entity named, received pursuant to appropriate disclosure laws; to state, local, foreign government agencies, private business entities, and individuals, providers of care, or entities relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, prior review, program integrity, third-party liability, providers of medical and related services located within the boundaries of TRICARE.

DISCLOSURE REQUESTS: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no pre-existing disclosure waivers under these programs, for releasing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information requested by JPSA could bar processing of a claim.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

Medicaid Payments (Provider Certification)

I hereby agree to loan such records as are necessary to disclose fully the cost of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services to the State agency or Dept. of Health and Human Services as may be requested.

I further agree to accept as payment in full the amount paid by the Medicare program for these claims submitted for payment under that program, with the exception of authorized deductible, coinsurance, co-payment or similar cost-sharing charges.

SIGNATURE OF PHYSICIAN (OR SUPERVISOR): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

Argentina to the Pan American Health Organization: As of 1975, no person can be employed in a public or private establishment unless it displays a valid Quill control number. The valid Quill control number is required for all employees of Federal and Provincial governments, and for all employees of State-owned enterprises, including the Post Office, telephone, electric power, gas, water, and sewerage systems.

Procedure Note Date: 08/02/2016

Patient Name: Harwell, Danielle
DOB: 08/29/1980 Age: 35 Y Sex: Female
PCP: James Panzarella, DO

Reason for Appointment

- Migraine, Trigger Points

History of Present Illness

General:

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Danielle states the trigger point injections have been quite helpful for her neck pain. She has also continued with regular massage therapy, chiropractic and physical therapy. The patient has new concerns of worsening low back pain in recent weeks. She has been following with Dr. Pollina and may be considering an epidural injection within the next month.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 int'l units capsule 1 cap(s) once a day
- Taking Lamictal 25 mg tablet 1 tab(s) 1 tab once daily x 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID
- Taking Naprosyn 500 mg tablet 1 tab(s) prn headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) prn migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Medication List reviewed and reconciled with the patient

Past Medical History

- Asthma
- Esophageal reflux

Review of Systems

Neck pain and headaches. No additional new neurological or physical deficits reported outside of the patient's complaints as compared to the previous visit, and upon review of clinical systems for today's visit. This assessing the following systems: neurologic, constitutional, eyes, ears, nose and throat, cardiovascular, respiratory, gastrointestinal, genitourinary, skin, musculoskeletal, psychiatric, endocrine, hematologic, and allergy.

Vital Signs

BP sitting 104/72, HR 78, RR 16, Ht 63", Wt 150, BMI 26.57, BSA 1.74.

ExaminationNEUROLOGICAL:

The patient was seated comfortably on a chair and appeared to be well dressed, well nourished and without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger

points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1 (Primary)
2. Left-sided low back pain with left-sided sciatica, unspecified chronicity - M54.42

The patient was advised to try physical therapy for the lumbar spine. We elected to continue with regular trigger point injections, but in 6 week intervals at this point.

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Treatment

1. Left-sided low back pain with left-sided sciatica, unspecified chronicity

PHYSICAL THERAPY Lower Back1194079

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 7 cc was injected with a 25-gauge needle without complication into 7 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness

An additional 0.5 mL was injected at the C1-2 facet bilaterally..

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle 08/02/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 08/02/2016.

Exercise: Patient counseled on importance of moderate physical activity daily. 08/02/2016.

Follow Up

Danielle Harwell DD 07/11/2016

Page #2

experiencing in both her low back and her low extremities. Overall her cervical complaints are much improved and tolerable. I recommend that she continue with her current treatment in regards to her cervical and lumbar complaints. Since her lumbar complaints are more persistent at this time, I recommend a trial of epidural steroid injections to add to the current treatment plan. I will refer her to Dr. Jafar Siddiqai for this. We will see her back in the office in about eight weeks to continue following her progress. Should her symptoms remain intolerable and persistent following her conservative management attempts, we will consider any surgical intervention. We will discuss this further at the next office visit.

The patient and proposed treatment plan was discussed with Dr. Pollina.

Thank you very much for allowing me to participate in the ongoing care of this patient.

Diagnosis: Spinal stenosis, lumbar region, Radiculopathy, lumbar region, Cervicalgia

Sincerely,

Electronically signed by Thomas Falletta, ANP-BC on 07/22/2016 at 1:45 pm

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly uses a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a crime if not punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

TRICARE, PEC, AND BLACK LUNG: A patient's signature on this form is a statement that payment will be made and authorizes release of any information necessary to process the claim and certifies that the information provided in block 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare and all other health insurance plan(s) and employer group health insurance, liability, no-fault, workers' compensation or other insurance which is responsible to pay for the services, a copy of the Medicare claim is made. See 42 CFR 411.27(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Med Care and TRICARE participation cases, the plan can agree to accept the charge determination of the Medicare carrier or TRICARE local interim carrier for the full charge and the patient is responsible only for the deductible, copayments and non-covered services. Copayments and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local interim carrier. In TRICARE fiscal intermediary cases, the charge submitted, TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned as "Insured," i.e., items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND PECRA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and PECRA Instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, PECRA, PEC AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and reasonably furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI), location, or % (25%) of the primary individual rendering such service, is indicated in the claim submission. For services to be considered "incident to" a physician/professional services, 1) they may not be rendered under the physician's name or supervision by another employee; 2) they must be an integral, although incidental part of a covered physician service; 3) they must be directly and personally furnished in my office; and 4) the name of the physician rendering the service is indicated on the physician's bill.

For TRICARE claims, I further certify that 1) (any employee) who rendered service, are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a civilian employee of the United States Government, other than in military (refer to 5 USC 5538). For Black Lung claims, I further certify that the individual patient is not a Black Lung related disorder.

No Part B Medicare benefits may be paid unless the form is received as required by statute law and regulations (42 CFR 434.27).

NOTICE: Any person who knowingly furnishes false or inaccurate information to receive payment from Federal funds required by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, PECRA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We act authorized by CMS, TRICARE and OMB to ask you for information needed in the administration of the Medicare, TRICARE, PECRA and Black Lung programs. Authority to collect information is taken from OMB 2010-01, 100-07 and 100-08 of the Social Security Act as amended, 42 CFR 411.84(b) and 194.60 (b), and 41 USC 3101(a)(1) through 3101(d) and 10 USC 1079 and 1080; 5 U.S.C. 5501 et seq. and 40 USC 501 et seq.; 38 USC 1012; F.O. 1070.

The information we obtain is complete, clear, and concise—provided I used to identify you and to determine your eligibility. It is also used to verify that the services and payment you received are covered by the program and to insure that proper payment is made.

The information we obtain is given to other providers of services, centers, laboratories, medical review boards, health plans, and other organizations or individuals, or to the executive administration of Federal programs that require other third parties to pay money to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the patient, you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 03-70-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 65 No. 177, page 37549, Wed. Sep. 12, 1990, or as updated and republished.

FOR OMB CLM/RB: Department of Labor, Privacy Act of 1974, "Publication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See ESA-6, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/claims received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation and other their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agents, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to requests made at the request of Congress to determine the status of a particular claim. Appropriate disclosures may be made to other Federal, State, local, foreign government agencies, private business entities, and individual members of the public in a timely manner, if there is a need to protect the public interest, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE OF MEDICAL INFORMATION: Failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under the programs for failing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of the claim under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under TRICARE could result in claim denials.

If, at any time, you tell us you know that another party is responsible for paying for your treatment, Section 1128B of the Social Security Act and 31 USC 3812 provide penalties for withholding this information.

You should be aware that P.L. 100-202, the "Computer Matching and Privacy Protection Act of 1988" permits the government to verify information by way of computer matching.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

Please be advised that such forms or documents are to depict fully the usual of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payment claim or payment made to an individual or to a State Agency. Dpt. of Health and Human Services may request.

Under section 1903(e) of the Medicaid program, the amount paid by the Medicaid program for these claims submitted for payment under this program, with the exception of authorized deductible, coinsurance, co-payment or similar cost sharing charges.

DISCLAIMER OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: The use of forged, altered, falsified, or forged and altered documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the "Regulations of the Rehabilitation Act of 1973," a program is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this form is 2500-0100. The estimated average burden for this collection is approximately 1 hour per response, including the time to review instructions, search existing data sources, gather and validate data, and complete and return the information collection. If you have any comments concerning the accuracy of the time estimate, its burden, or if you experience difficulty in responding to this form, please contact: OMB, 7301 Peachtree Boulevard, Attn: LHA Reports Clearance Officer, Mail Stop C4-25-05, Baltimore, Maryland 21201-2505. This survey is for comment only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

**INSURANCE CLAIM
FORMS ENCLOSED**

NOTE: OPEN THIS ENVELOPE FROM THE BOTTOM.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature certifies any only to release to Medicare medical and non-medical information and whether the person has employer group health insurance, lottery, no-duty worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.34(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the "educator center or TRICARE local intermediary as the biller chooses and the patient is responsible only for the deductible, co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the Medicare center or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned "Insured", i.e., items 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 7) they must be rendered under the physician's direct supervision by his/her employee; 8) they must be an integral, although incidental part of a covered physician service; 9) they must be of kind commonly furnished in physician's office; and 10) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who renders services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5336). For Black-Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who manufactures or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWC to ask you information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 208(a), 1062, 1072 and 1074 of the Small Business Act, as amended, 42 CFR 411.2'(a) and 44 CFR 3101.101 et seq and 10 USC 1079 and 1086; 5 USC 8101 et seq; and 38 USC 801 et seq; 38 USC 813, E.O. 9307.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties pay or to pay pursuant to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice "Medicare System No. 09-70-0501, titled, 'Carrier Medicare Claims Record', published in the Federal Register Vol. 55 No. 177, page 37319, Wed Sept. 12, 1989, as updated and republished.

FOR OWC CLAIMS: Department of Labor, Poysey Act of 1974, "Republication of Notice of Systems of Records, Federal Register Vol. 53 No. 40, Wed Feb. 28, 1980. See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA, to the Dept. of Justice for representation of the Secretary of Defense in civil actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with debt collection claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate notifications may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal liaison issues as the operation of TRICARE.

DISCLOSURES: Voluntary, however failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, could delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988", permits the government to verify information by way of computer matches.

MEDICARE PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds and that any false claim statement or document, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to CMS, 7500 Security Boulevard, Rm. ARA-RPRA Room 3300, Mail Stop C4-35-05, Baltimore, Maryland 21214-1650. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Procedure Note

Date: 08/02/2016

Patient Name: Harwell, Danielle

DOB: 08/29/1980 Age: 35 Y Sex: Female

PCP: James Panzarella, DO

Reason for Appointment

- Migraine, Trigger Points

History of Present Illness

General:

Danielle is a 35-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Danielle states the trigger point injections have been quite helpful for her neck pain. She has also continued with regular massage therapy, chiropractic and physical therapy. The patient has new concerns of worsening low back pain in recent weeks. She has been following with Dr. Pollina and may be considering an epidural injection within the next month.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 int units capsule 1 cap(s) once a day
- Taking Lamictal 25 mg tablet 1 tab(s) 1 tab once daily x 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID
- Taking Naprosyn 500 mg tablet 1 tab(s) prn headache, up to BID
- Taking rizatriptan 10 mg tablet 1 tab(s) prn migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Medication List reviewed and reconciled with the patient

Past Medical History

- Asthma
- Esophageal reflux

points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1 (Primary)
2. Left-sided low back pain with left-sided sciatica, unspecified chronicity - M54.42

The patient was advised to try physical therapy for the lumbar spine. We elected to continue with regular trigger point injections, but in 6 week intervals at this point

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime

PHYSICAL THERAPY Lower Back1194079

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 7 cc was injected with a 26-gauge needle without complication into 7 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness

An additional 0.5 mL was injected at the C1-2 facet bilaterally .

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle 08/02/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 08/02/2016.

Exercise: Patient counseled on importance of moderate physical activity daily. 08/02/2016.

Attn: Claims Dept

The attached claims have been faxed to Geico. Recently, there has been an issue with the clarity of the claims or they have not been scanned after they have been faxed. This is to verify that they were submitted both via fax and mail.

I hope this will help in getting the claims processed without any delay.

Sincerely,

Kristen R.

REFERS TO GOVERNMENT PROCESS AND ONLY

Medicare - And TRICARE: If the MEBT-A presents an authorization request that requires **TRICARE** to make and authorize release of **any information necessary to process the claim and/or issue a payment**, the information is provided in block 1 through 12 as applicable and complete. In the case of a Medicare claim, the patient's signature suffices any entity to release to Medicare medical and dental information and whether the provider has group health insurance, **TRICARE**, no-fault, workers' compensation or other insurance which is responsible to pay for the services to which the medical claim is a result. See [TRICARE R11 411 2019](#). Is there a co-payment? Is the patient's signature authorizes release of the "information to the health plan or agency" (block 11). In Medicare assignment or TRICARE participation cases, the physician agrees to sign off charge information of the medical claim and the patient is responsible for any deductible, copayments and non-covered services. **Conversely, the Medicare** is based upon the charge information of the medical claim or TRICARE local rate even if it is less than the charge submitted. **TRICARE** is a health insurance program, not a plan, for military health benefits in medical through dental situations. **Under TRICARE Insurance Statute**, information on the patient's treatment should be provided in those items required in **blocks 1, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, For the **Non-Military** claimants, I further certify that I AM NOT any active (or) former member or non-commissioned member of the Uniformed Services or a civilian employee of the United States Government or a civilian contractor for the United States Government, active or inactive, under E.O. 13141. For the **Civilian** claimants, I further certify that the service performed during the time of the Black Lung disease disability.

No Part B allowances benefit any individual unless she/he is deemed as required by regulations the regulations 1-2 CFR §79.32.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICAL, DEMOGRAPHIC AND PLATELLET COUNT INFORMATION (PRIVACY ACT STATEMENT)

We are grateful to Dr. G. T. TROMBLE and Dr. P. C. WILSON for information received in their reports of the Dose-Response, TICARINE, FBCA, and Glutaraldehyde programs. Additional thanks are expressed to Dr. R. J. HARRIS and Dr. J. A. M. BROWN for their contributions to the development of the TICARINE and FBCA programs.

The information you obtain is complete and accurate, your programs will be able to determine your eligibility. It is also used to decide if the services and supplies you receive are covered by these programs and to receive this program payment.

The information may be given orally or written by telephone, e-mail, or facsimile. All individuals involved must be made fully aware of the potential ramifications of Potential agents. If the client is informed, even if it is not necessary, that he or she may be a target in a criminal or Federal program, it is also often necessary to terminated his or her employment. If you are aware of any threats, try to determine information about the threat. You are urged to report any threat to your supervisor or director. Additional databases are used through regular use for reference purposes in the event of a threat.

the formation of lamellae and the mechanical behavior resulting from the structure of TPU-IPF

Under California law, consumers have the right to receive information regarding the cost of their medical services. Consumers may request this information from their healthcare providers under these provisions for relating to single itemization. However, failure to furnish information regarding the modest service rendered or the amount charged would prevent patients and claimants from understanding their bill. Failure to furnish any other information such as name or claim number, would delay payment of the claim. Failure to provide medical information under FOB would be considered other care.

The material on this page, unless otherwise indicated, is not responsible for paying for your treatment. Section 1808 of the Social Security Act and 31 USC 9801-9812 provide guidelines for distributing this information.

ing and Privacy Protection Act of 1968", permits the government

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

ACKNOWLEDGMENT OF PATIENT/DOCTOR RELATIONSHIP OR SUPPLIER: I certify that the services listed above were medically indicated and necessary in the health of this patient and were personally furnished by

NON-EFILED: This is to certify that the foregoing "Statement is true, accurate and complete. I understand that payment of one-half of the amount of this claim will be from Federal and State funds, and that any false statement, or concealment of a material fact, may be punished under applicable Federal and State law."

According to the Privacy Act's disclosure rule, no notices are required if the information collection displays a valid OMB control number. The valid OMB control number for this information collection is 0620-1197. The term requires to complete this information collection is currently 10 minutes per response, includes the time to read instructions, review data resources, update the data received, and complete and review the information collection. If you have any comments concerning the accuracy of the instructions or suggestions for reducing the time please write to: GAO, 450 7th Street, Washington, DC 20585.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who voluntarily files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

HEDICARE AND TRICARE PAYMENTS: A patient's signature requires that payment be made and authorizes release of any information necessary to process the claim and certifies that all information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare a medical record nomination information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.24(a). If Item 9 is completed, the patient's signature authorizes release of the information on the health plan or agency shown. In Medicare enrollment or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare center or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, copayments and non-covered services. Contributions and the deductible are based upon the charge determination of the Medicare center or TRICARE local intermediary if the charge submitted, TRICARE is not a health insurance program but makes payment for health benefits provided through cancer affiliations with the Uniformed Services. Information on the patient's status should be provided in those items captioned in "insured", i.e., Items 4, 6, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The new law requires the completion and acceptance by the Government of payment under the Black Lung and FECA contractors regarding medical procedures and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (HEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) my claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for coverage including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 7) for each service rendered incident to my professional service, the identity (legal name and NPI license #, or SSN) of the primary individual rendering such service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral, although incidental part of a covered physician's service, 3) they must be of funds commonly furnished in physician's offices, and 4) the services of non-physician must be indicated on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered service am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a current employee of the United States Government, either civilian or military (refer to 5 USC 5536). For Black-Lung claims, I further certify that the services performed were for a Black-Lung related disorder.

No Part B Medicare benefit may be paid unless the form is received as required by existing law and regulations (42 CFR 442.82).

NOTICE: Any one who misrepresents or falsifies, intentional information to known payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by Title XIX, Title XXI, Title XVII, and Title II of the Social Security Act, and 42 CFR 411.24(a) and 405(k)(6) (i), and 44 U.S.C. 3501 et seq. and 10 USC 1601 et seq. and 10 USC NOTICE: Any person who fraudulently files a statement of claim containing any false identification or any false, incomplete or misleading information may be guilty of a criminal and/or civil offence under the Court Rules.

REFERS TO ANNUALMENT PROGRAMS ONLY

BLACK Holes / CP/CMS - 24/24

The payment to the vendor has been made by the City via check. The payment is for Svc B-Lang and PEGC's instructions regarding settlement procedure and design. A carbon copy of the

DETAILED LIST OF PHARMACEUTICAL SUPPLIES (THERAPEUTICS, TROCHARS, PECTA, AND ELASTIC LINERS)

In submitting this claim or payment from my own funds, I certify that: 1) The information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program requirements which are available from the Medicare contractor; 3) I have provided to all private sufficient information required to allow the government to make an informed decision regarding my claim; 4) I claim a lesser amount than my full or my deductible, co-payment, co-insurance or deductible Medicare and/or Medicaid amounts, services, and programs authorized for payment including but not limited to the Federal Employees Health and Disability Self-Referral law (amounts not to exceed \$100); 5) The services, on this form, do not medically necessary and previously furnished by me or were furnished incident to my professional services by my employee under my direct supervision, except as otherwise specifically provided by law contained in "TRICARE" for health service rendered and to receive payment promptly. I identify (legal name and SS#) of the provider (physician, hospital, and/or laboratory) in whom I am employed as the designated Carrier for services. I am overpaid in relation to a physician's charges (or amounts) if they fail to be rendered under the physician's direct supervision by his/her employee. 20. It is my intent, although in general case of a cover of place of service so they must be paid by funds exclusively furnished in this procedure.

For TRICARE claims, "Former employee" for new employment, and "red arrows" can not be a spouse, family member of the Uniformed Services or a civilian employee of the Uniformed Services Government or a civilian employee of the United States Government, other civilian or military (not in § 1030.8(b)). For Blue-Card claims, "Former employee" for a B-C-A, B-C-B, or B-C-D.

No Part 600-6000, 6001-6002 may be paid unless this form is received or required by existing law and regulation (42 CFR 420.32).

NOTICE: Any written or spoken communication that you have with us concerning your loan application or any other information to receive, originate, or modify a loan from us may be subject to review and impairment, under applicable Federal laws.

INFORMED CONSENT TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND PLACES LIEN INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OIG to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Blue Lung programs. Authority to collect information is provided by 42 CFR 411.204(a), 1362.102 and 1374.6 of the Board; Social Security Act as amended; 42 CFR 411.208 and 404.5(c) (6); and 44 URC 3101.01(CR 10, 10 sqq and 10 USC 1099 and 1099.5 (USC 8101 et seq. and 36 USC 3951 et seq.), 29 CFR 200 E.O. 9837.

The information you give in this census or to teams under this program is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are paid for by the government or to ensure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal programs that require other third parties to pay primary to Federal programs and as otherwise necessary to administer these programs. For example it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the source modifying system No. 09-70-0301, titled, 'Cancer Medicare Claims Record,' published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept 12, 1980, it is updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb 28, 1990, Sac E34-5, E34-6, E34-12, F34-13, E54-30, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/benefits received are justified by law.

ROUTINE USES: To obtain claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Defense for representation of the Secretary of Defense in civil cases; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recovery of claims; and to Congressional Offices in response to inquiries made at the request of the person to whom the information applies. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individuals, providers of care, or matters relating to entitlement, claims adjudication, issues program areas, utilization review, quality assurance, peer review, program integrity, third-party audits, construction of benefit, and civil and criminal liability related to the operation of TRICARE.

DISCLOSURE: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under this program for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information might TEFCA could be delayed or denied.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1129B of the Social Security Act and 31 USC 380-i-3812 provide penalties for withholding this information.

You should file a claim for P.L. 404-509, the "Consumer Protection and Disaster Protection Act of 1988," against the power company for any information it receives of wrongdoing matches.

NONCASH PAYMENT METHODS CERTIFICATION

I hereby agree to keep confidential - as necessary to do - the full extent of services provided to individuals under the State's Title XXI plan and to furnish information or records my agents or clients for rendering such services as the State Attorney or Dept. of Health and Human Services may request.

I further agree to notify the insurance company if I receive a medical program for my claim submitted or payment under this program with the exception of authorized reductions, discounts, co-payments or fees as defined in this plan.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above are medically indicated and necessary to the health of the patient and were previously furnished by me or my employee under my personal direction.

NOTICE: This is costly but the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or representations, or overstatement of a material fact, may be prosecuted under applicable Federal or State laws.

Accruing fee for Information collection is \$11.00, no person is required to respond to a collection of information unless it does not cost a valid DMV citizen member. The valid DMV citizen member shall submit the DMV citizen member's name, address, mailing date information, gather the data materials, and complete and review the information collection. If you have any comment, concern, or question regarding the form, please call us at: 800-750-0000, County Boulevard, ATM FPA Records Office, Mail Stop C-03, Hollywood, Maryland.

SIGNED 08162016 DATE 1235256546																

Encounter dated 08/05/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/16/2016

extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 3/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* worse. *since last visit at PT after the tried to stretch my lower back.* *Pain:* sharp, shooting, tingling, numb. *Range:* 6->7/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: WNL 50/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: WNL 80/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* all upper extremity musculature (C5-T1) were WNL and graded 5/5. *Hypertonicity & Tenderness* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Orthopedic tests:* maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by motion and static palpation.*

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 46/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 20/30 with pain lower back; right rotation: WNL 30/30 with pain lower back; left lateral bending: WNL 25/25 with pain lower back; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Tenderness & Hypertonicity* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain;

Encounter dated 08/05/2016 for Danielle Harwell #3438

DOB:08/29/1980 Today's date: 08/16/2016

Straight leg raise: Positive left at 30 degrees for lower back pain; Well leg raise: Positive right at 60 degrees for lower back pain; Bechterew: Positive left for left lower back pain; Minor's sign: Negative; Slump Test: Positive bilateral for lower back pain; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s): L4, L5, Left SI.*
Subluxations detected by: motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: unchanged. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. *Thoracic assessment:* unchanged.

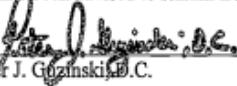

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 7 weeks; Re-examination for 7 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 extension restriction (diversified prone); T7 extension restriction (diversified prone); T8 extension restriction (diversified prone); T9 extension restriction (diversified prone); L4 extension restriction (manual traction); L5 extension restriction (manual traction); SI right PI (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform

Encounter dated 08/05/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/16/2016

standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / Camel stretches 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform single knee to chest exercises 3 sets of 10 daily hold 10 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to August 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Monday July 25, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that her neck pain remains sore. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 3/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also has headaches since the accidents. The headaches are back to every other day. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences less dizziness since last visit. *Recent medical treatment for this condition:* Massage therapy; Physical therapy. *Changes in past medical history:* None.

Thoracic: Patient stated that her middle back pain remains the same. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* Massage Therapy.

Lumbar/Sacral/Pelvis: Patient stated that "the adjustment last time helped. I was able to sit longer with less pain. However the pain continues to shoot down my left leg". *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* improving. *since last visit.* *Pain:* achy, dull, shooting, tingling, numb. *Range:* 6->7/10. *Pain is frequent.* *Pain radiates to:* bilateral posterior thighs and legs. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* Massage therapy. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: 45/50 with pain neck and upper back; extension: WNL 60/60 with pain

Encounter dated 07/25/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/16/2016

neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: 70/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** left lateral compression: Positive lower neck mostly to the left; right lateral compression: Positive lower neck mostly to the left; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 50/60 with no pain; extension: 10/25 with pain lower back; left rotation: WNL 30/30 with pain lower back; right rotation: WNL 30/30 with no pain; left lateral bending: WNL 25/25 with no pain; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal bilateral severe; TFL / ITB left moderate to severe; piriformis muscle(s) left severe. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 60 degrees for lower back pain; Well leg raise: Positive right at 70 degrees; Bechterew: Positive left for left lower back pain; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** unchanged.

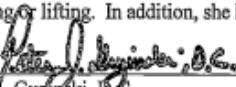

Lumbar assessment: slight improvement since last treatment. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with

Encounter dated 07/25/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/16/2016

central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 4 weeks; Re-examination for 4 weeks. *Subluxations found on assessment and adjusted:* C5 left (Instrument adjustment Arthrostim); C6 left (Instrument adjustment Arthrostim); T2 left (diversified prone); T3 left (diversified prone); T6 (anterior); T7 (anterior); T8 (diversified prone); T9 (diversified prone); L4 extension restriction (manual traction); L5 extension restriction (manual traction); Left SI left (prone mobilization). *Physical Modalities:* bilateral cervical cold therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar cold therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy; left piriformis myofascial release. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / Camel stretches 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform single knee to chest exercises 3 sets of 10 daily hold 10 sec. *Home care:* ice: lumbar 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to August 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Gajewski, D.C.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Friday July 29, 2016 Provider: Peter Guzinski DC RE-EXAM

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Accident Description: *Date of Accident:* October 31, 2015. *Time of Accident:* 4:55 PM. *Narrative Description of Accident:* Patient stated that she was stopped in traffic, while waiting for a truck to make a left hand turn into a driveway, when she was rear impacted. She stated that accident occurred while she was traveling South on Starin in the City of Buffalo, New York. Mrs Harwell, stated that this was a chain reaction accident. The vehicle that was behind her was also stopped and was pushed into her vehicle by an automobile that rear impacted them. *Patient Seatbelted?* Yes. *Position in vehicle driver.* *Patient Position at Impact:* looking straight ahead. *Impact Point of Patient's Car:* rear. *Brakes On At Time of Impact?* Yes. *Airbags Deployed?* No. *Did The Patient's Seat Break?* No. *Impact With Car Interior?* seatbelt left chest; headrest back head. *Patient's Vehicle Type:* Honda Odyssey 2007. *Type of Other Vehicle:* Honda CRV 2015. *Road Conditions At Time of Accident:* dry. *Was There Loss of Consciousness?* no. *What Symptoms Were Immediately Present?* Patient stated that she was experiencing head, neck, back and left shoulder and arm pain.

Cervical: Patient presented today with the continued chief complaint of neck pain. Due to the pain, she can only lift very light weights, she has slight headaches which come frequently, she cannot do her usual work, she has a fair degree of difficulty concentrating and her normal sleep has been moderately disturbed (2-3 hrs. sleepless). *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* improving, since onset. *Pain:* achy, dull, tingling, shooting, numb; level: 2/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Cervical Disability Index:* 42%. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* improving, since onset. *Pain:* achy, dull, shooting; level: 3/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing.

Encounter dated 07/29/2016 for Danielle Harwell #3438
 DOB:08/29/1980 Today's date: 08/16/2016

Numbness: none. Weakness: none. Oswestry score: 68%. Recent medical treatment for this condition: None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. Due to the pain, she can only lift very light weights, she is unable to walk greater than 1/4 of a mile, she is unable to sit greater than 30 minutes, she is unable to stand greater than 10 minutes, she is unable to travel on journeys greater than 30 minutes and she is only able to sleep comfortably for 6 hours. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* getting worse. *since last few weeks.* *Pain:* sharp, shooting, tingling, numb; level: 7/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *OSWESTRY Disability Index:* 68%. *The Keele STarT Back Screening Tool:* Medium risk. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Activity of Daily Living Form Bathing/Showering: mild impairment; Bending forward/backward: moderate impairment; Brushing teeth: mild impairment; Driving: moderate impairment; Drying Hair: moderate impairment; Household chores: moderate impairment; Laundry: moderate impairment; Lifting less than 10 lbs: moderate impairment; Lifting more than 10 lbs: severe impairment; Kneeling: moderate impairment; Making Meals: moderate impairment; Prolonged Sitting more than 30 minutes: moderate impairment; Putting pants on: mild impairment; Putting shoes/socks on: moderate impairment; Reaching above the shoulders: mild impairment; Restful night's sleep: mild impairment; Seated to standing position: moderate impairment; Sexual activity: severe impairment; Standing: severe impairment; Squatting: moderate impairment; Tying shoes: moderate impairment; Using lavatory: moderate impairment; Walking: moderate impairment.

Objective

Cervical: *Range of motion:* flexion: WNL 50/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: WNL 80/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. *Posture:* forward head carriage; rounded shoulders. *Strength:* all upper extremity musculature (C5-T1) were WNL and graded 5/5. *Sensation:* all upper extremity sensory exams (C5-T1) were WNL to Pin prick. *Hypertonicity & Tenderness:* Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. *Trigger points:* left levator scapulae, bilateral upper trapezius. *Reflexes:* bilateral upper extremity reflexes (C5, C6, C7) 2+. *Orthopedic tests:* left lateral compression: Negative; right lateral compression: Negative; maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left; Spinal Percussion C1-C7: Negative; left shoulder depression: Negative; right shoulder depression: Negative; neutral cervical compression: Negative; hyperextension cervical compression: Negative. *X-ray findings:* Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. *Spinal subluxation level(s):* C5, C6. *Subluxations detected by:* motion and static palpation.

Thoracic: *Hypertonicity & Tenderness:* Thoracic paraspinal musculature Bilateral Moderate. *Trigger points:* bilateral rhomboids. *Orthopedic tests:* Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. *Spinal subluxation level(s):* T2, T3, T6, T7, T8, T9. *Subluxations detected by:* motion and static palpation.

Encounter dated 07/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/16/2016

Lumbar/Sacral/Pelvis: *Range of motion:* flexion: 46/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 20/30 with pain lower back; right rotation: WNL 30/30 with pain lower back; left lateral bending: WNL 25/25 with pain lower back; right lateral bending: WNL 25/25 with pain lower back. *Heel to toe walking:* WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Sensation:* all lower extremity sensory exams (L1-S1) were WNL to Pin prick. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Reflexes:* bilateral lower extremity reflexes (L4 and S1) 2+. *Orthopedic tests:* Patrick's Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 30 degrees for lower back pain; Well leg raise: Positive right at 60 degrees for lower back pain; Bechterew: Positive left for left lower back pain; Minor's sign: Negative; Slump Test: Positive bilateral for lower back pain; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Cervical assessment: Based on the current history and examination results, I professionally feel that their current symptoms are causally related to the MVA sustained on October 31, 2015. Since her last re-evaluation on May 26, 2016 her VAS score improved from a 3 to 2 out of 10 and her headaches are no longer as frequent or intense. In addition, her active left cervical cervical flexion improved from 45 to 50 degrees and right rotation improved from 70 to 80 degrees. Further chiropractic treatment is medically necessary to decrease pain and improve function especially with her ability to perform her ADL. **Diagnosis:** M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** unchanged.

Lumbar assessment: Mrs. Harwell's lower back condition has been more intense for the past few weeks. She denies any new injuries, accidents or trauma. Due to the pain, she has noticed increased difficulty with walking, sitting, standing, sleeping and traveling. In addition, her active lumbar flexion is now painful and limited at 45 instead of 60 degrees and left rotation at 20 instead of 30 degrees. Further treatment is medically necessary to help improve her active lumbar ROM and improve her ability to reach, sit, stand, sleep, walk and lift with less pain. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural

Encounter dated 07/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/16/2016

foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 8 weeks; Re-examination for 8 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 extension restriction (diversified prone); T7 extension restriction (diversified prone); T8 extension restriction (diversified prone); T9 extension restriction (diversified prone); L4 left (manual traction); L5 left (manual traction); SI right PI (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / Camel stretches 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform single knee to chest exercises 3 sets of 10 daily hold 10 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and/or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to August 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, DC.

Friday August 5, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient presented today with the continued chief complaint of neck pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 3/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper

REGISTRATION OF RECORDS OF SYSTEMS OF INFORMATION

PORT TRAILER 40' X 10' PORTABLE PURPOSES IS TO UTILIZE AVAILABLE TO FACILITATE EASY HANDLING AND TRANSPORTATION OF CONCRETE PAVING MATERIALS.

DODTRINEL U-16a: Information item cited in this document may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation in connection with statutory administrative responsibilities under FAR-REG-CHAR-PUB-10. Report of Abuse: for re-examination at the Secretary of Defense in our efforts to implement Revenue Drivers, private collection agencies, and consumer reporting agencies in connection with reparation claims; and to Congressional Offices in response to inquiries made at the request of the person in whose behalf a complaint has been filed. Appropriate disclosures may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care or medical services to individuals, data educators, fraud, program abuse, utilization review, quality assurance, case review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE: However, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for failure to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of PEDA or could void this program. Failure to furnish any other information, such as names or claim number, would delay payment of the claim. Failure to provide medical documentation

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provides penalties for withholding this information.

You should be aware that P.L. 109-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matching.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary in dispute fully true and correct to individual under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

The third metric is cost, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, copayments or similar cost-sharing amounts.

SIGNATURES OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that no-false claims laws apply to this application.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1997. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data sources within the data needed, and complete and review the information collection if you have any comments concerning the content of the form at 21214 1050. Any comments or suggestions for improving this form please write to: CMS, 7500 Rockville Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-08-05, Baltimore, Maryland 21214-1050. The address is for comments and/or suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

August 23, 2016

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Tuesday August 16, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that her neck pain has been more intense with headaches. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* slightly worse. *since last visit.* *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* worse. *since last visit.* *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activities of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. She stated that her physical therapist attempted traction which aggravated her lower back. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* worse. *since after PT.* *Pain:* sharp, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: WNL 50/50 with pain neck and upper back; extension: WNL 60/60 with

**Encounter dated 08/16/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 08/23/2016**

pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: WNL 80/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 46/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 20/30 with pain lower back; right rotation: WNL 30/30 with pain lower back; left lateral bending: WNL 25/25 with pain lower back; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 30 degrees for lower back pain; Well leg raise: Positive right at 60 degrees for lower back pain; Bechterew: Positive left for left lower back pain; Minor's sign: Negative; Slump Test: Positive bilateral for lower back pain; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine).

Cervical assessment: mild exacerbation of symptoms, continue with current treatment plan. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** worse.

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2

Encounter dated 08/16/2016 for Danielle Harwell #3438

DOB:08/29/1980 Today's date: 08/23/2016

shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 6 weeks; Re-examination for 6 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 extension restriction (diversified prone); T7 extension restriction (diversified prone); T8 extension restriction (diversified prone); T9 extension restriction (diversified prone); L4 extension restriction (manual traction); L5 extension restriction (manual traction); SI right PI (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapula trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / Camel stretches 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform single knee to chest exercises 3 sets of 10 daily hold 10 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to August 31, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, D.C.

THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS. SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a crime and punishable under Title 18 and may be subject to civil penalties.

REVISER TO GOVERNMENT PROGRAMS ONLY

TRICARE AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of my information necessary to process the claim and certifies that: (a) the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and/or dental information and whether the person has employer group health insurance, liability, no-fault, workers' compensation or other insurance which is responsible to pay for the services; (b) to whom the healthcare claim is made. See 42 CFR 411.2(a). If item 8 is completed, the patient's signature authorizes release of the information to the health plan or agency shown in it, whom assigned or (TRICARE prime) in other cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE fiscal intermediary as the full charge and TRICARE is responsible only for the healthcare component and non-covered services. Consurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE fiscal intermediary if this is to whom the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain afflictions.

BLACK LUNG AND FELCA CLAIMS

I, the provider, agree to recall the claim(s) presented by the Government as provided in full. See Black Lung and FELCA instructions regarding required procedure and diagnosis coding systems.

STATEMENT OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FELCA, AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: (1) the information on this form is true, accurate and complete; (2) I have familiarized myself with all applicable laws, regulations, and program instructions which are available from the Medicare contractor; (3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; (4) this claim submission, submitted by me or on my behalf by my designated billing company, complies with all applicable laws, regulations, and program instructions for payment including but not limited to the Federal Anti-Kickback statute and Physician Self-Referral law (commonly known as Stark's law); (5) my services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employer under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; (6) my care services rendered incident to my professional service by my employer under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; (7) services to be considered "incident" to my professional service, (a) must be rendered under the physician's direct supervision or by his/her employee; (8) they may be an integral, although indefinite, part of a covered physician's service; (9) they must be of benefit commonly rendered in physician's offices; and (10) the services of non-physicians must be indicated on the physician's bill.

For TRICARE claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 5336). For Black Lung claims, I further certify that the services performed were not for Black Lung-related disorders.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 440.32).

NOTICE: Any one item on this form which is false or misleading information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FELCA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE, and OMB to collect information needed in the administration of the Medicare, TRICARE, FELCA, and Black Lung programs. Authority to collect information is in section 206(b), 1402, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 49 CFR 50.6 (6), and 44 USC 3101, 41 CFR 101 et seq and 101 USC 1402, 1403 and 101 USC 3101 et seq, and 30 USC 301 et seq, 38 USC 6101 et seq, E.O. 13377.

The information we obtain is used to administer these programs in order to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be used to provide procedures of review, review, enforcement, medical review boards, health plans, and other representations or Federal agencies, for the effective administration of Federal programs, in that, in our other law, we have authority to pay primary in Federal programs and as of now we are authorized to administer these programs. For example, it may be necessary to disclose information about the benefits you have used as a hospital or doctor. Additional disclosures are made through notices sent for information contained in systems of records.

FOR MEDICARE CLAIMS: See the unique identifying system (RIN 09-07-0801, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37579, Wed. Sept. 17, 1990, as updated and republished).

FOR OMB CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28 1990. See ESA-5, ESA-6, FSA-12, FSA-15, ESA-17, as updated and republished.

FOR TRICARE CLM/BLS/PRI/PL, PUP/FORLs: To maintain "ability for medical care provided by civilian service," and to receive payment upon re-enrollment of eligibility and enrollment for the service, prior to and after the authorizing law.

ROUTINE USES: Information from this form and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation under their authority and in accordance with applicable laws under the TRICARE/CHAMPVA; to the Dept. of Justice in representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection contractors, and contractor reporting agencies in connection with nonpayment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers or carriers on matters relating to entitlement, claims adjudication, audit, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, classification of benefits, and civil and criminal litigation arising from the operation of TRICARE.

RIGHTS/REDRESS: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under those programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under those programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FELCA could be deemed a violation.

If it is mandatory that you tell us if you know that another party is responsible for paying for your treatment, Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding my payments claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, on payment of the amount paid by the Medicaid program for these claims submitted for payment under this program, with the exception of non-medical/dental, non-emergency, non-hospital or non-nursing care charges.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: It is illegal to conceal the foregoing information in this, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claim, statement, document, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete the information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate or if you experience any difficulty in completing this information collection, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-28-05 Baltimore, Maryland 21244-1840. Your comments and suggestions are welcome.

PATIENT AND INSURED INFORMATION

PHYSICIAN OR SUPPLIER INFORMATION

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement or claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal offense. Misleading claims are subject to civil penalties.

ISSN 1062-1024 • 100-200-15-033

TRICARE (MC 100-1) is the military health program designed to help all members of the armed forces and their dependents, as well as their spouses, to receive medical care and services. In the case of a member of the armed forces, the spouse is entitled to receive care and services under TRICARE. The spouse is entitled to receive care and services under TRICARE if he or she is a dependent of a member of the armed forces, as well as a dependent of a member of the armed forces' spouse. The spouse is entitled to receive care and services under TRICARE if he or she is a dependent of a member of the armed forces' spouse, as well as a dependent of a member of the armed forces' spouse's spouse.

The author would like to thank Dr. Michael J. Lafferty and Dr. Michael J. T. Smith for their comments on this paper.

THE VITRIOL OF THE "PUNCH" OF FRENCH MEDICAL, LITERARY, POLITICAL AND SOCIAL LIFE.

In accordance with the above, I have attached my own statement of witness. Please note that I am not a medical professional and I do not practice law. So I have provided an informed and informed opinion as to what I believe to be the facts of this case. I have also provided a copy of my medical records and my prescription history, complete with all my medications and brands and their respective dates of prescriptions. I hope this will be helpful to you in your investigation. I am a retired law enforcement officer and I have no personal animosity towards anyone. I am writing this to my attorney, Mr. John S. Rutherford, Esq., of the firm of S. Rutherford & Associates, Inc., 1000 Peachtree Street, N.E., Atlanta, Georgia 30309, who has been retained by me to represent me in this matter. I am enclosing a copy of my medical records and my prescription history, complete with all my medications and brands and their respective dates of prescriptions. I hope this will be helpful to you in your investigation. I am writing this to my attorney, Mr. John S. Rutherford, Esq., of the firm of S. Rutherford & Associates, Inc., 1000 Peachtree Street, N.E., Atlanta, Georgia 30309, who has been retained by me to represent me in this matter.

For TRICARE plan B members living in the United States, the deductible is waived for the first 30 days monthly. Under TRICARE or a civilian employee of the United States Government, you are entitled to military pay (up to \$ 600.00) for dual-eligibility. If you are only dual-eligible, you will receive a flat rate of \$ 300.00 per month.

NOV 19 1967 BY THE SECRETARY OF DEFENSE TO THE CHIEF OF STAFF, AND FOR APPROVAL OF THE FORM AND USE OF WHICH HE MAY BE ADVISED OF THE INFORMATION CONTAINED THEREIN.

[NOTICES TO PATIENTS / REPORTS OF COMPLAINT AND USE OF MEDICINES, PAYMENT STATE, AND BLACK SLUG INFORMATION \(PRIVACY / CY STATEMENT\)](#)

We are authorized by CMS TRICARE and D-ASP to pay for information and services in the treatment of the following: TRICARE PEBs, and Brief, Long stays inpatients. Both our facilities are Medicare certified and have been rated at 100% for the past 10 years. We are also a member of the County Sheriff's Health Services (CSHS) and are licensed by the State of Florida (LIC# 211-2010) and #D-101, and #ACU 310145. Our 101 bed hospital is located at 10100 N. 10th Street, Suite 101, Fort Lauderdale, FL 33309.

The information given is general and does not apply to all programs. It is up to you to know your rights and to determine if the services are appropriate for you.

The same sentence is repeated in the following form: "In the U.S., it is illegal to import, sell, or possess certain controlled substances, including LSD, mescaline, psilocybin, and other hallucinogens. It is also illegal to import, sell, or possess marijuanna, hashish, hash oil, and other cannabis products. It is illegal to import, sell, or possess any controlled substance without a license from the U.S. Drug Enforcement Agency." In this sentence, the word "it" is used twice, which is incorrect. The first "it" refers to the importation of controlled substances, while the second "it" refers to the importation of marijuanna, hashish, hash oil, and other cannabis products. This creates a logical inconsistency.

PPB/PFOC/DR/CL/HC/G: See the notice issued by the No. 10-330701, incl. Carter ID and the Clerks Record "published in the Federal Register, Vol. 83 (A), 177 on 30/04/2018, incl. 14450, is considered valid and reliable."

DOI-2019-OIAR-0000; Department of the Interior, Privacy Act, 17 CFR, Regulation of the Office of Systems of records - Federal Register Vol. 85 No. 40, 10th Feb. 28, 1993, GPO E-344-F, GPO-1993-02-28-18-180, or [www.fdsys.gov](#) and regulations.

PRACTICE UPDATES: Information about new and relevant documents may be given to the Dept. of Health by the Dir. of Health and Human Services and/or the Dept. of Transportation.

However, GAO's audit, dated 2004, and our review regarding operations in connection with immigration reform, and its Congressional Office is required to evaluate and report the results of the reform, submit a report to Congress. The suggested directives may be used by other entities, state, local, foreign government agencies, private business entities, and industrial providers of care, on a regular basis, to validate claim submission, from providers to a jurisdiction, ensure quality assurance prior review, program integrity, standards, liability, accountability, benefits, and evaluate medical treatment related to the operation of TRICARE.

benefits or expenses. However, failure to timely provide documentation can result in delay in payment of my claim in addition to the costs associated therewith. Please note that failure to timely provide the requested information may result in denial of my claim. However, failure to furnish information required by the medical carriers affiliated with the amount of my claim would result in payment of claims within 10 days of receipt. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under UCA 11A-100-1002 may result in denial of my claim.

It is important that you tell us if you believe that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act, and 31 U.S.C. 3801-3812 provide generally for refunding the information.

You should be aware that Title I of the Computer Misuse and Privacy Protection Act of 1988, permits the government to verify information by way of computer matches.

MEDICARE PAYMENT PROVIDER CERTIFICATION

I hereby affirm I am a drop out from school, am incapable of finding full time employment, I am entitled to income support under the State's Title XIX plan and to furnish information concerning any payment claimed for providing such services as the State Agency or Dept. of Health and Human Services may request.

Others are offered on a payment basis. The amount paid by the Member is spent in their home country for payment to the company, and the cost of the service is usually deducted from the amount paid.

SIGNATURES OF PHYSICIANS (OR SUBSTITUTED BY THE PATIENT) (If applicable) I certify that the services rendered above were medically indicated and necessary to the health of this patient and were reasonably performed by me or my medical assistants myself or my associates.

NOTICE: This form may request personal information that is protected by law and cannot be disclosed. Any award of this payment and collection of this claim will be from Federal and State funds provided by the U.S. Government. If you are a citizen or subject of a foreign nation, this may be pursued under applicable Federal or State laws.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS

NOTICE: Any person who knowingly files a statement of claim containing any false representation or any false, incomplete or misleading information may be guilty of a criminal offence punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENT. A Medicare beneficiary accepts that payment will be made and authorizes release of any information necessary to process his claim and certifies that the information provided in Schedule 1 is true, accurate and complete. In the case of a Medicare claim, the patient is **unconditionally** authorized any entity to release all healthcare medical and non-medical information and history. If he or she is a employer group health plan member, liability, including, but not limited to, liability for claims filed by or other insurance, such as workers compensation, shall be apportioned to pay for the services. If he or she is a dependent, Schedule 2 (TRICARE enrollment) shall be used. The recipient, **unconditionally** authorizes the release of any information to the health plan company shown in Schedule 1. For TRICARE enrollment, the physician agrees to accept the claims documents of the subscriber named on TRICARE enrollment, as detailed above, and the patient is responsible for any additional charges incurred and not covered by insurance. Communication and the exchange of information between the physician and/or TRICARE enrollment, and the patient, shall be in line on legal terms. TRICARE enrollment may not have health status, age, preexisting conditions or payment for health benefits provided through enrollment in Medicare. Unclaimed Storage. Information on the patient's account may be used in the name listed on it. Instead, if no one is listed, items 1, 5, 6, 7, 8, 9 and 11,

PLACE LIVID AND RECA CLEANS...

The new code changes to the National Coding Classification system will affect all ICD-9-CM codes used in the ICD-9-CM for Hospitals, Vol. 1, Tabular List. See Box 1 for a listing of the ICD-9-CM codes affected by the changes.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNCH)

In submitting this claim to payment from federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have furnished myself with all applicable law, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare, and/or Medicaid laws, regulations, and program instructions for payments including but not limited to the Federal anti-kickback statute and Physician Self-Referral law (commonly known as Stark Law); the services on this form are medically necessary and reasonably furnished by me or were furnished incident to my professional services by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 5) for each service rendered incident to my professional service, the entity (legal name and NPI, license # or SSN) of the physician individual rendering such service is reported as the designated provider for services to be considered "incident to" a physician's professional services; 6) they must be rendered under the physician's direct supervision by health care employee, 2) they must be an integral, although incidental part of a covered physician service; 6) they must be of kinds commonly furnished in physician's offices, and 7) the services of non-physician must be included in the physician's bill.

For THICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contractor employee of the United States Government (other civilian or military (relief to 5 USC 6508). If I make Long claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by costing law and regulations (42 CFR 421.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PAIENH: ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and QWCP to ask you for information needed in the administration of the Medicare, TRICARE, PPOA, and Black Lung programs. Authority to collect information is under section 205(g), 102-1802 and 1804 of the Social Security Act as amended, 42 CFR 411.24(a) and 428.4(a) (6), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1079 and 1080, 5 U.S.C. 801(c) seq., and 39 USC 601 et seq., 39 USC 616; & D.O. 9897

The information you obtain in completing claim forms for these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to monitor proper payment methods.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans and other organizations, or Federal agencies, for the sole purpose of Federal programs, that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the location you have used to a hospital or doctor. Additionally, disclosures are made through routine use; for information contained in systems of record.

FOR MEDICARE CLAIMS: See the notice modifying system No. 00-70-0501, titled, "Corner Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1989, or as updated and republished.

FOR OWCP CLAIMS: Depiction of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 65 No. 40, Wed Feb 26, 1990, See ESA-6, ESA-6, ESA-12, ESI-13, ESI-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPAL PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services requested are authorized by law.

ROIA-MS (RFR-1) Information, claim status and .pdf documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities; under TRICARE-CHAMPVA to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting bureaus in connection with nonpayment claims; and to Congressional Offices in response to inquiries made of the recipient of the premium to which it paid postpaid. Appropriate notices may be made to other federal, state, local, foreign government agencies, private businesses, entities, and individual providers, or car, in matters relating to entitlement, claim adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, provider enrollment, and medical necessity related to the recipient of TRICARE.

INSCOLA/SUMIT: **Y**ourself, **Lawyer, **T**hird party, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties, user fees or other charges for refusing to supply information. However, failure to furnish information regarding the medical services furnished or the amount charged would prevent payment of claim under the program. Failure to furnish any other information, such as name or driver number, would delay payment of the claim. Failure to provide medical information required by LATA could result in denial of payment.**

It is mandatory that you tell us if you know that another party is in your state for payment for your medical care. Section 11203 of the Social Security Act and HHS 0001-1812 provide penalties for withholding this information.

You should be aware that P.L. 800-973 (or "Corporation Profits and Privacy Protection Act of 1993"), requires the government to verify information by way of cross-examination.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such information, as necessary to disclose fully for work (as covered) performed in InterimCare, under the State's Train XIX plan and to furnish information regarding any payment received for providing such services, to the State Agency or Dept. of Health and Human Services as may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under this program, with the exception of authorized deductible, co-insurance, or payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR CUPPLER): I certify that the services listed above were reasonably indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State Laws.

According to the Partnership Resolution #1 of 1993, no partners are required to respond to a collection of information unless it displays a valid CmB control number. The valid CmB control number for this information collection is 0820-1597. The firm required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data, etc., and complete and return the information collection. If you have any comments concerning the accuracy or the burden of this collection of information, please send them to: CARS, 2025 St. Scotty Beauk Blvd., Altamonte Springs, FL 32714-3169. This notice is for accounting purposes only.

PATIENT AND INSURED INFORMATION

PHYSICIAN OR SUPPLIER INFORMATION

09 09 16

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a federal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICAID AND TRICARE PAYMENTS. A patient's signature requires that payment be made and authorizes release of any information necessary to process the claim and certifies that all information provided in block 1 through 12 is true, accurate and complete. In the case of a Medicaid claim, the patient's signature authorizes any entity to release to Medicaid medical and/or financial information and whether the person has employer group health insurance, health, no-fault, worker's compensation or other insurance which is responsible to pay for the services which the Medicare claim relates to. See 42 CFR 411.2(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency whose health care assigned or TRICARE participation plan, the physician agrees to accept the change of assignment of the Medicare claim or TRICARE claim if assigned by the 1st charge and 1st provider is responsible only for its deductible, co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the Medicaid claim or TRICARE local intermediary. If the loss is then the 2nd charge, TRICARE is not a health insurance program but makes payment for health benefits provided through certain institutions to the Uniform Service. Information on the patient's status should be provided in those areas captioned in "Insured", i.e., Items 4, 5, 7, 9, and 11.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding -systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICAID, TRICARE, FECA AND BLACK LUNG)

I, submitting this claim for payment from [redacted] funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the government to waive an informed consignment and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicaid and/or Medicare laws, regulations, and program instructions for payment including but not limited to the Federal Anti-kickback statute and Physician Self-Referral law (commonly known as Stark law); 5) the services on the form are medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicaid or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering such service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 7) they must be rendered under the physician's direction, supervision by his/her employee, 8) they must be an integral, although incidental part of a covered physician service; 9) they must be of kinds commonly furnished in physician's offices, and 10) the names of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 6 USC 5530). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefit may be paid unless this form is received as required by existing law and regulations (42 CFR 424.38).

NOTICE: Any person who misrepresents or falsifies or omits information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal law.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OIG to ask you for information needed in the administration of the Medicare, TRICARE, FECA and Black Lung programs. Authority to collect information is in section 205(g), 1829, 1832 and 1874 of the Social Security Act as amended, 42 CFR 411.2(a) and 491.5(a)(6), and 44 USC 3101-101 et seq and 10 USC 1079 and 1088. 4 USC 8101 et seq. and 30 USC 901 et seq. 38 USC 613; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, clinics, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties to pay primary to Federal program, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 00-70-0501, titled, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, or as updated and republished.

FOR OWCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See ESA-6, ESA-6, ESA-12, ESA-18, ESA-20, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S). To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the service(s)/impairment(s) named are authorized by law.

ROUTINE USE(S): Information from claim and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory/administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service; private collection agencies; and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other Federal, state, local, foreign government agencies, private business entities, and individual providers of care, for matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

NON-COBRA: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services to the State Agency or Dept. of Health and Human Services may request.

I further agree to furnish an amount in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-payment, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-25-05, Baltimore, Maryland 21204-1700. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Patient: Danielle Harwell #3438 DOB: 08/29/1980
Policy ID: 013873940011059

Friday August 26, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that her neck pain and headaches continue. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior neck pain:* none. *Changes in this condition:* no change. since last visit. *Pain:* achy, dull, tingling, shooting, numb; level: 5/10. *Pain is frequent.* *Pain radiates to:* left upper extremity. *Exacerbates symptoms:* movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. *Alleviates symptoms:* nothing. *Numbness:* left upper extremity. *Weakness:* left upper extremity. *Recent infection or fever:* No. *Night sweats or pain:* No. *Headaches:* Patient stated that she also had headaches since the accidents. The headaches are now 2-3 x a week. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior thoracic pain:* none. *Changes in this condition:* no change. since last visit. *Pain:* achy, dull, shooting; level: 5/10. *Pain is occasional.* *Exacerbates symptoms:* movement; bending; lifting; activites of daily living; reaching; activities of daily living. *Alleviates symptoms:* nothing. *Numbness:* none. *Weakness:* none. *Recent medical treatment for this condition:* None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. *Onset:* October 31, 2015. *Cause of symptoms:* MVA, rear impact. *Prior low back pain:* none. *Changes in this condition:* no change. since last visit. *Pain:* sharp, shooting, tingling, numb; level: 5/10. *Pain is constant.* *Pain radiates to:* left posterior thigh and leg. *Exacerbates symptoms:* driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. *Alleviates symptoms:* nothing. *Numbness:* left foot. *Weakness:* none. *Bowel or bladder incontinence:* No. *Recent infection or fever:* No. *Night sweats or pain:* No. *Recent medical treatment for this condition:* None. *Changes in past medical history:* None.

Objective

Cervical: *Range of motion:* flexion: WNL 50/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: WNL 80/80 with

**Encounter dated 08/26/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 09/07/2016**

pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** forward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness:** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness:** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppelman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by:** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 46/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 20/30 with pain lower back; right rotation: WNL 30/30 with pain lower back; left lateral bending: WNL 25/25 with pain lower back; right lateral bending: WNL 25/25 with pain lower back. **Heel to toe walking:** WNL. **Gait pattern:** normal. **Strength:** all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. **Tenderness & Hypertonicity:** lumbar paraspinal left moderate to severe; TFL / ITB left moderate to severe; lumbar paraspinal right moderate. **Tenderness on palpation:** left SI: moderate to severe. **Trigger points:** left gluteus maximus. **Orthopedic tests:** Patrick's Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 30 degrees for lower back pain; Well leg raise: Positive right at 60 degrees for lower back pain; Bechterew: Positive left for left lower back pain; Minor's sign: Negative; Slump Test: Positive bilateral for lower back pain; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. **Spinal subluxation level(s):** L4, L5, Left SI. **Subluxations detected by:** motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). **Cervical assessment:** unchanged. **Prognosis:** Guarded. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. **Thoracic assessment:** worse.

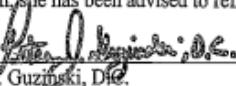

Lumbar assessment: unchanged. **Post-treatment analysis:** patient tolerated treatment without incident. **Set backs:** Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation)

Encounter dated 08/26/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 09/07/2016

with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 5 weeks; Re-examination for 5 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 extension restriction (diversified prone); T7 extension restriction (diversified prone); T8 extension restriction (diversified prone); T9 extension restriction (diversified prone); L4 extension restriction (manual traction); L5 extension restriction (manual traction); SI right PI (prone mobilization). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left levator scapulae trigger point therapy; left rhomboid trigger point therapy. *Patient given:* home exercise program: advised patient to perform active cervical rotation exercises 3 sets of 10 daily; home exercise program: advised patient to perform nerve glide exercises 3 sets of 10 daily; home exercise program: advised patient to perform chin tucks 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform standing extension exercises 3 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform CAT / Camel stretches 2 sets of 10 daily hold 5 sec; home exercise program: advised patient to perform single knee to chest exercises 3 sets of 10 daily hold 10 sec. *Home care:* ice: neck 4x day for 15 to 20 minutes per application for 5 days. *Additional instructions:* Advised patient to monitor for any changes in their symptoms. *Short term goals:* decrease pain; decreased tenderness; decrease hypertonicity; improved ADL; centralize pain; increase ROM; increase spinal mobility; improve the ability to sit, stand and walk longer with less pain; decrease frequency and intensity of headaches; improve the ability to bend with less pain; improve the ability to lift with less pain; improve the ability to sleep longer with less pain. *Long term goals:* decrease pain; able to perform functional activities with less difficulty; educate the patient to be able to perform home exercises to help relieve and or control pain. *Disability status:* Temporary partial starting on November 12, 2015 to September 30, 2016 with the restrictions of no lifting greater than 15lbs and no repetitive bending or lifting. In addition, she has been advised to refrain from reaching above the shoulder.

Peter J. Guzinski, DC

Monday August 29, 2016 Provider: Peter Guzinski DC

Patient presented for initial evaluation on November 12, 2015 for injuries sustained in a MVA on October 31, 2015.

Subjective

Cervical: Patient returned today stating that her neck pain and headaches continue. *Onset:* October 31, 2015.

Encounter dated 08/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 09/07/2016

Cause of symptoms: MVA, rear impact. **Prior neck pain:** none. **Changes in this condition:** no change. since last visit. **Pain:** achy, dull, tingling, shooting, numb; level: 4/10. **Pain is frequent.** **Pain radiates to:** left upper extremity. **Exacerbates symptoms:** movement of neck; driving; lifting; any kind of physical activity; reaching; activities of daily living; performing household chores. **Alleviates symptoms:** nothing. **Numbness:** left upper extremity. **Weakness:** left upper extremity. **Recent infection or fever:** No. **Night sweats or pain:** No. **Headaches:** Patient stated that she also had headaches since the accidents. The headaches are now daily. She states that the duration varies, sometimes they last all day. Nothing alleviates the pain. Patient also stated that she experiences dizziness with the headaches but she no longer experiences nausea. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Thoracic: Patient presented today with the continued chief complaint of middle back pain. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior thoracic pain:** none. **Changes in this condition:** no change. since last visit. **Pain:** achy, dull, shooting; level: 4/10. **Pain is occasional.** **Exacerbates symptoms:** movement; bending; lifting; activites of daily living; reaching; activities of daily living. **Alleviates symptoms:** nothing. **Numbness:** none. **Weakness:** none. **Recent medical treatment for this condition:** None.

Lumbar/Sacral/Pelvis: Patient presented today with the continued chief complaint of lower back pain. **Onset:** October 31, 2015. **Cause of symptoms:** MVA, rear impact. **Prior low back pain:** none. **Changes in this condition:** no change. since last visit. **Pain:** sharp, shooting, tingling, numb; level: 4/10. **Pain is constant.** **Pain radiates to:** left posterior thigh and leg. **Exacerbates symptoms:** driving; lifting; sitting; standing; walking; bending; sit to stand; performing ADL; squatting; reaching; tying shoes; putting pants, socks and shoes on; household chores. **Alleviates symptoms:** nothing. **Numbness:** left foot. **Weakness:** none. **Bowel or bladder incontinence:** No. **Recent infection or fever:** No. **Night sweats or pain:** No. **Recent medical treatment for this condition:** None. **Changes in past medical history:** None.

Objective

Cervical: **Range of motion:** flexion: WNL 50/50 with pain neck and upper back; extension: WNL 60/60 with pain neck and upper back; left rotation: 70/80 with pain neck and upper back; right rotation: WNL 80/80 with pain neck and upper back; left lateral bending: 35/45 with pain neck and upper back; right lateral bending: 35/45 with pain neck and upper back. **Posture:** foward head carriage; rounded shoulders. **Strength:** all upper extremity musculature (C5-T1) were WNL and graded 5/5. **Hypertonicity & Tenderness** Sub-occipital musculature Left Moderate; cervical paraspinal musculature Left Moderate; scalene Left Moderate; sternocleidomastoid Left Moderate; pectoralis minor Left Moderate; cervical paraspinal musculature Right Mild to Moderate. **Trigger points:** left levator scapulae, bilateral upper trapezius. **Orthopedic tests:** maximum left lateral compression: Positive lower neck mostly to the left; maximum right lateral compression: Positive lower neck mostly to the left. **X-ray findings:** Reviewed X-ray results of the chest and cervical spine from Immediate Care performed on November 1, 2015 with the patient. According to the cervical report, there was mild disc space narrowing at C5-C6 with loss of lordosis. The chest film was read as normal. **Spinal subluxation level(s):** C5, C6. **Subluxations detected by:** motion and static palpation.

Thoracic: **Hypertonicity & Tenderness** Thoracic paraspinal musculature Bilateral Moderate. **Trigger points:** bilateral rhomboids. **Orthopedic tests:** Spinal percussion T1-T12: Negative; Sheppleman's: Negative bilateral. **Spinal subluxation level(s):** T2, T3, T6, T7, T8, T9. **Subluxations detected by** motion and static palpation.

Lumbar/Sacral/Pelvis: **Range of motion:** flexion: 46/60 with pain lower back; extension: 10/25 with pain lower back; left rotation: 20/30 with pain lower back; right rotation: WNL 30/30 with pain lower back; left lateral bending: WNL 25/25 with pain lower back; right lateral bending: WNL 25/25 with pain lower back. **Heel**

Encounter dated 08/29/2016 for Danielle Harwell #3438
DOB:08/29/1980 Today's date: 09/07/2016

to toe walking: WNL. *Gait pattern:* normal. *Strength:* all lower extremity motor exams (L1-S1) were WNL bilaterally and graded 5/5. *Tenderness & Hypertonicity:* lumbar paraspinal left moderate; TFL / ITB left moderate; lumbar paraspinal right mild to moderate. *Tenderness on palpation:* left SI: moderate to severe. *Trigger points:* left gluteus maximus. *Orthopedic tests:* Patrick's/Fabere: Positive left for lower back pain; Straight leg raise: Positive left at 30 degrees for lower back pain; Well leg raise: Positive right at 60 degrees for lower back pain; Bechterew: Positive left for left lower back pain; Minor's sign: Negative; Slump Test: Positive bilateral for lower back pain; Spinal Percussion L1-L5: Negative; Femoral nerve stretch test: Negative bilateral; Dejerine's sign: Positive for neck and middle back pain. *Spinal subluxation level(s):* L4, L5, Left SI. *Subluxations detected by:* motion and static palpation.

Assessment

Diagnosis: M50.22 (Other cervical disc displacement, mid-cervical region), M51.26 (Other intervertebral disc displacement, lumbar region), M51.27 (Other intervertebral disc displacement, lumbosacral reg), M54.12 (Radiculopathy, cervical region), S23.3XXA (Sprain of ligaments of thoracic spine, initial encounter), M99.01 (Segmental and somatic dysfunction of cervical region), M99.03 (Segmental and somatic dysfunction of lumbar region), M99.02 (Segmental and somatic dysfunction of thoracic region), M99.05 (Segmental and somatic dysfunction of pelvic region), M54.2 (Cervicalgia), M54.5 (Low back pain), M54.6 (Pain in thoracic spine). *Cervical assessment:* worse with the headaches which are now daily. *Prognosis:* Guarded. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Cervical MRI performed on 01/04/2016 at Buffalo MRI revealed according to the radiologist a C4-C5 shallow central disc extrusion with disc space narrowing and at C5-C6 shallow central disc extrusion which barely flattens the thecal sac.

Differential diagnosis: Thoracic disc herniation. *Thoracic assessment:* unchanged.

Lumbar assessment: unchanged. *Post-treatment analysis:* patient tolerated treatment without incident. *Set backs:* Lumbar MRI performed at Buffalo MRI on 01/04/2016 revealed according to the radiologist a L1-L2 shallow disc bulge, at L3-L4 desiccated disc and disc space narrowing with facet arthropathy and a shallow disc bulge which results in mild canal narrowing, at L4-L5 desiccated disc with central disc protrusion (herniation) with annular tear which impresses upon the thecal sac with ligamentum flavum prominence which results in mild canal stenosis along with bilateral facet arthropathy and underlying annular bulge which results in mild bilateral recess and neural foraminal narrowing as well and at L5-S1 hypertrophic facet changes with desiccated disc and central to left paracentral disc protrusion (herniation) and annular tear which results in mild to moderate left recess and neural foraminal narrowing and mild right neural foraminal and recess narrowing.

Treatment & Plan

Patient treated to: relieve pain, improve ADL, improve function, improve ROM, increase spinal mobility, centralize pain, decrease muscular hypertonicity and tenderness. *Treatment schedule:* 2x/week for 5 weeks; Re-examination for 5 weeks. *Subluxations found on assessment and adjusted:* C5 left lateral flexion restriction (Instrument adjustment Arthrostim); C6 left lateral flexion restriction (Instrument adjustment Arthrostim); T2 left rotation restriction (diversified prone); T3 left rotation restriction (diversified prone); T6 extension restriction (diversified prone); T7 extension restriction (diversified prone); T8 extension restriction (diversified prone); T9 extension restriction (diversified prone); L4 extension restriction (manual traction); L5 extension restriction (manual traction); SI left PI (blocking maneuver). *Physical Modalities:* bilateral cervical heat therapy (15 minutes); bilateral cervical electric muscle stimulation (15 minutes); bilateral lumbar heat therapy (15 minutes); left cervical paraspinal soft tissue massage; left sternocleidomastoid soft tissue massage; left scalene soft tissue massage; left suboccipital soft tissue massage; left thoracic paraspinal soft tissue massage; left lumbar paraspinal soft tissue massage; left TFL / ITB soft tissue massage; left upper trapezius trigger point therapy; left

MONDAY JULY EIGHTH, 2013 PRACTICE AND PREGNANCY IN THE WORKPLACE ACT STATEMENT

We are also doing the TSCM/SEC and Q/C/P in your facility, more details in the communication of last week. TSCM, FCC, and B&K, long programs. Available online. We are also doing the TSCM/SEC and Q/C/P in your facility, more details in the communication of last week. TSCM, FCC, and B&K, long programs. Available online.

The information you have to complete this survey. These programs help us to identify you as we determine your ethnicity. It is important to decide if the surveyor, and supplier you represent are covered by these programs and to tell us if they have other programs in place.

The term "Federally-recognized tribe" means the 567 tribes, bands, and intertribal consortia that are Federally-recognized by the U.S. Government. The term "tribe" means a Native American Indian group that is organized politically as an entity, has a common name, has a common descent or cultural tradition, has a common language, has a common territory, has a common economic life, has a common government, and can maintain its political status as a member of the tribe.

FOR MEDICARE CLAIMS: See the source modify system No. 09-73 0501, titled "Centra Medicare Claims Record," published in the Federal Register, Vol. 58 No. 177, page 37478, 7/1/93, as amended and republished.

¹ Reproduction of Motion of Systems of Records. *Id.* See Reg. VIII, 55 FR 40, filed Feb. 28, 1990. See ESA-5, ESA-6, ESA-12, ESA-13, ESB-1, as amended and republished.

FIG. 1. DEPARTMENT OF PRINCIPLE AND PRACTICE. To evaluate eligibility for medical care afforded by civilian sources and to issue payment upon establishment of eligible and non-eligible cases.

NOTIFICATION OF FILING. The original or a true copy of each document may be given to the Dept. of Migration Affairs, the Dept. of Health and Human Services under the Dept. of Transportation, or to the Head of the relevant administrative or prosecutorial unit in the TRIBUNAL CHAMBERS, or to the Dept. of Justice for transmission to the Secretary of Defense, in each office, or to the Internal Revenue Service, or to a collection agency, or to another legal entity in connection with repayment claims, or to Congress - General Office in response to inquiries made as a result of the provisions of this Act and its laws. Appropriations or resources may be used to offset the cost, save for it, for legal expenses such as when private business entities and individuals, or members of Congress, or others, making the complaint, or whom addressed, incur legal expenses in connection with the filing of a complaint, or for services, or for the recovery, third-party actions, or other expenses, or losses, and damages, incurred in the course of the filing of a complaint in the TRIBUNAL.

DISCLAIMERS: We do not accept or require payment from insurance companies or third parties for services rendered by our office. We do not accept assignment of benefits. We do not accept assignment of benefits. We do not accept assignment of benefits.

This is my voluntary and true statement before I was sworn in as a member of the Board of Governors for payment for services rendered, Davison, 11/20/03 of the Small Business Act and 31 USC 3601-3612 (pertaining to the Small Business Protection Act).

Procedure Note Date: 09/13/2016

Patient Name: Harwell, Danielle
DOB: 08/29/1980 Age: 36 Y Sex: Female
PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion
- Trigger point injections

History of Present Illness

General:

Danielle is a 36-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Danielle states the trigger point injections have provided relief for about 4 weeks. She has continued with regular PT once per week, massage twice per week and regular nontraditional chiropractic. She will be anticipating an epidural steroid injection in the lumbar region in about 2 weeks.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 int'l units capsule 1 cap(s) once a day
- Taking Lamictal 25 mg tablet 1 tab(s) 1 tab once daily 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID
- Taking Naprosyn 500 mg tablet 1 tab(s) pm headache, up to BID
- Taking zanaflex 10 mg tablet 1 tab(s) pm migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Medication List reviewed and reconciled with the patient

Past Medical History

- Asthma
- Esophageal reflux

without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions.

Assessments

1. Myofascial pain - M79.1 (Primary)

The patient will continue with regular PT, massage and chiropractic, in addition to the trigger point injections.

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Procedures

Injections:

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 10 cc was injected with a 25-gauge needle without complication into 10 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness.

Preventive Medicine

COUNSELING: Healthy Living. Patient counseled on the importance of healthy lifestyle. 09/13/2016.

Diet: Patient counseled on importance of lowering sugar intake, sodium and fats. 09/13/2016.

Exercise: Patient counseled on importance of moderate physical activity daily. 09/13/2016.

Follow Up

DO NOT USE THIS FORM IF USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a civil or criminal penalty under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAM ONLY

RIGHTS AND TRICARE PAYMENTS: A patient's signature requests that payment be made and authorizes release of any information necessary in process the claim and certifies that the information provided in Boxes 1 through 17 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and/or medical information and whether the person has employer group health insurance, liability, no-fault, worker's compensation or other insurance which is responsible to pay for the care. For which the Medicare claim is made. See 42 CFR 411.2(b). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In the event a person assigned to TRICARE participation status, the physician agrees to accept the charge determination of the healthcare carrier or TRICARE local intermediary as the "all charges" and the amount is responsible for the deductible, co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items captioned in "Insured" i.e., items 1a, 4, 6, 7, 8, and 11.

BLACK LUNG AND FECA CLAIMS

"I" further agrees to pay the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedures and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (TRICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I certify that: 1) the information on this form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have provided or will provide sufficient information required to allow the payment to make an informed eligibility and payment decision; 4) the claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare under Medicare laws, regulations, and program instructions for payment and does not exceed the Federal anti-kickback statute and Physician Self-Referral Law (commonly known as Stark Law); 5) the service on the form was medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the steady duty name and NPI license # (or SRR) of the primary individual rendering such services is reported in the designated section. For services to be considered "incident to" a physician's professional services, 7) they must be rendered under the physician's direct supervision by his/her employee, 8) they must be an integral, although incidental, part of a covered physician's practice; 8) they must be of levels commonly furnished in physician's offices; and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 6 USC 5508). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or furnishes essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWP to ask you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 205(a), 1802, 1822 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 484.5(a) (6), and 44 USC §101 et seq, 10 CFR 101 et seq and 10 USC 1079 and 1088, 5 USC 8101 et seq and 30 USC 901 et seq; 30 USC 913; E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, centers, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the discrete administration of Federal programs that require other third parties to pay primary to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through means such as information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying System No. 09-70-0501, Med, "Former Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed. Sept. 12, 1990, as updated and republished.

FOR OWP CLAIMS: Department of Labor, Privacy Act of 1974, "Reproduction of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See EOA-5, EOA-6, EOA-12, EOA-13, EOA-30, as updated and republished.

FOR TRICARE CLAIMS: (PRINCIPLE PURPOSE(S)) To evaluate eligibility for medical care provided by civilian sources and to base payment upon establishment of eligibility and determination that the services/supplies rendered are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/CHAMPVA; to the Dept. of Justice for representation of the Secretary of Defense in civil actions; to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment claims; and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURES: Voluntary; however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FICA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-503, the "Computer Matching and Privacy Protection Act of 1988," permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Tel. XIX plan and to furnish information regarding any previous claim for providing such services as the State Agency or Dept. of Health and Human Services may request.

I further agree to accept, as payment in full, the amount paid by the Medicaid recipient for those claims submitted for payment under that program with the exception of non-covered deductible, non-benefit, or patient's or similar cost-sharing charge.

SIX WAYS TO PAY (OR SUPPLIER) (OR INSURANCE): I certify that the services listed above were medically indicated and necessary to the health of the patient and were personally furnished by me or my employee and to my personal direction.

NOTICE: Those who certify that the information is inaccurate and incomplete, I understand that payment and satisfaction of this claim will be from Federal and State funds, and if it is false claims, statements, or representations of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0930-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, e.g., for the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-04, Baltimore, Maryland 21214-2604. The address is for comments on the suggestion only. DO NOT MAIL COMPLETED CL-1M FORMS TO THIS ADDRESS.

**INSURANCE CLAIM
FORMS ENCLOSED**

NOTE: OPEN THIS ENVELOPE FROM THE BOTTOM.

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, SEE SEPARATE INSTRUCTIONS ISSUED BY APPLICABLE PROGRAMS.

NOTICE: Any person who knowingly files a statement of claim containing any misrepresentation or any false, incomplete or misleading information may be guilty of a criminal act punishable under law and may be subject to civil penalties.

REFERS TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS. A patient's signature requires that payment be made and authorizes release of any "information, on necessary to process the claim and certifies that the information provided in Blocks 1 through 12 is true, accurate and complete. In the case of a Medicare claim, the patient's signature authorizes any entity to release to Medicare medical and nonmedical information and whether the person has employer group health insurance, liability, no-fault, workers' compensation or other insurance which is responsible to pay for the services for which the Medicare claim is made. See 42 CFR 411.34(a). If item 9 is completed, the patient's signature authorizes release of the information to the health plan or agency shown. In Medicare assigned or TRICARE participation cases, the physician agrees to accept the charge determination of the Medicare carrier or TRICARE local intermediary as the full charge and the patient is responsible only for the deductible, co-insurance and non-covered services. Co-insurance and the deductible are based upon the charge determination of the Medicare carrier or TRICARE local intermediary if this is less than the charge submitted. TRICARE is not a health insurance program but makes payment for health benefits provided through certain affiliations with the Uniformed Services. Information on the patient's sponsor should be provided in those items contained in "Insurance," i.e., Items 1a, 1, 6, 7, 8, and 13.

BLACK LUNG AND FECA CLAIMS

The provider agrees to accept the amount paid by the Government as payment in full. See Black Lung and FECA instructions regarding required procedure and diagnosis coding systems.

SIGNATURE OF PHYSICIAN OR SUPPLIER (MEDICARE, TRICARE, FECA AND BLACK LUNG)

In submitting this claim for payment from federal funds, I certify that: 1) the information on the form is true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from my healthcare contractor; 3) I have provided or will provide such information required to allow the government to make an informed eligibility and payment decision; 4) this claim, whether submitted by me or on my behalf by my designated billing company, complies with all applicable Medicare and/or Medicaid laws, regulations, and program instructions for payment including but not limited to the Federal anti-kickback statute and Physician Self Referral law (commonly known as Stark law); 5) the services on this form were medically necessary and personally furnished by me or were furnished incident to my professional service by my employee under my direct supervision, except as otherwise expressly permitted by Medicare or TRICARE; 6) for each service rendered incident to my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering each service is reported in the designated section. For services to be considered "incident to" a physician's professional services, 1) they must be rendered under the physician's direct supervision by his/her employee, 2) they must be an integral although incidental part of a covered physician service, 3) they must be of kinds commonly furnished in physician's office, and 4) the services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I (or any employee) who rendered services am not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a contract employee of the United States Government, either civilian or military (refer to 5 USC 8538). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Any one who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and OWC to ask you for information needed in the administration of the Medicare, TRICARE, FECA and Black Lung programs. Authority to collect information is in section 205(b)(1), 1862, 1872 and 1874 of the Social Security Act as amended, 42 CFR 411.23(a) and 42 CFR 5(a)(6), and 44 USC 3101.41 CFR 101 et seq and 10 USC 1079 and 1086, 5 USC 801 et seq, and 99 USC 801 et seq, 38 USC 613, E.O. 9397.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to decide if the services and supplies you received are covered by these programs and to insure that proper payment is made.

The information may also be given to other providers of services, carriers, intermediaries, medical review boards, health plans and other organizations or Federal agencies, for the effective administration of Federal provisions that require other third parties payers to pay primary to Federal programs and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in systems of records.

FOR MEDICARE CLAIMS: See the notice modifying system No. 08-70-0501 issued, "Carrier Medicare Claims Record," published in the Federal Register, Vol. 65 No. 177, page 37549, Wed Sept. 12, 1990, as updated and republished.

FOR OWC CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 35 No. 40, Wed Feb. 28, 1990, See ESA-5, ESA-6, ESA-12, ESA-13, ESA-30, as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S). To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.

ROUTINE USE(S): Information from claims and related documents may be given to the Dept. of Veterans Affairs, the Dept. of Health and Human Services and/or the Dept. of Transportation consistent with their statutory administrative responsibilities under TRICARE/H&PA, to the Dept. of Justice for representation of the Secretary of Defense in civilian actions, to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with re-collection claims, and to Congressional Offices in response to inquiries made at the request of the person to whom a record pertains. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, claims adjudication, fraud, program abuse, utilization review, quality assurance, peer review, program integrity, third-party liability, coordination of benefits, and civil and criminal litigation related to the operation of TRICARE.

DISCLOSURE: Voluntary, however, failure to provide information will result in delay in payment or may result in denial of claim. With the one exception discussed below, there are no penalties under these programs for refusing to supply information. However, failure to furnish information regarding the medical services rendered or the amount charged would prevent payment of claims under these programs. Failure to furnish any other information, such as name or claim number, would delay payment of the claim. Failure to provide medical information under FECA could be deemed an obstruction.

It is mandatory that you tell us if you know that another party is responsible for paying for your treatment. Section 1128B of the Social Security Act and 31 USC 3801-3812 provide penalties for withholding this information.

You should be aware that P.L. 100-508, the Computer Matching and Privacy Protection Act of 1988, permits the government to verify information by way of computer matches.

MEDICAID PAYMENTS (PROVIDER CERTIFICATION)

I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the State's Title XIX plan and to furnish information regarding any payments claimed for providing such services to the State Agency or Dept. of Health and Human Services may request.

I further agree to accept as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductible, co-insurance, co-payment or similar cost-sharing charge.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate and complete. I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1197. The time required to complete this information collection is estimated to average 10 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected. If you have any comments concerning the accuracy of the estimates or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Rm. A104, Reprogs Division, OAS, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. This address is for comments and suggestions only. DO NOT MAIL COMPLETED CLAIM FORMS TO THIS ADDRESS.

Procedure Note

Date: 09/13/2016

Patient Name: Harwell, Danielle

DOB: 08/29/1980 Age: 36 Y Sex: Female

PCP: James Panzarella, DO

Reason for Appointment

- No-Fault - Requires Opinion
- Trigger point injections

History of Present Illness

General:

Danielle is a 36-year-old patient with a history of migraine headaches, cervicalgia and associated trigger point. The patient is here today for trigger point injections. The patient denies any history of allergies to lidocaine, bupivacaine or dexamethasone. The patient denies any history of bleeding disorders. The patient is not on any anticoagulant medications. Prior to the procedure the risks and benefits were discussed with the patient and a written informed consent was signed. The patient has elected to have the procedure performed today.

Danielle states the trigger point injections have provided relief for about 4 weeks. She has continued with regular PT once per week, massage twice per week and regular nontraditional chiropractic. She will be anticipating an epidural steroid injection in the lumbar region in about 2 weeks.

Current Medications

- Taking pantoprazole 40 mg delayed release tablet 1 tab(s) once a day
- Taking loratadine 10 mg capsule 1 cap(s) once a day
- Taking Melatonin 3 mg tablet 1 tab(s) once (at bedtime)
- Taking Vitamin D3 5000 int'l units capsule 1 cap(s) once a day
- Taking Lamictal 25 mg tablet 1 tab(s) 1 tab once daily x 2 weeks, then increase to 1 tab BID x 2 weeks, then increase to 2 tabs BID
- Taking Naprosyn 500 mg tablet 1 tab(s) prn headache, up to BID
- Taking nizatidine 10 mg tablet 1 tab(s) prn migraine, okay to repeat dose in 2 hours, MDD = 2, MWD = 3
- Taking magnesium oxide 250 mg tablet 1-2 tab(s) once a day
- Medication List reviewed and reconciled with the patient

without distress. The speech was clear and fluent. Affect was positive.

Muscular exam reveals 5/5 strength in the upper and lower extremities bilaterally. Prominent trigger points were palpated throughout the cervical and thoracic musculature, including the bilateral trapezius and latissimus dorsi muscles. These focal areas of tenderness are associated with distinct patterns of referred pain. Stimulation of these trigger points reproduces patterns of pain. There is no evidence of muscle deconditioning or wasting. Range of motion about the cervical spine is moderately limited in all directions

Assessments

1. Myofascial pain - M79.1 (Primary)

The patient will continue with regular PT, massage and chiropractic, in addition to the trigger point injections

Avoid migraine triggers such as MSG and nitrates, obtain good sleep, avoid skipping meals and exercise regularly.

Dr. McVige is the supervising physician on site.

Thank you for allowing to participate in the care of this patient. If there are any questions please feel free to call anytime.

Procedures

Injections

Trigger Point injections The risks and benefits of this procedure were explained to the patient, and the patient agreed to the procedure. The patient denied any allergy to the agents used prior to administration. There is no history of bleeding disorder. Trigger point areas were palpated and cleansed with isopropyl alcohol in sterile fashion while the patient was in a seated position within the exam room. I then provided the patient with trigger point injections with equal volumes of 1% lidocaine and 0.5% marcaine (5 cc each). A total of 10 cc was injected with a 25-gauge needle without complication into 10 areas in the back within the trapezius and latissimus dorsi bilaterally. The patient tolerated the procedure well and complete hemostasis was maintained throughout. The patient was instructed to refrain from strenuous exercise, and to apply warm compresses with gentle massage to the area of injection for the next 2-3 days to address any local tenderness.

Preventive Medicine

COUNSELING: Healthy Living: Patient counseled on the importance of healthy lifestyle 09/13/2016

Diet Patient counseled on importance of lowering sugar intake, sodium and fats 09/13/2016.

Exercise Patient counseled on importance of moderate physical activity daily. 09/13/2016.

Attn: Claims Dept

The attached claims have been faxed to Geico. Recently, there has been an issue with the clarity of the claims or they have not been scanned after they have been faxed. This is to verify that they were submitted both via fax and mail.

I hope this will help in getting the claims processed without any delay.

Sincerely,

Kristen R.

HEALTH INSURANCE CLAIM FORM

APPROVED BY NATIONAL UNIFORM CLAIM COMMITTEE (NUCC) 02/12

GEICO Ins Co NY
P.O. Box 9507
Fredericksburg, Va 22401

CARRIER

PATIENT AND INSURED INFORMATION

SYNTHETIC POLY(AMINO ACID) ANALOGUE

BECAUSE THIS FORM IS USED BY VARIOUS GOVERNMENT AND PRIVATE HEALTH PROGRAMS, FREE DISPARATE INSTRUCTIONS IS ISSUED BY APPENDIX B OF THIS FORM.

NOTICE: Any person who knowingly files a statement of claim containing any untrue statement or any false, incomplete, or misleading information, and by entity of a criminal act, shall be subject to civil and/or criminal penalties.

NOTICE TO GOVERNMENT PROGRAMS ONLY

MEDICARE AND TRICARE PAYMENTS: As a health care provider, you must pay attention to laws and regulations that govern the payment of Medicare and TRICARE claims. If any information necessary to process the claim is omitted, your entity may be liable for the amount of the claim plus interest and attorney fees. In the case of Medicare claims, the provider is responsible for timely and accurate submission of claims to the program. Prompt health care providers, namely, hospitals, clinics, contractors, or other organizations which are engaged in paying for services furnished to the individual, are liable under 42 CFR 411.411(a) if they fail to respond, acknowledge, or pay within 45 days of receipt of the information or timely file a claim to the program. In addition, providers of TRICARE health care services are responsible for timely and accurate submission of claims to the program. Payment of claims is based upon the charge determined in the Medicare carrier or TRICARE provider's bill less than the amount submitted. TRICARE is not a health plan; it pays for medical treatment benefits provided through civilian medical facilities and the Uniformed Services. Information on the patient's care should be provided in those areas explained in "Insured," items 1, 4, 7, 9 and 11.

P.L. 101-123 AND HCA 010 HCS

The provider agrees to accept the amount paid by the Government as payment in full for Black Lung and PICA insurance regarding required procedure and diagnosis coding systems.

DISPARATE PAYMENT OF PHYSICIAN OR SUPPLIER (BENEFICIARY, TRICARE, PICA AND BLACK LUNG)

In submitting this claim for payment from Federal funds, I hereby state: 1) I am informed on this form I am true, accurate and complete; 2) I have familiarized myself with all applicable laws, regulations, and program instructions, which are available from the Medicare contractor; 3) I have submitted or will provide sufficient information required to allow the government to make an informed equitable payment of my claim; 4) This claim is neither submitted by me or on my behalf by my deceased, bona fide, company, or company with all applicable Medicare and/or Medicaid laws, regulations, and programs or entities for physician rendering but not limited to the Patient and Family Health Physician Self-Referral Act (commonly known as Black Lung); 5) The services on this form are medically necessary and otherwise furnished to my professional service by my employee under my direct supervision except as otherwise expressly provided by Medicare or TRICARE; 6) In such cases rendered under my professional service, the identity (legal name and NPI, license #, or SSN) of the primary individual rendering such services is recorded in the original record. For variations in my professional service, 7) physician, 8) they must be endorsed only by the physician's direct supervisor by his/her employee, 9) they must be an integral part of a physician's professional services; 10) they must be paid by funds commonly furnished by my employees; and 11) no services of non-physicians must be included on the physician's bills.

For TRICARE claims, I further certify that I, or any employee who rendered services are not an active duty member of the Uniformed Services or a civilian employee of the United States Government or a civilian employee of the United States Government, either civilian or military (prior to 5 USC 6536). For Black Lung claims, I further certify that the services performed were for a Black Lung-related disorder.

No Part B Medicare benefits may be paid unless this form is received as required by existing law and regulations (42 CFR 424.32).

NOTICE: Anyone who misrepresents or falsifies essential information to receive payment from Federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable Federal laws.

NOTICE TO PATIENT ABOUT THE COLLECTION AND USE OF MEDICARE, TRICARE, FECA, AND BLACK LUNG INFORMATION (PRIVACY ACT STATEMENT)

We are authorized by CMS, TRICARE and DOD to use you for information needed in the administration of the Medicare, TRICARE, FECA, and Black Lung programs. Authority to collect information is in section 1805(a), 1802, 1812 and 1874 of the Social Security Act as amended, 42 CFR 411.24(a) and 424.5(b) (6), and 44 USC 3101, 41 CFR 101 et seq and 10 USC 1079 and 1086, 5 USC 801 et seq, and 38 USC 901 et seq; 33 USC 613; E.O. 13377.

The information we obtain to complete claims under these programs is used to identify you and to determine your eligibility. It is also used to check if the services and supplies you received are covered by these programs and to make sure that proper payment is made.

The information may also be given to other providers of services, insurance, intermediaries, medical review boards, health plans, and other organizations or Federal agencies, for the effective administration of these programs and to regulate other third parties prior to payment to Federal programs, and as otherwise necessary to administer these programs. For example, it may be necessary to disclose information about the benefits you have used to a hospital or doctor. Additional disclosures are made through routine uses for information contained in authorizations of disclosure.

FOR MEDICARE CLAIMS: See the notice modifying system No. 09-70-0601, titled, "Gamer Medicare Claims Record," published in the Federal Register, Vol. 55 No. 177, page 37549, Wed Sept. 12, 1990, or as updated and republished.

FOR OIGCP CLAIMS: Department of Labor, Privacy Act of 1974, "Republication of Notice of Systems of Records," Federal Register Vol. 55 No. 40, Wed Feb. 28, 1990, See E&A-5, E&A-6, E&A-12, E&A-13, E&A-30, or as updated and republished.

FOR TRICARE CLAIMS: PRINCIPLE PURPOSE(S): To evaluate eligibility for medical care provided by civilian sources and to issue payment upon establishment of eligibility and determination that the services/supplies received are authorized by law.
